

Here's a Chaplain, Preaching to Our Boys, Who Has a Right to Title of "Sky Pilot"

Here is a real "sky pilot." This picture shows a chaplain conducting Sunday morning services at an aerodrome "somewhere in France," from a most unusual pulpit. Lacking a pipe organ and a surpliced choir, the chaplain and his congregation are doing very well with the aid of a band. His right to the title of "sky pilot" is vouched for by several aviators with whom he made flights at the front.

MANY YEARS OF RULE IS ENDED BY GREAT WAR

WASHINGTON, Nov. 9.—William Hohenzollern, German Emperor, King of Prussia, has decided to renounce the throne.

This declaration is made in a decree issued at Berlin by the German Imperial Chancellor, Prince Max of Baden.

The German Crown Prince will also renounce the throne and a regency will be set up.

Prince Max will remain in office until matters connected with the abdication of the Emperor are settled and Friederich Ebert, Socialist president of the Social Democratic party, will replace him as Chancellor during the regency.

Thirty years and almost five months after he ascended the imperial throne William Hohenzollern, his armies defeated in the field, forced to sue for armistice terms and the German people rising in revolt, gives up his power.

He came into authority with the country at the threshold of an era of peace and material progress, he leaves it torn by revolution and suffering from the hardships and sacrifices of more than four years of war—virtually ruined.

Prince Maximilian, the Imperial Chancellor, will remain in office until questions connected with the abdication of the Emperor are settled.

For the regency of Frederick Ebert, a Socialist and president of the main committee of the Reichstag, will be Chancellor.

THE OATH

I will not drink from a German cup, Or eat from a German plate; I will not deal with a German man, All foul with German hate. I'll use no drug with a German name, That's grown on German land. I'll eat no food and drink no beer If made by a German hand. I will not use a German tool—Razor or knife or saw. I will not trade with a German shop, That lives by the German law. I will not sail on a German ship, Where German songs are sung. I will not breathe where God's clean air Is soiled by a German tongue. I'll not forget those awful deeds, To "Iris and little boys. No more I'll hang on Christmas trees Those blood-stained German toys. I will not take a German's word—He'll break it if he can. There is no love in a German heart, Or faith in a German man. This is my oath when war is done. I'll swear to keep it true. And since I know you feel the same, I'll pass it on to you.

—ANONYMOUS

The prevalence of Spanish influenza with its attendant bans on public gatherings and the closing of many colleges and universities presents a peculiar situation with which the student division of the allied war work campaign must contend in securing its quota of funds in the United War Work drive.

The student campaign directors, however, glorying in their ability to overcome any obstacles that might stand in the way of a successful campaign, have found a way around this difficulty. This way around is no other than a correspondence campaign in which every student who can not be reached by personal solicitation will be solicited at long range through the medium of Uncle Sam's postal service.

From Our Boys Here and Over There.

Corporal Dallas Armstrong, son of Mr. and Mrs. J. E. Armstrong, of Tenth and Water Streets, who is in England, writes of his appreciation of his mite from the Patriotic Edition of the Morning Enterprise, and says in part as follows:

A. R. C., Romsey, Hauts, Tuesday, September 17, 1918.

"Dear Friends: "Last Thursday I received the letter with the good old dollar bill in it. Ah! That greenback! That's what I call real money. It looks like money. "I have been dealing in pounds, shillings and pence for so long that a piece of American money looks good to me. I will have to admit though that an American coin looks a little odd now that I have been spending half crowns, florins, shillings and six pences for so long. When I get back I fear I shall go into the Falls and ask John Bauer for a shilling's worth of so-and-so instead of saying 'two-bits worth.' "Let's see—I have been away from the U. S. A. nine years—or is it months, the 11th of this month? Two years of that was spent in France dating from December 31, 1917, to January 10, 1918. "Enough foolishness. (Now Curly, thank the ladies for the cigarette money.) "I want to thank you all whose untiring efforts made such a success of that splendid edition of the Enterprise, through which medium I am enabled to buy four shillings worth of 'fogs.' You said buy a 'feed'—but, please, I want to buy smokes. "I surely enjoyed your paper. I read it from 'River to River.' I learned a great deal of the boys of whom I had long lost track. I also know that at home they are working hard—just as hard as we, who were fortunate enough to come across the ocean to end the war. "Of course, I knew all the time that at home every one, in or out of the army, were enlisted in the cause, but it seems your paper impressed it upon my mind more firmly. "I can see you all working night and day, getting that paper out, doing your utmost to make it a success so the boys might have a little more than the government issue. "By jolly! What would we do without the women? Utterly fall, I guess. "Again I sincerely thank the special staff, and all to whom credit is due for their remembrance. "Very Sincerely, "CORPORAL D. ARMSTRONG. "Permanent Staff, A. R. C., Romsey, Hauts, England. "P. S. Say, the Yanks aren't half giving it to 'em, are they?"

