JAMES CARDINAL GIBBONS

Prominent Man Urges Backing For Soldiers

By James Cardinal Gibbons

America, through her soldiers in France, has voiced the spirit that leads to victory. They are our sons and brothers; flesh of our flesh, and the spirit that inspires them inspires us also.

The forest rangers will collect this data in connection with their other duties, so it will be secured at very little expense. The road logs will be prepared under the supervision of P. H. Dater, district engineer.

one will see that the sum is none too great for this enormous task. We can not shirk it. We cannot shift it. To attempt to do so would be to prove false to the men who are giving their bodies and their lives for our national safety.

It is an American campaign. Its appeal is one that no American may refuse, and America's answer will be another triumphant announcement that we are in this war as one people and as one nation to see it through to victory.

The National Catholic War Council is one of the seven organizations that have united under the government for the raising of this fund. This means that the entire Catholic church of this country is to summon to the service of our country all her resources; to voice again in corporate expression the unexcelled patriotism that has ever distinguished her.

The Knights of Columbus have built halls of recreation, furnished secretaries; supplied equipment for entertainments of all kinds in our camps at home. They have sent their secretaries by hundreds across the seas and there they labor at points of debarkation and right up to the firing line, assisting, comforting, gladdening the hearts of our soldiers.

We have carried the work of the National Catholic War Council through the country. Every Catholic society has offered its members for personal service and opened its club buildings to our soldiers and sailors. We have erected visitors' houses within the camps for the comfort of mother and sister and all the women who visit their beloved ones. We have erected community service clubs. We have carried our protective work for young women, both in camps, in the large cities and industrial centers.

The entire Catholic body of the country is organized to crown this campaign with victory. Every diocese has harnessed its own resources, will work with the state committees of the United War Work Campaign and give the utmost service.
