

JELLY MADE WITH SAVING SUGAR

Right Ratio of Juice and Sweetening Is Essential to Success

By using the exact amount of sugar with each kind of fruit juice, and by right cooking methods, a good jelly can be made with substantial saving of sugar.

No practicable way by which housewives can make the test is known, since it involves the use of grain alcohol, not obtainable in Oregon.

Jelly should be made quickly. Long boiling gradually destroys the pectin. The juice should be considerably reduced, frequently about one-third, before the sugar is added.

EVANGELIST SUNDAY IS WILD EYED AT KAISER

Salem, Or., Aug. 26.—Billy Sunday, world-renowned evangelist and whitom famous baseball player, batted 1,000 per cent before a huge audience that packed the Salem armory yesterday when he launched the Salvation Army war fund campaign which opens activity in Oregon September 15.

The speaker exhausted his vocabulary in anathematizing the Huns whom he excoriated from "Attila to Wilhelm." The more vigorous his language became and the more profusely he perspired after doffing coat, collar and cravat, the louder his audience cheered.

"Whenever I mention the kaiser I want to wash out my mouth with a disinfectant, and I feel the same way about Von Hindenburg, the low-down, bull-kneed, hog-jowled, wax-eyed wienie eater. There is nothing in the category of cruelty that the God-forsaken bunch hasn't stooped to do in this conflict."

IN SOCIETY CIRCLES

J. A. Roman, a civil war veteran, member of Company H, Pennsylvania Buck Tail Regiment, who has been attending the National G. A. R. encampment in Portland, observed his 81st birthday anniversary at his home at Mount Pleasant Sunday, an event long to be remembered by those attending.

The decorations of the Roman home were very attractive, and were patriotic. Instead of using floral decorations, the national colors were in their stead, the candles were omitted from the huge birthday cake, and small silk flags were in their place, making a very artistic design, and pleasing the veteran. A delicious repast was served.

Attending the birthday anniversary were Mr. and Mrs. John W. Gerber, of Portland; Mr. and Mrs. D. L. Adcock, Mrs. Mary A. Critser, Misses Elsie, Harriet and Beulah Snidow, of Willamette; Annette and Myra Adcock, of Willamette; Mr. and Mrs. W. L. Snidow and daughter, Mary A. Snidow, of Gladstone; Mr. and Mrs. J. A. Roman, Miss Emma Roman, Miss Harriet Roman, of Mount Pleasant; Edwin Baker and daughter, Mrs. Rose, of Pasadena, Calif.; Mrs. Besse Adcock, of Willamette.

A son, William H. Roman, and a daughter, Mrs. Mary R. Boomes, residing at Weaubleau, were unable to attend the reunion. A grandson, Joseph Gerber, wife and son Joseph, Jr., of Portland, not being able to attend the event on Sunday, were visitors at the home of Mr. Roman Saturday evening to extend their congratulations to the veteran.

43 REGISTRANTS FOR SELECTIVE SERVICE LISTED

Following is the list of 43 young men who registered here Saturday for the selective service. Just what percentage of these will be available for class one cannot be ascertained until their questionnaires are filled out, but an estimate placed by officers of the local board place the number at about 20.

The registration material for the big call of September is arriving at the office of the local clerk, and the task of compiling the data essential to the registration is going rapidly ahead. It is thought that the registration for men 18 to 45 will take place some time after the first week in next month, possible between the 10th and 15th.

The list of boys registering here Saturday follows, and shows that they are all white men. Three of the young fellows are married, and a number are engaged in productive agriculture pursuits.

"We have heard," said Sunday yesterday, "that the kaiser has claimed he can control 3,000,000 votes in this country through the German-American alliance. To hell with the German-American alliance. It says it can control the destiny of this country. Well, it has another guess coming. The only way we can prevent another war is to destroy the principles that caused this one. The guns of the United States are going to help dig the grave of Prussian militarism and it is up to us to furnish the spades."

BAKER COUNTY WOMAN BRINGS DIVORCE SUIT

Winnie Leone Crawford was married in Bourne, Baker county, in 1902 to James Crawford, says her complaint for divorce filed here, and in March, 1914, he deserted her, while they were living at Los Angeles. She states that he abandoned her without cause or provocation, and besides the degree of separation she asks the custody of the three offspring of the union, Gerald, aged 17; Maxwell, aged 12, and Marvin, aged 7.

STEAMER WEST BRIDGE IN PORT

According to the Associated Press reports in a St. Paul paper, the steamer West Bridge is safe in port, and not sunk as was reported, although torpedoed. Orlando and Harry Romis, sons of Mr. and Mrs. C. F. Romig, of Willamette, are on the boat, and the anxious parents will be greatly relieved.

Selects to Live High 75 Cents Per Meal Drafted Men Report

Here's a bit of good news for the 66 boys of Clackamas county who are to mobilize at Sheriff Wilson's office Sunday afternoon at 4 o'clock. They will be allowed 75 cents per meal instead of 60 cents, which has been the price allowed draft men heretofore. The news came Saturday in a bulletin from the adjutant-general's office, and the order will be carried into immediate effect for the lads who embark Monday.

