NAMES OF BUYERS OF GUERNSEY CATTLE ARE MADE PUBLIC

At the meeting of the Clackamas County Guernsey Breeders' Association held at the Commercial Club parlors on Friday afternoon of last week, the following signed up to purchase Guernsey cattle from the Island of Guernsey: Louis Funk, Walter Funk, J. Kelly, J. A. and J. T. Richey, Emma Tenny, Orenzo Tenny, M. O. Rose, W. H. Brown, Ray Brown, C. J. Staats, W. M. Carlson, Herbert E. Carlson, Palmer & Hunter, Clyde Ringo, Ray R. Faust, Ben Elmer, Sam Elmer, Henry Moulton, Smith Turner, Otto Nilhoken, Kenneth F. Stein, Charles Eilers, Ollie Eilers, A. D. Clutter, A. F. Hasselbrik, E. A. Shilby, E. P. Erickson, Forest Erickson, James Hamilton, E. L. Camps, Helen Gaffney, Elmer Gaffney, Icelia A. Hughes, Francis J. Hughes, Kenneth J. Hughes, A. I. and J. Hughes, C. B. Sprague, J. Elderhoff and R. G. Scott.

There are ten boys and girls in the list above, who are following in the footsteps of their parents in raising pure bred stock.

The cattle will arrive in New York about June, and will be distributed to the purchasers at the Pacific International building in Portland. The cattle are to be selected by a expert in Guernsey Island.

The deal is financed by \$30,000. Oregon is to receive 300 head and Clackamas county is to take 100 head. At the present time there are a large number of farmers engaged in breeding pure bred Guernseys, and some of the best stock of this breed are found on farms near Oregon City.

R. G. Scott, county agent, presided over the meeting held here. There were about 49 breeders of Guernseys attending the meeting.

THREE STORES IN COUNTY ARE ROBBED ON SATURDAY NIGHT

The Vineyard general merchandise store of Canby was entered sometime Saturday night by thieves who helped themselves generously to many pairs of shoes, a number of them were lost, high top ones.

The thieves showed considerable discrimination and seemed to be good judges of the better articles of value.

Sometime the same night the stores of F. M. Hendrickson, hardware, and Robins Bros., general merchandise, of Molalla were entered by thieves. In these stores they took to pocket knives. From the latter store they also took one pair of shoes.

Sheriff Wilson was notified and it is his opinion that the thieves after operating at Canby proceeded on to Molalla and kept up their work. The sheriff's office is working on the case.

ROPER VS. M. CORMICK NEXT CARD JAN. 28

The next card to be held at the Milwaukie boxing arena will take place on January 28, and Bob Roper, the Chicago heavy, will meet the Boy McCormick in the main event of ten rounds. This will be a peach of a scrap, as Roper is well known over the country, and won his title while overseas with the American forces. Every fan knows what McCormick can do around here as demonstrated by his clean knockout of Farmer on the last card held here. The coming card has not been completely lined up as yet, but two good bouts can be assured of—Roper and McCormick, and Baird and Pelsinger.

The latter bout will be nearly as good as the main event, and Baird is a wonderful boy, and at the last fight in Portland under the boxing commission there, Pelsinger showed what he can do, when he fought Frankie Denney to a finish, and won.

According to Matchmaker Frank Kendall, the next Milwaukie card will be the best yet, with several world known fighters in the ring.

DEPUTIES ARE TO BE HERE IN MARCH TO HELP THE TAXPAYERS

Notice has been received locally from Custom Collector M. A. Miller that Deputies Collins and Cayot will be in Oregon City at the court house from March 3 to 7 for the purpose of assisting taxpayers in making out their 1919 income tax returns.

All income tax returns must be in by March 15 and any one delinquent will be subject to heavy penalties.

These deputies are sent to help taxpayers in getting their returns in to the government in proper form and their services are furnished without cost by the government.

