THE SUBMARINE SITUATION

Many students of the war have felt that once the U-boats were mastered, the issue of the war is no longer in doubt. Considering the terrific striking power manifested in the German spring drive, this opinion now looks premature. But if the submarine can mastered, the situation will be measurably improved.

The latest report of sinkings show ed a total for three months, which if continued for a year, would amount to 4.500,000 tons of all allied shipping. The latest figures indicate that the United States will build at least 3-000,000 tons this year. England should build 1,500,000 tons. From Japan and other sources at least 500,000 tons should be secured, making a probable total of 5,000,000. This will probably

We should not too hastily assume the submarine is beaten. It remains to boats to follow their prey more per- Thursday evening for the Grand sistently, and secure a higher ratio of Lodge and Brother Oddfellows. sinkings. It is encouraging however to note that sinkings for March and

BUSINESS CONFIDENCE

interested in it, even if his proposition were good.

This last supposition is contrary to all human nature. You place a lusclously browned doughnut before a hangry boy. Would he turn away indifferent? Not until boy nature is very

The public is as keen for chances for good values as the hungry boy for the doughnut. Bargain hunting is second nature, and even more so now ture. It also ignores the living conditions existing at this period.

Any kind of confidence attracts, It wins in war, in politics, and in business. The man who has faith in his affair is composed of M. E. DeWitt. propositon and will back it in an ag- chairman; Mrs. J. N. Dustin and Mrs. gressive way, is the winner in all W. Brown. fields. The man who lacks that conis sure the public will think so too on section of the county.

BRITISH BREAD

If any American is so mean-spirited as to begrudge the wheat we are saving by forced economy and sending to our allies, let his comsider these

In this country, as our food adminletrator reminds us, we are only asked to eat "less wheat bread." In Great Britain the people are being urged today to "eat less bread," which is to say, less of the only kind of bread they have. And that bread is far inferior to ours.

The wheat we save for export is not made into white flour. Whereas we mill only 71 per cent fo the whole grain for our use, the British mill 85 2 east; \$10. per cent. Thus they have a dark, heavy flour to begin with. With that they are required to mix at least 25 86 of Oregon City; \$10. per cent of other grains or potatoes. The proportion is often as much as Miller and wife, tract A in Clacka-50 per cent.

The French bread, according to all reports, is much worse.

Thus we are not giving out British and French friends any of our white bread, or any of the light and palatable mixture we are beginning to call "war bread." We are simply helping to keep them from starvation by insuring that they won't be deprived altogether of the heavy, unpalatable bread they are eating.

It is the literal truth that we feed our pigs and chickens better stuff than many of our allies have to eat.

With three separate and distinct investigations of the aircraft situation running simultaneously at Washington, it is evident that the fur will dy whether the planes do or not.

LOCAL SPEAKERS AT WAR CONFERENCE IN PORTLAND THURSDAY

A number of Oregon City people are in attendance at Oregon's first war conference at the Public Auditorium this week. County Judge H. S. Anderson is a prominent figure at the food administration meetings. Wednesday John W. Loder and W. T. Milliken attended the conference.

At the general meeting of all delegates at noon Wednesday, held to consider ways of eliminating the waste of various government departments in sending out such a flood of publicity and propaganda to newspapers, Lloyd Riches, secretary of the Oregon State the up-state press of Oregon. H. E. Thomas, city editor of The Oregonian, spoke for the city papers. Both gave facts of the vast amount of waste in this way and as a result the conference asked the State Council of Defense to urge the government to discontinue its present practice, co-ordinate all publicity under one head and eliminate the present waste.

The Henrici school held its closing exercises Tuesday evening, May 21, at the school house. Rev. E. E. Gilbert, pastor of the Methodist church, made the address to the graduating class. Two graduates, Imegene Hannum and Lloyd Henrici, were presented with beautiful flowers. These graduates will continue their studies at the Oregon City high school next fall.

More than 50 per cent of the pupils of the Henrici school received spellwas christened with tiny candy hearts ing diplomas during the recent test under County School Superintendent Brenton Vedder, and have received a Isnogis.

grade of 98 per cent in four contests. In order to make a standard school of the Henrici district, the directors of that district changed the windows the army, two in the United States of the building according to necessary requirements. The money raised at the school entertainment will be used for painting the interior and exterior of the building.

At a special meeting of the school board a vote was taken for a nine months' term for next fall, and Miss Mae Belknap has been re-elected teacher for the coming school term with an increase of salary of \$10 per month. Miss Belknap has been a most successful teacher since taking up her work in Clackamas county.

Harold Lindsley has been elected director to fill the vacancy caused by the resignation of Oscar May. This district went over the top by

\$20 on its quota of \$58 on the first day of the Red Cross Drive. At the entertainment given the women of the district sold pies made according to Hoover's instruction, which netted a profit of \$30 for the benefit of the school.