"I can see you all working night and day, getting that paper out, doing your utmost to make it a success so the boys might have a little more than the government issue. "By jolly! NEW TERMS ADDED TO ARMISTICE BY FOCH

WASHINGTON, Nov. 12.—Amendments of the armistice terms made by Marshal Foch after his first meeting with the German plenipotentiaries announced tonight by the State Department include the delivery to the United States and the allies of all of Germany's submarines, instead of the 160 specified in the original draft of the armistice.

Another amendment specified that "the countries on the left bank of the Rhine evacuated by the Germans shall be administered by the local troops of occupation, instead of by the local authorities under the control of the armistice."

Instead of the immediate withdrawal of German troops from Russia as originally provided, the amended terms specify that they shall be withdrawn "as soon as the allies, taking into consideration the internal situation of these territories (of Russia) shall decide that the time for this has come."

The number of railway cars to be delivered, however, is increased three fold—from 50,000 to 150,000.

To assure the execution of the armistice convention "under the best conditions, the principle of a permanent international armistice commission is admitted." The commission will "act under the authority of the allied military and naval commanders-in-chief."

An amendment to the naval clause provides that all vessels designated to be interned shall be ready to leave German ports within seven days of the signing of the armistice.

Other amendments include: "Renunciation" instead of "abandonment" of the treaties of Bucharest and Brest-Litovsk and of supplementary treaties.

Evacuation by all German forces operating in East Africa within a period to be fixed by the allies instead of within one month.

German troops are required to withdraw immediately from Austria-Hungary as well as from Rumania and Turkey.

Evacuation by the enemy of the Rhine lands (left and right bank) shall be so ordered to be completed within 31 days in all after the signing of the armistice, instead of 15 days.

STATE COUNCILS ARE ASKED TO DO UTMOST IN BIG WAR DRIVE

November 11, 1918.

The following message was received this morning by the State Council of Defense from D. M. Reynolds, of the National Council of Defense, Washington, D. C., with the request that it be released for publication in all papers in the State of Oregon Tuesday afternoon, November 12th, 1918.

Governor B. Clarkson, Acting Director of the Council of National Defense and in charge of State Council activities, has asked the united support of the one hundred eighty thousand and four hundred units of the council of defense system throughout the country for the United War Work Campaign. Clarkson has telegraphed all State Councils as follows:

"I earnestly ask the great council of defense system to use all of its vigor throughout its more than one hundred thousand units in almost every community of the nation in support of the United War Work Campaign. In these strenuous days, when out of the ashes of empire new aspirations and hopes are arising for all civilized peoples, we who have stayed at home have an unanswerable and unavoidable obligation to preserve the welfare of the men who have crossed half a world to fight for America. Anything that we can do to maintain the freshness of their outlook, to conserve their usefulness to their native land, to show our gratitude for what they have offered to lay down for us and for the decent principles of mankind, we are in simple honor bound to do. America's task in the war is not done until her men come home again. When you give to the United War Work Campaign you give to your own flesh and blood, but are strengthening the pulse beats of the national heart. Therefore, carry on and do your utmost to make this wise and noble campaign an overwhelming success."

H. S. ANDERSON, Chairman County Council of Defense.

"I earnestly ask the great council of defense system to use all of its vigor throughout its more than one hundred thousand units in almost every community of the nation in support of the United War Work Campaign. Airplane Ambulances to Soften Suffering of Uncle Sam's Uncomplaining Fighting Men

Nothing is too good for Uncle Sam's fighting men. The airplane ambulance is being tried out now. Under the best of conditions, the wounded sometimes must wait for hours before reaching a dressing station. They do not complain but the government's intention is to have the airplane ambulances scout over the battlefield and pick up those in most urgent need of surgical aid. This picture does not show a cover which has to be removed when the wounded man is being lifted in or out. It keeps him from falling from the machine.

Mrs. Russell Sage Who Died at the Age of Ninety

MRS. RUSSELL SAGE

After being in feeble health for several years, Mrs. Russell Sage, widow of the famous financier, died at her Fifth Avenue home in New York City, at the age of ninety. She received practically the entire fortune of \$70,000,000 left by her husband and since his death in 1906, also at the age of ninety, she has given away from \$25,000,000 to \$10,000,000 for philanthropic and educational purposes. The bulk of her estate, it is believed, will be devoted to similar purposes.