TRAMBITAS DEFEAT IS POPULAR WITH FANS AT PORTLAND

Alex Trambitas surely got "his" last Wednesday evening at the Heilig theatre, when he bucked up against Johnnie McCarthy in a ten round go as the main event on the Portland boxing commission card. Although Alex stayed with the San Francisco blitzer for the ten rounds, he had all he wanted and then some.

We don't know why it is, but the Portland fans after the decision was given to McCarthy, seemed to be tickled to death. Alex don't seem to be over popular with the fans, although he is a good mixer and a better fighter.

The go between Jimmie Dundee and Weldon Wing on the same card was good, and when the referee called the bout a draw, the fans booed him for about ten minutes. He ought to be booed, for Dundee made a monkey out of the Wing lad from the start to finish.

FUNNY AND EXCITING GAMES ARE STAGED AT MILWAUKIE FEB. 21ST

On the 21st of this month, at eight o'clock in the evening, at the "Milwaukie boxing arena, one of the funniest and exciting games of "chance" will take place in the history of the state. The Portland street car men are going to hold a smoker, and for genuine unscientific and oblation stunts, this event will be unequalled.

The fighters will all come from the ranks of the "nickel chasers" and "power pushers" and it is rumored that instead of ropes surrounding the ring three inch gas pipe will be substituted to hold up the lucky ones who receive the right swings to the jaw, and be carried off in peaceful slumber to the rear, where cots have been provided for the night.

However, laying all jokes aside (until that evening) the affair ought to be worth the money, something like \$1.20 and 83 cents for admission. Not only will there be several bouts on the card, but wrestling matches and other stunts will be pulled, which will go toward making an enjoyable evening for the spectators.

TAX COLLECTIONS IS STRONG PROOF TIMES ARE GOOD

The amount of unpaid taxes for 1919 on January 1, 1919, according to the figures given out by I. D. Taylor, tax collector for this county is only three per cent of the entire amount of taxes on the 1918 assessment roll.

The roll showed a total of \$944,869.15 to be collected. Of this amount \$916,137.15 was collected up to January 1, 1919. This left only \$28,732.00 uncollected.

The tax collector collected during the past year a total of \$943,708.70, or within about \$1,000 of the total amount on the taxroll for the year.

Of this amount \$27,017.93 was 1917 taxes and taxes prior to that year. The collection also showed \$553.61 of forest patrol taxes collected.

The past year has been one of the most remarkable years in the history of this county in the collection of taxes. There have been many back taxes collected.

All of which speaks well for the financial condition of the county.

MANSFIELD, OHIO, MAN BUYS OUT SHOE STORE OPENS FOR BUSINESS

Frank Cleland, of Mansfield, Ohio, who arrived in Oregon City Monday, has purchased the stock of shoes from W. Feltelson, and has taken possession.

Mr. Cleland is a former business man of Mansfield, and has been in the shoe business for many years. He is to remodel the interior of the building at Eighth and Main streets, and will enlarge the stock, adding women's shoes within a few weeks.

Mr. Cleland is accompanied by his wife, and both are favorably impressed with Oregon City as a business section.

The store purchased by Mr. Cleland was recently established by Mr. Feltelson, who has been associated in business with his son, and who will continue the shoe-repairing establishment adjoining.

Money Spenders

Nine constitutional amendments and measures will confront the people at the primary election in May, by the grace of the special session of the Oregon legislature. Two of them add to the backs of the taxpayers for educational purposes, one of them being a tax levy of 2 mills for the support of public elementary schools, and the other a tax of 1.2 mills for the support of the University of Oregon, agricultural college and the Mouth normal. We wonder how these institutions would have fared had there been no special session called.

One constitutional amendment extends the road limitations indebtedness from 2 to 4 per cent, and another enables counties to fund their debts by issuing bonds. A third provides an additional tax levy for the operation of the soldiers', sailors' and marines' educational act.

