

Newsy Briefs From All Over the County

Macksburg

MACKSBURG, Nov. 14.—The drive for the seven-fold war campaign begins in our district today, while the distant random gun is bringing to our ears the glad tidings that the war is nearing its end. The Sunday news of the German Emperor's abdication shows that the crisis has come and we are awaiting the outcome of the next historical day. Meantime the work of preparing for next year's food supply goes uninteruptedly on. Rapidly the soil is being fitted for the new crops, and many fields are green with the young growth of grain. The impetus for food providing given by the war shows no sign of subsiding. War with its horrors will make the devastated countries look to the United States for supplies long after the Treaty of Peace shall be signed. The farms have all increased their planting area, within the last year, and clearing is going steadily on. The fowls, both of the barn-yard and of the aquatic kind, are inkurating in the freshly-plowed soil and are making very fair return. The rich new pasture is increasing the dairy output while reducing the burden of providing feed.

The canvass for the new war drive in our precinct has been taken up by Miss Helen Rathinberg, assisted by Miss Hepler, who reported a very encouraging beginning at the close of the day.

The Red Cross auxiliary held its regular weekly meeting at its rooms on Wednesday, November 6, and finished all the work on hand. The completed garments were sent in to headquarters by Mrs. John Hepler, chairman of the auxiliary, before the week's end.

Present as visitors were Mrs. Cart Damm, Mrs. Garrett, Mrs. Abe Hepler, and Mrs. Will Damm, who rendered valuable aid in the work. While the ladies were working, the telephone message from Canby bringing the good news was received. The next meeting is to be at the home of Mrs. Simon Miller.

bee, of Idaho, is getting well from a pulmonary disease so rapidly that the apprehension of her friends has given way to a decided hope for her entire recovery.

A timber fell on him while he was in the water, breaking his arm and several ribs. He was taken to Good Samaritan hospital and later brought home, where he is improving slowly.

MOWERS RAKES TENDERS BINDERS HEADERS REAPERS

my last letter from you some time in February. Since then, I have written 6 or 8 letters, and not having any answers, I concluded you had passed away. My wife claims you are still alive, but not being able to believe everything she says, I am writing to make sure. Probably you have been giving away military secrets in your letters, and the censor caught you and had you shot.

The war is going good for me. The Hunns are asking for peace, but all the peace I can give them until they are ready for unconditional surrender, is a piece of my mind and several pieces of lead.

The October weather is very good. There are lots more game birds than in Oregon. Would like to go out and kill some Chinas down by Baumbacks, but can't get away.

Work is plentiful and sleeping warm. I am eating good and sleeping warm. There are many worse places than this, but I will be glad when we have finished the Boches and get to moving toward Berlin and then home.

The roads in France are all good. There are thousands of "Dodges" over here. If you had roads like these, your job would be a cinch. It will be hard to get used to the rotten roads of Clackamas county again.

I get the Oregon City Enterprise, but I seldom see your name in the Sandy news columns. You should get a good stand in with the reporter. Maybe you do love the reporter and that's why, I can't hear from you.

I have been here so long that when I dream, its in French, and I can't understand all of it, not knowing the language yet. It is even hard to understand the dogs because they bark in French. All the telephones are made for using only French. It makes it hard for me to use them.

I am getting poetical lately. I write some of the most beautiful poems. The war department can't use them, so I am losing money on them.

Hoping this finds you the same, I am poetically yours.

SANDY RIDGE MAN HOME
After some harrowing experiences, Gerald Wilcox, of Sandy Ridge, arrived home a few weeks ago. Mr. Wilcox was on a merchant marine which was shipwrecked in the southern Pacific ocean. The crew was stranded on a small coral island for two months. Fifty-five of them, including a few natives lived in this barren island. The shipwrecked crew saved their provisions and these with the fish they caught and the plentiful supply of bird's eggs in the first few weeks, provided all with plenty to eat. As time passed, however, and their signal for help failed to bring a vessel to the rescue, their stock of eatables grew smaller, the birds quit laying, and before they were finally rescued, their rations consisted of a spoonful of beans for breakfast, ditto for dinner and a spoonful of rice for supper. The island was in the path of the sailing vessels but these had been warned not to pay any attention to help signals on account of the German raiders in this locality.

ELECTION DAY QUIET
In the city election three women whose names were not printed on the ballot, run strong. Blanche R. Shelley defeated Paul R. Meinig for mayor, receiving thirty-three votes to his nineteen. Alice Scalos and Edna Essoh carried twenty-eight and twenty-seven votes respectfully for the council. C. D. Purcell received 30 votes for recorder. Wirtz 40 for treasurer. For councilmen, Alfred Bell 32, Henry Perret 28, L. E. Hoffman 24, Casper Junker 26, Fred Proctor 44, Otto Meinig 32.

LOCALS
R. E. Esson writes that he recently had a letter from Harry Reed, who is with Hospital Unit No. 46, saying he was making quite a bit of money on the side by his barber trade. Harry also said John Bickford was contentedly nursing gas engines, and Young Milan was a steady K. P. (kitchen police.)

Mr. A. Deaton and family of Portland were guests of the Hoffman family this week.

Sophia Zogg is at home on Sandy Ridge recovering from an attack of influenza in Portland, where she is a student of the Benkhe-Walker Business college.

The Burnett family, on the Bluff Road, have all been down with influenza, as have the Ganger, Hanaburger, Phelps and Winfree families at Bull Run.

Matt Macho, of Sandy Ridge, is with the heavy artillery in France.

Carl Krebs is recovering from an attack of influenza at Camp Lewis.

Joe Haley is now in France. He is a corporal in the marines.

Mrs. Edna Esson went to Oregon City last Thursday.

Word was received here Thursday of the death of Edward Miller, who died at the Mt. Scott County hospital, Wednesday night. Mr. Miller lived in Sandy for many years and was formerly a shoemaker.

The city council met in regular session Wednesday evening and passed a bill levying a nine mill tax on all real and personal property inside the city limits. The resignation of H. S. Eddy as marshal was accepted.

Sandy News
FORMER SANDY BOY WRITES
Clarence Kehres, a brother of Mrs. Ed. Wolf, who was well known in Sandy a few years ago and who is now with the U. S. Marine Medical corps, writes from France under date of Sept. 29th, as follows:

Dear Mother and all: Having arrived safe in France a few days ago, I thought I would write you a few lines to let you know that I am well and getting along just fine.

We are having quite a little rain at present.

The trip across the Atlantic was very pleasant and I enjoyed it very much, the I was kept quite busy the entire time, for we had a little sickness aboard ship, especially sea sickness. I was fortunate enough not to get sea sick. The ocean was quite smooth most of the way across.

After we landed here, we went on a four-mile hike to the camping grounds, where we put up our tents and are now living in them. It's a little inconvenient at times, especially when it rains. On our hike we passed French children, some wearing wooden shoes. They would follow the boys begging for pennies, cigarettes and chewing gum. When we were eating our lunch, they would come around and beg for something; to eat, and pick up the cracker crumbs. What the French nation has gone thru! They always have a smile for the Americans.

Every inch of ground that we passed so far is under cultivation, but don't see any fences like in the U. S. A., but embankments covered with vines and trees. The houses are built of stone. With love and best wishes.
