What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually

ashes from the general circulation. A blockade in the intestines piles heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from beadache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative.