Six of the nine measures either actually carry appropriations or open the way for the expenditure of public funds, and it may be reasonably concluded that the legislature thinks the people are money mad. The three remaining proposals cover the restoration of capital punishment, providing that the president of the senate shall be in line of succession to the governorship instead of the secretary of state, and the last relates to the acquiring of private lands for public purposes.

With many of the cities of the state groaning under a tax levy of around 5 per cent, we do not anticipate that the people will be eager to embrace opportunities to increase the tax burden unless it can be shown that the proposed expenditure is vital to the interests of the state.

OLD PIANO AT M'LOUGHLIN HOME Historic Instrument Was Pride of Rose Farm For Many Years

Probably the most interesting object in the old Holmes mansion at Rose Farm was the piano that has just been presented to the McLaughlin Memorial Association and which has been placed in the historic home of Dr. John McLaughlin, the founder of Oregon City. The donor is Mrs. Louise Holmes Martin, who inherited the famous instrument upon the death of Mrs. Dan O'Neill.

The piano was not the first one brought out to Oregon, but it is probably the oldest in Oregon, as those of earlier date seem to have disappeared. It is a "Pirsson," being brought around the Horn in 1851, with five others which were purchased by various citizens of the Oregon territory. The frame does not look unusual, as the old-style box is not unfashionable for pianos, but the keyboard is yellowed with age and is an octave or more shorter than those of present-day manufacture. Pianos of today are not made with the careful workmanship that was demanded in those times, and it is doubtful if any of our modern instruments would give the satisfactory service that this Pirsson does after a six months' ocean trip and more than 65 years of use.

Rose Farm, which housed the piano until recently, was a social center in pioneer days. The spacious home of 20 rooms was constructed by William Livingstone Holmes, who came to the great northwest territory in 1843 and took up a land grant of 640 acres near Oregon City. He had the Southern idea of a home and he proceeded to erect a residence that would have been a credit to the estate of a Louisiana sugar-planter.

The McLaughlin Memorial Association is gradually acquiring pieces of historical furniture for the home of the father of Oregon. The home of Dr. McLaughlin has been completely restored and in 1909 it was given to the city by W. P. Hawley, president of the Hawley Pulp & Paper Co., and was moved to the city park block at the head of Singer Hill and is visited annually by hundreds of people from every section of the country. It will in time be filled with pictures of pioneers and of scenes of the long ago when Oregon City was the territorial capital.

Another recent gift to the McLaughlin home is that of two wreaths of moss that have a historical value and which were presented by Mrs. W. B. Stafford.

High School Notes

Another set of scales have been purchased by the school board for the chemistry laboratory. They are very sensitive and will weigh even a pencil mark on a piece of paper. The pans must be kept perfectly clean because a very small amount of dirt will put the scales out of balance. They will weigh up to five grams without the use of additional weights. They are a very valuable addition to the laboratory as the old scales are inaccurate.

A Sophomore meeting was called immediately after school Thursday, the fifteenth, by the president, Albert Grossenbacher. The minutes of the last meeting were read by Secretary D. King. The Sophomores had challenged the Freshmen to a debate. An answer was read and disapproved of at this meeting. A motion was made that the Sophomore president appoint a committee to meet with a Freshman committee to decide upon a question and date suitable to both classes.

Speed tests were given in all the typing classes last Tuesday, January 13. Several were able to make twenty-five or more words a minute. The first year students are only required to make twenty-five words at the end of the first year.

A meeting of the Efficiency Club was held Monday, January 19, at

A member was also chosen from this class to meet with members of the other classes and faculty to draw up a constitution for the proposed Student Body of O. C. H. S. Albert Grossenbacher was chosen. Both faculty advisors gave talks and expressed their opinions of matters discussed. The meeting adjourned at 3:50.

The Junior class received an invitation from the Senior class to join a Literary Society. The society was first organized by the Seniors.

Eugene Vedder was elected to represent the Junior class at the Student Body Committee meeting called by Mr. Arant.

Mention was made of the Annual Junior Party but no date was set at a meeting of the Junior class Monday after school.

