The Upstate Newspaper

The national Liberty loan authorities want to use display advertising in the interior newspapers in pushing the Victory loan. Every activity is swiftly learning the value of newspaper advertising.

There is however, no provision for funds with which to pay for newspaper space. The plan is for each community to raise the money for the purpose by voluntary contribution. The matter was discussed Thursday at the Portland conference of Oregon liberty loan officials and up-state newspaper men.

In Washington county, the county court, recognizing that the national bond sale for that county is a local public activity, pays for the advertising in the general fund. In that way the burden is borne by those best able to pay. It is also borne by all and not by a few. The wide distribution of the cost through that process makes it very light on everybody. It seems an entirely proper plan.

The up-state newspaper publishers are a highly effective factor in raising the loan quotas. Their advertising space and their circulation is all they have to sell. It costs them money to set in type the news stories which they publish free in creating interest in the loan.

The average up-state newspaper man is the pack-horse of the community. When free things are to be done for the public welfare the community turns to him. In all public matters he is the man who pays the printer that sets the type that carries the free publicity. So many such things come along in the course of a year that the money he pays out for white paper and newspaper composition on gratis activities becomes a large factor in the overhead of his business and a very heavy burden.

In all past loans the newspaper men have done their bit, and done it effectively and sacrificingly. They will do it again, and, with their combined power, will be a big factor in making Oregon first.

But when it comes to the use of their advertising space for the Victory loan the public should draw the line—it should expect to pay them fully for it, and there could scarcely be a more equitable way than the Washington county plan in which the county court supplies necessary funds.—Oregon Journal.

GARY MOTOR TRUCKS WIN IN ROAD WORK COMPETITION

GARY 3 1/2 TON TRUCKS

Three Gary 3 1/2-ton Trucks, purchased by Kay County, Oklahoma, for public road work—after a competitive test with five other leading makes of trucks.

We now have twenty trucks on the way like those shown above, all equipped with 3 1/2 yard steel lined bodies, with Hydraulic Hoist, that we are bringing in for road construction work. These will be sold under the factory's absolute guarantee for the full period of one year.

GARY steel products lead the world. GARY Trucks are in the same class. Don't chance an unknown quality.

REPORT OF W. C. NORRIS CO.

Here is the report of the W. C. Norris Motor Sales Company, of Tulsa, Oklahoma, on the three trucks shown above, and covering their experience with motor trucks in general and GARY Trucks in particular.

"We have just closed the deal with the County Commissioners of Kay County for three GARY 3 1/2-ton trucks. We competed with five other makes, and outpulled them all. The performance of the trucks we frankly state is marvelous. The "H" and "HU," 2 and 2 1/2-ton models with four speed transmission outpull, overpower and outclass everything in their rated capacity; while the 3 1/2-ton is even greater in pulling power and load carrying capacity. We consider your worm drive, semi-floating Sheldon Axle as the only safe and sure form of construction for hard usage and to withstand the strain and abuse to which a truck is subjected in the oil fields and kindred lines of work. Our observation, experience and knowledge of actual results in meeting oil field requirements, with heavy loads and no roads, convinces us that GARY TRUCKS can be relied upon in every instance and will deliver a long life of service at a nominal upkeep and low cost of operation. We are for the GARY TRUCKS strong and shall concentrate our future efforts exclusively on the GARY line. R. C. NORRIS MOTOR SALES CO. (Signed) N. D. Sutherland, Gen. Mgr.

Note: The W. C. Norris Motor Sales Company are a million dollar concern, and one of the largest in Oklahoma. After several years' experience with other lines of trucks, they have dropped them all and rely exclusively on GARY Trucks for heavy duty oil field work and for all purpose usage.

There is a Gary Truck for every purpose, one to five-ton sizes. All of the highest quality of design and construction. Certainty of Service is our slogan, and as WEST COAST FACTORY AGENCY we shall always be prepared to supply any duplicate part that may be required, and do any repair or service work necessary.
