Catarrahl Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrahl deafness, and that is by a constitutional remedy. Catarrahl Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed it causes a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrahl Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, etc.

Macksburg

MACKSBURG, Aug. 8.—The threshing is in full operation with the usual quota of men. The grain, so far, is turning out better than was expected, giving reason to think that before its finish, the harvest of 1918 will compare well with those of other years.

The Mothers' club had a very pleasant meeting last Thursday at the home of its president, Mrs. John Helper, Mrs. Potraz, Jr., and Mrs. Henry Welch, with their children, were visitors at the club. The next meeting will be an all day session at the home of Mrs. G. M. Baldwin, on Thursday, August 15.

The Little Girls' Sewing circle will meet on Saturday afternoon, August 10th, at Mrs. Baldwin's home.

The Red Cross auxiliary held its usual meeting Wednesday, July 31. At this meeting a letter from the Chairman of the Council of Defense committee, was read, giving the information that the government had called for 25,000 men and girls to volunteer as nurses, in order to release the present force of trained nurses for trans-Atlantic service. The Council of Defense and the Red Cross are cooperating in this work. Oregon's quota is 310, and it is believed that when the matter is fully understood that number will be easily raised, for it gives an opportunity to acquire the training necessary to procure a nurses diploma, never before offered. As is well known, many who have wished to become trained nurses have found the expense of fitting for the service too great for their means and for this reason have been obliged to give up a much wished for career. The U. S. government now removes this obstacle, by offering to applicants, who meet the requirements, the essentials of board, uniforms and money to procure the necessary books. A high school or better still a university diploma would be an advantage, but one is not imperative, where all other requirements are met. These are good health, character and sound common sense. The required age is from 19 to 35. All who wish to inquire into the matter address Mrs. W. W. Irwin, Chairman of the Council of Defense, Aurora, Oregon.

There was never a busier community of women that the wives and daughters of the ranchers at the present time. Added to the tasks of fruit-preserving and of catering to hungry threshers, besides getting the children's lothes ready for the approaching school term, is the Red Cross work. This takes at least a day a week for those who engage in it.
