A Coated Tongue? What it Means

A bad breath, coated tongue, bad taste in the mouth, languor and debility, are usually signs that the liver is out of order. PROF. HEMMERTER says: "The liver is an organ secondary in importance only to the heart." We can manufacture poisons within our own bodies which are as deadly as a snake's venom. The liver acts as a guard over our well-being, sifting out the acids and ashes from the general circulation. A blockade in the intestines piles a heavy burden upon the liver. If the intestines are choked or clogged up, the circulation of the blood becomes poisoned and the system becomes loaded with toxic waste, and we suffer from headache, yellow-coated tongue, bad taste in mouth, nausea, or gas, acid dyspepsia, languor, debility, yellow skin or eyes. At such times one should take a pleasant laxative. Such a one is made of May-apple, leaves of aloë, jalap, put into ready-to-use form by Doctor Pierce, nearly fifty years ago, and sold for 25 cents by all druggists as Dr. Pierce's Pleasant Pellets.

Silverton Company Sues On Large Bill

J. M. and A. G. Wolford, known as J. W. Wolford & Company of Silverton, entered suit against Isilla Larkins to collect a balance on a bill of goods alleged to have been sold to her and J. S. Young, her husband, deceased. According to complaint the goods were sold between December 3, 1912, and December 6, 1915, and the total bill amounted to \$389.27. Plaintiffs allege \$252.62 has been paid on the amount and ask for a settlement of the balance, \$136.65, and they also ask for interest at 8 per cent.