Portland division sent out 21,000-foot spruce in October.

Several hundred tons local coal supplied to Medford.

Notice of Road District Meeting to Vote Special Road Tax.

Notice is hereby given, pursuant to Sec. 15, Chap. 299, General Laws of Oregon for 1917, that a Road District Meeting of the legal voters of Road District No. 10, Clackamas County, Oregon, will be held on the 30th day of November, A. D. 1918, in said Road District, at the hour of 2 o'clock P. M., in City Hall, Estacada, Oregon, to vote an additional tax in said road district for road purposes as by law provided.

H. S. ANDERSON, County Judge.

MANY GREAT PROBLEMS AWAIT OUR STATESMEN

WASHINGTON, Nov. 11.—Preparations for final peace negotiations will engage American and allied statesmen during the next few weeks, while Marshal Foch and the naval commanders see to it that the terms of the armistice which ended the fighting today are carried out.

Thirty days is the armistice period, and since it hardly will be possible to assemble the greatest peace conference in history within that time, an extension practically is certain to be granted by the victors and accepted by the vanquished.

What happens in Germany in what once was Austria-Hungary and in Russia during the meantime probably will govern the solution of many of the complex problems awaiting the conference.

Absorbed in the celebration of the German surrender the officials today were unwilling to even discuss for publication the steps to be taken to secure the fruits of victory and make future wars, at least on so vast a scale, impossible. But in a general way what is to be expected already is known.

The various utterances of President Wilson and the Premiers and public men of the entente countries all have been carefully studied by those who must plan the next step at one time or another these spokesmen have touched upon nearly every idea that might be properly included in the treaties.

GERMANY IS NOT TO BE PERMITTED TO CONTROL BUSINESS

Philadelphia, Nov. 9.—German industrialism is as much a menace to world peace as German military autocracy. A Mitchell Palmer, alien property custodian, said in an address here, reviewing the work of his office in taking over and Americanizing enemy-owned property.

The business built up by the Germans in the United States will be forever lost to them, Mr. Palmer said. He added that "no other course would be compatible with the safety of American institutions, for German autocracy is quite as apparent in its economic exploitation of the world as in its governmental and military domination of central Europe."

Mr. Palmer said the alien property custodian's office now has assumed control of nearly 500,000,000 worth of enemy-controlled or owned property. All of the interest of enemy persons in American industrial and commercial business where that interest is large enough either to influence or control the business, Mr. Palmer said, would now be sold at public auction to American citizens.

SCOTT WINS

In the recent city election it was announced unofficially that E. D. VanAnken had won over E. W. Scott in the race for councilman for the 2-year term in the fourth ward. This was found to be incorrect in the official count. Scott winning by a majority of 7 votes.

Machinery arrives for flouring mill at Mallin-Klamath county.

Great American Naval Gun Taken From Ship to Get the Hun

This is a great American naval gun taken from an American battleship in foreign waters to be sent to the front line, mounted on flat cars, to drive the Hun back to the Rhine. Many of these guns are now in use. Since the Hun navy won't fight in the open sea the guns are being moved to the land, where they may be reached.

S. A. T. C. MEN LEAVE FOR TRAINING CAMP AT CAMP TAYLOR, KY.

UNIVERSITY OF OREGON, Eugene, Nov. 11.—Forty men from the S. A. T. C. left the campus Friday morning to attend the fled artillery officers' training school at Camp Zachary Taylor, Louisville, Kentucky. The men were recommended by Colonel W. H. C. Bowen, commanding officer of the S. A. T. C., after their examination Monday, November 4.

Colonel Bowen addressed the men just before they left the campus headquarters for the depot, telling them of the opportunities they were having.

The men were given a two day's furlough beginning Tuesday and ending Thursday and at that time they returned to headquarters to wait official orders.

Among the men to go in this class are Edward B. Tivining, of Oswego, and Jay W. Shively, of Redland.

REAL ESTATE TRANSFERS

W. A. Jones to W. H. Kandle, lot 4, block 36, First addition to Estacada; \$1.

Elmer and Emmy Medeen to Gunnar Bergstrom, tract 3, Outlook; \$1.

F. A. and Theresa Davis to school district (joint) No. 313, 1-2 acre in section 32, township 6 south, range 2 east; \$10.
