It is the Portland Rod and Gun lub and fishwheel owners (who want everything for themselves) that are urging you to close the Willamette river to commercial fising. They, and not the state authorities, have been the ones who have closed the river through the legislature.

When the anglers only fished at the foot of the falls in order to "protect salmon," they closed to commercial fishermen the river 600 feet below the ladder. When anglers began to fish the falls and the rapids "protection of fish" was needed there and as a result the river was closed to the suspension bridge. Then the anglers began to catcch salmon along Jennings Lodge and as a result ("to protect salmon") they hired a special train to take about 100 of them to Salem at the time the legislature was in session to see that the Willamette was closed for "protection of fish." So it is hard to see where and when the state authorities wanted the river closed when it was the Portland Rod

and Gun Club. And further proof to show that the Portland Rod and Gun Club want the Willamette as a play ground is shown by the fact that this measure which they are in favor of, limits the catch of salmon to one a day and not allowed to sell that. This shows plainly that the closing of the river is wanted by the rich Portland Anglers for a plya ground rather than for the pro-

He is remaining at his office in Salem attending to the business of the state and cooperating with the national administration in every war time activity Not so with Walter M. Pierce, who opposes him for the Governorship Mr. Pierce is and for weeks has been making a thorough canvass of the state urging his candidacy upon the voters

Mr. Pierce is the running-mate of Oswald West, Democratic candidate for senator, who has announced that he will make a number of addresses arging the election of Pierce.

Sure! "Politics is adjourned'-for the Republicans.

The Democratic candidate for governor is busy running over the state trying to explain that he is not affiliated with the notorious Non-Partisan League. To be sure. Any student of simple artihmetic could easily figure how many votes an avowed non-partisan league candidate might expect in patriotic Oregon. But the fact remains that Brother Pierce took a prominent part in the organization session of the Non-Partisan League less than a year ago in Portland and address. Mrs. A. Meanwhile why should the voters of Oregon even consider placing a new and untried man in the governor's chair when we all know where Governor Withycombe stands? Our present war governor has more than made good. Furthermore he has not Private Ray Percivall, emergency even been accused of any connection with the despised Non-Partisan league which is being vigorously repudlated by loyal-hearted Americans the country over. Is it well to take chances in war times?

For governor the Republican party has in the person of its nominee. Governor James Withycombe of Sa lem, a business man and a student Corporal Jefferson Lee, emergency of affairs, whose training and whose war in its governor is a strong exec utive, who can see that the business of the state is properly managed, who can organize and look forward to tomorrow. Governor Withycombe is a man with the vision to see great development for Oregon and he will not have to look back, shaping his administration on mere precedent.

The state needs new laws, it needs new industries, it needs proper coordination of its industries. To accomplish these things a man of wide business experience is needed. Mr Withycombe understands the needs of the business and at the same time he has kept in close touch with the laboring men, knowing their needs and desires. He does not need the governorship of Oregon, but the government of Oregon needs him. -Silverton Tribune.
