DAY SAVED BY CROSS ON COUNTY DIVISION

SALEM, Feb. 18.—(Special)—Striking back at Schuebel and Dimick, particularly at Schuebel, for attacks made during the bond issue debate today, McFarland took from the table the bill to cut Oswego from Clackamas county and attach it to Multnomah county, and with an apparent majority in favor of passing the bill, the day was saved by Cross in a bantering speech which won applause before a vote could be taken.

Representative Schuebel would have hoped they would wait until the house cooled off before a vote was taken. "You have been hammering me for what Schuebel and Walter Dimick does. I am under bond up here to bring them home alive. Between the hammering I'm getting for Schuebel and Dimick I'm pretty well beat up. I make the same proposition as was made that the job be turned over to the devil, and I turn Schuebel and Dimick over to you with a promise that you turn them back just alive. But I submit to you I have treated you all fairly and I want you to treat my county fair regardless of what those two boys have done.

Cross told the house of talking to member after member who had said they wanted to vote for the McFarland bill merely because Schuebel or Dimick had stepped on their toes. "I know every road, tree, stream bridge and path in Clackamas county," stated Cross.

Useful Household Hints

Dried orange and lemon peel are good substitutes for kindling wood. Glycerin applied to the glass stoppers of bottles will prevent them sticking.

When pouring medicine from a bottle do so from the side opposite the label in order not to blur it. If brass or copper is cleaned with salt and vinegar and then rubbed with olive oil it will not tarnish for a long time.

To remove paint from clothing, saturate the spots two or three times with equal parts of ammonia and turpentine and then wash in soapsuds. When basting white or light-colored material use light blue, pink or drab thread. It is so much easier to remove the basting, as they show so plainly.

When grinding stale bread crumbs or crackers in the food chopper, tie a paper bag on the end of the grinder and snap a rubber band around it. This will prevent getting the crumbs on the floor.

Wash the shoes clean with a sponge and warm water. Wipe with a cloth until thoroughly dry, then rub freely with the inside of banana peel. Wipe with a soft cloth and polish with a cotton flannel or outing cloth. There are coloring matter and tannic acid in banana peel, and it is the best dressing for tan shoes.

Always use freshly boiled water for making tea, if water is reheated the tea is flat. When making iced tea, it should stand for several hours, for if chilled too quickly, the flavor is destroyed.

Take a cup of left-over coffee, reheat and dissolve in it 1 tablespoon gelatin first soaked in 1-2 cup cold water, add the juice of a lemon and a small amount of sugar. This may be varied by beating into the thickened jelly the white of one egg, and a most delicious coffee sponge is the result.

POSITION FOR RETURNED BOYS WILSON'S AIM

WASHINGTON, Feb. 17.—One of the first jobs President Wilson will tackle when he gets home will be that of providing suitable jobs in civil life for America's fighting men, according to the belief of army officials.

The unemployment here among the army men is on the increase and a sound and comprehensive program must be forthcoming soon, entirely different from merely granting the discharged soldier a bonus of two months' pay, as is now under consideration.

Not only is the army being demobilized but the federal departments are stripping down to a pre-war basis with a few exceptions.
