Special Election Proposed By Live Wires on May 6th For Vote on Motor Fire Truck

The purchase of a motor fire truck for the purpose of affording improved fire protection in Oregon City will be placed squarely before the voters of the city at a special election May 6, under the terms of a resolution adopted by the Live Wires of the Commercial club Tuesday. There is a slight question as to whether the election will be held, but the matter is now before Circuit Judge Campbell on an application for an alternative writ of mandamus. Provision is made in the charter amendment to be submitted to the people for the levying of a special tax

of one mill each year for a period not to exceed five years, and the council will be directed to purchase a modern fire truck and establish a paid fire department, with at least two men to operate the apparatus. It is estimated the cost of the truck will be in excess of \$6000. Last year the people, by a close vote, authorized the council to buy a truck and establish a paid department, but no funds were provided in the measure and the council was therefore unable to comply with the wishes of the voters.

Those who favor the proposal assert that the property owners are now paying the tax proposed in insurance premiums, and that the rate of insurance in the city would be reduced sufficiently to take care of the increased expense. The Live Wires will get behind the movement, secure the signatures to an initiative amendment and fight for its adoption. Discussion of the plan brought out the fact that there has been an advance of nearly 50 per cent in the cost of fire apparatus since the matter was voted on by the people last year.