ZERO HOUR CAMPAIGN ATTEMPTED BY STATE IN NEW LOAN DRIVE

The all-important "zero hour" of the battles in France is to have its counterpart in the campaign of the Fourth Liberty Loan in Oregon.

Battles in France are timed from an hour, or minutes of an hour. This time is known as the "zero hour" and is a secret closely guarded by the division heads. All movements of troops and all action is based on time calculations made from the "zero hour."

A certain infantry receives instructions to take a certain objective at so many minutes past the zero hour. In that way a whole campaign can be worked out in detail, with all commanders fully aware of their relation to other movements, waiting only the secret which is the key to the whole movement.

Oregon's "zero hour" for the next Liberty Loan is nine o'clock, September 28. This is to be the watchword of the whole drive and through voluntary subscriptions this state is expected to have attained all objectives and again be "over the top" first by nine o'clock of the day when other states will just be getting into action.

County managers and committee men in their recent meeting in Portland decided that it could be done; that all Oregon needed was to be told how much Uncle Sam needed, and how badly he needed it, and its patriotic citizens would each do their part so willingly that the effort of soliciting committees would not be needed.

Symbolizing this whole scheme, state headquarters has sent to all papers in the state a graphic interpretation of the spirit of the campaign. It is a small clock with the "zero hour" nine o'clock pointed out by the hands. At the top, a soldier in an expression of grim determination brings home the spirit of accomplishment while at the bottom is Uncle Sam, confidently looking at the time indicated. It is up to Oregon to see that he is not disappointed.

Buttons for subscribers to the next loan have also arrived in Oregon and are now being distributed to the county organizations. The button is slightly smaller than the last. It is patterned after the honor flag of the last loan, being a rectangle of white bordered with red and crossed by the four blue stripes, symbolizing the Fourth Liberty Loan.

Posters and other advertising matter are arriving in great quantities and problems of previous drives with regard to slow deliveries of supplies have been overcome with early movement from Washington in the way of large posters and lithographs and local production of the smaller matters.

Local committees will get what they want when they need it so that they will be able to offer their subscribers every inducement to make his voluntary declaration in plenty of time to make good the plan of the state committees.

DRAFT BOARDS REMAIN INTACT IS NEW RULING

A highly interesting bit of information has been received from the adjutant-general's office to the effect that the war draft board members who are public officials will not be allowed to sever their connection as exemption board members by reason of their official term expiration. And under no circumstances, the advices intimate, will the Clackamas county board be allowed to resign from their war duties.

The opinion was received at the request of Clerk Harrington who announced to the adjutant-general's office that as her term expired January 1, 1919, she was preparing to sever her connection with the local board. The opinion announced that board members would continue their official work as presidential appointees, until the president saw fit to remove them, and that board memberships in Oregon would not change under any circumstances on account of the termination of the clerks and sheriffs on the various boards. In other words the local boards throughout Oregon are to continue in office for the duration of the war, or until the president of the United States sees fit to change their personnel.

The letter from the adjutant-general's office was highly complimentary to the work of the Clackamas county exemption board consisting of Miss Harrington, Sheriff Wilson and Dr. Mount.

MARY JANE GETS DIVORCE

Judge Campbell Monday issued a divorce decree in favor of Mary Jane Meyers, from Arthur H. Meyers, to whom she was married in Mouthouth, in 1907. Cruel and inhuman treatment was the basis for the action.

Let Us Do Our Full Duty

The Fourth Liberty Loan Campaign will open formally throughout the country on September 28th, but a preliminary educational campaign will be undertaken in Oregon commencing on September 15th, for which purpose organization is now being perfected.

The citizens of Oregon have resolutely met every duty and obligation incident to the war, and have placed their State amongst those who rank foremost in duty well performed. We expect that this standard will be maintained in the Fourth Liberty Loan Campaign.

Some interest is being manifested over the city in the coming municipal election for amendments to the charter. The election is set for September 24, this date being selected far enough in advance of the date of the city officers to permit candidates for the city officers to file their respective nominating petitions with the city recorder.

STUDENT CORPS TO GET FULL PAY AND EQUIPMENT IS ORDER

Full pay, subsistence and uniforms will be given members of the students' army training corps, just authorized by the war department, according to a telegram received by John K. Kollock, executive secretary of the Oregon State Council of Defense.

The four institutions in Oregon in which these corps will be organized this fall are the University of Oregon, the Oregon Agricultural college, Reed college and Willamette university. Approximately 150 students and faculty members from these institutions are already at the Presidio training to be instructors of the corps when it is formed in the fall.

Resolutions in favor of the Lane plan were adopted and Professor Frank Adams, of the University of California, was delegated to make a tour of the states west of the Rocky mountains, together with Professor H. D. Scudder, of the Oregon Agricultural College and E. W. Barr, representing the Washington state land settlement board, for the purpose of arousing those states to the need for action in providing increased acreage for agricultural purposes.

The three delegates from the coast states will go to Los Angeles today, where they will meet with leading commercial bodies.

