# REPAIR CALENDAR BEFORE ADJOURNMENT ASKED CONFERENCE

PARIS, Feb. 7 .- The peace conference will not be permitted to adjourn until it has reformed the calendar, if the French Academy of Science has its way. The question of dual dating through the Gregorian and Justianian calendars and other anomalies, has troubled many generations of scientists and it is felt that this opportunlty of settling the matter for all time should not be allowed to pass.

The academy proposes to lay two plans before the conference. One divides the year into 13 months of 28 days and four weeks, accounting for 364 days and leaving one undated day every year with two every leap year

The other plan is to divide the year into four equal quarters composed of one month of 31 days and two months of 30, rounding off the year with undated days as in the first scheme. This plan seems to be favored.