CORVALLIS, OR., AUG. 23.—Members of the Washington soldier detachment at the Oregon Agricultural college have taken out the maximum amount of insurance allowed by the government—\$10,000 each, or \$2,330,000. Not a man in the detachment would take less. The Californians who recently completed their course of training also batted 1000 per cent in insurance. It has been suggested that Captain Walter L. Tooze Jr. detachment commander, and Lieutenant Carlo S. Morbio, adjutant, should go into the insurance business after the war, due to this perfect score in writing insurance. The total for the two detachments is \$5,800,000.

GEORGE TEN EYCK IS SELECTED TO ATTEND BENSON POLYTECHNIC

George Ten Eyck, of Sandy, has been accepted by the local draft board to fill the vacancy at the Benson Polytechnic school caused by the failure of Ennis E. Gabriel to qualify. Gabriel was one of the 12 class one men to go last week to the school for a two months preparatory course in mechanics, but due to an injured knee was sent back. Mr. Ten Eyck is a well known business man of the Sandy district, and has been married in the past month. He and his bride have just returned from their honeymoon, made on horse-back to the Mt. Jefferson park. He will leave here Tuesday morning for Portland.

NO NEW SCHOOLHOUSES TO BE BUILT DURING WAR. WASHINGTON, Aug. 28.—No new schoolhouses may be built during the war, the War Industries Board announced today, except for replacement. The board made this ruling when approval was asked of a plan to expend \$9,000,000 for schools in New York.

This ruling, it was said, will apply also to the construction of any public buildings, including postoffices, not actually needed for war purposes.

PAPER CHANGES FRONT. LOUISVILLE, Ky., Aug. 28.—The Louisville Courier-Journal, which under the ownership of Colonel Henry Watterson bitterly opposed suffrage, came out today for votes for women. The new publisher, Judge Robert W. Bingham, has changed the policy of the paper.

Whether the name of Standish will continue in the state's newspaper directory remains to be seen, for the newspaper game is not the most remunerative work, but full of enjoyment, responsibility and some troubles. Goodbye seems a useless term in this Estacada country for we all seem to come back again and maybe "ye editor" will be no exception. Whether it is the climate, people or both that is the attraction, we know not, but the fact remains that this country acts as a magnet to those who have once made it their home.

As to the plans of R. M. Standish and family, no announcement is forthcoming, for we haven't landed a job yet, although we have been flattered by the offer of the editorship of a couple of good Oregon newspapers. If at times we have taken ourselves and our newspaper a little too seriously, it was because we firmly believe that there is no factor in the life of this community or any other, more important than the home newspaper. And we pity any community that has to struggle along without one, for it will lose its identity, cease to work unitedly and backslide ultimately.

ESTACADA EDITOR QUILTS PAPER

Bob Standish Says Plans for Future Are as Yet Unknown

Troubles, though, have been few and far between in the past four or five years during which "ye editor" has published the home paper. While he has always found a scrap when looking for one, he has thoroughly enjoyed the work and tried to shoulder his share of the community's responsibilities; and such meager success as has been attained has been in large part due to the loyal support given by the subscribers and advertisers.

Whether the name of Standish will continue in the state's newspaper directory remains to be seen, for the newspaper game is not the most remunerative work, but full of enjoyment, responsibility and some troubles.

Goodbye seems a useless term in this Estacada country for we all seem to come back again and maybe "ye editor" will be no exception. Whether it is the climate, people or both that is the attraction, we know not, but the fact remains that this country acts as a magnet to those who have once made it their home.

COL. ROSENVELT LOOKS FORWARD TO WAR'S CLOSE

SPRINGFIELD, Ill., Aug. 26.—Speed up the war, prepare to defend ourselves afterward and make ready to solve the industrial and social problems which will come with peace, were the demands of Theodore Roosevelt expressed in an address here today. Colonel Roosevelt spoke at the centennial celebration of the admission of Illinois to statehood.

"The two great needs of the moment," he said, "are to insist upon thorough going and absolute Americanism throughout this land, and to speed up the war; and secondarily to these come the needs of beginning even now to make ready, to prepare for the tasks that are to come after the war, the task of preparing so that never again shall war find us helpless, and the task of preparing for the social and industrial problems which this earth-shaking conflict of giants will leave in its ruinous wake."

"For the moment the pacifists and internationalists and pro-Germans dare not be noisy. But let our people beware of them as soon as the peace negotiations begin and from that time onward. They have worked together in the past and they will work together in the future."

"The pacifists are the enemies of righteousness. The internationalists are the enemies of nationalism and Americanism. When peace comes let us accept any reasonable proposal, whether calling for a league of nations or for any other machinery which we can in good faith act upon, and which does really offer some chance of lessening the number of future wars and diminishing their area. But let us never forget that any promise that such a league or other piece of machinery will definitely do away with war is either sheer nonsense or rank hypocrisy."

"The speaker advocated universal obligatory training of boys between 19 and 21. Referring to the effort to end the war as early as possible, he said, "by next spring we should have thousands of our own field guns and scores of thousands of our own airplanes at the front, and an enormous ship tonnage in which to ferry across so many troops that by April we may have 4,000,000 trained fighting men at the front, not counting non-combatants and reserves."