Speed tests were given in all the typing classes last Tuesday, January 13. Several were able to make twenty-five or more words a minute. The first year students are only required to make twenty-five words at the end of the first year.

A meeting of the Efficiency Club was held Monday, January 19, at

LITTLE STORIES OF MOTOR PEOPLE Reporter's Tales of Unusual Happenings In Automobile Circles

Ever hear of the D. L. F., make of car. No? Well "Scoop" Young, of this city, the popular little volunteer fireman and ex-service man, has bought one. It's a roadster, and "Scoop" claims that it is the fastest little boat when he is driving it that can be found in the county. But to get back to the answer of this little riddle, just what does the D. L. F. stand for. Well, we couldn't guess, so we asked "Scoop." And what do you think? "Scoop" says that it stands for "Damn Little Ford."

How in the deuce did we know that Major Logus was suffering from tooth ache and slight eruption of the stomach, when we called last Saturday to get some dope for this page for Miller-Parker company.

Anyway, the reporter stuck his head in the door of the sales department there and asked if the Major was in. He was in all right, in fact he was all in.

"Can you give me a funny story for the Sunday Enterprise?" asked the reporter of the Major, as he slid into the room, quiet like.

"You got to it—out of here," shouted the congenial gentlemen. "What do you want to bother me for today? Haven't I suffered enough without you pokin' your head in this office?"

Well, the reporter hiked hot foot out of there, but after thinking the matter over, he called the company up on the phone, and inquired of Mr. Tipton what the matter was with the Major.

"I'll tell you," said "Tip." "The Major was out last night at the Elk banquet in Oregon City, and he ate three plates of some kind of salad that John J. Tobin fixed up for those birds. Along about the third plate of the stuff, the Major hurt his tooth on a nut shell in the salad, and between the tooth ache and the stomach this morning, he's in a bad way."

"Good night," replied the reporter, "It's a wonder I didn't get killed."

noon. As all the typing students were requested to be present, there was a large attendance. It was announced that Carlotta Pace had been chosen president and Arnold Fisher, secretary, as they had made the two highest records. The matter of whether the standard of the Efficiency club be changed was discussed but it was decided to leave it as it was until later in the year.

Marshall Chamberlin, a student of Lincoln High, of Portland, was a visitor of O. C. H. S. Monday.

Clara Lettenmire was a visitor at school Tuesday.

Miss Hazel Moore was absent on Monday and Tuesday of this week on account of the grippie.

A good overcoat disappeared Monday from the boys' basement. This is the third one lost this winter. Because of the large enrollment in school this year the lack of steel lockers it is difficult to keep dishonest people from imposing on honest ones.

All three schools are helping the census enumerators in reaching everyone in the city. A number of persons have reported being missed by the count.

Martha McLarty was a visitor at school on Monday.

At the Freshmen meeting, called January 15, Dorris Redlick was elected to represent the Freshmen class in the committee to make the contribution for Student Body government.

The Sophomore class did not accept the question for debate with the Freshmen class but suggested that class should appoint a joint committee to select a new question, and determine on the side each class should take.

This was accepted and Mabel Dawson, Burnette Pope and Lydon Bingam were chosen to act on the committee.

The Glee Club sent a bouquet of lavender Chrysanthemums to Birdsell Mass as a token of remembrance. He has been in the hospital with a crushed foot. He is now hobbling around on crutches and will soon be able to return to school.

The Girls' Glee Club meets every Monday afternoon at 3:15 and on Thursday noons. The Boys' Club meets Tuesday afternoons and Friday noons. This is to make up time lost in organizing and by Mrs. Lawrence's absence. The divisions are now doing separate work but intend to do some work together later.

Last week the chemistry classes made hydrogen sulfide (H₂S) and all immensely enjoyed the delightful odor (?) They discovered that it is hydrogen sulfide that you smell in eggs that are not strictly fresh.

The members of the class passed hydrogen sulfide thru some water and obtained exactly the same kind of sulphur water for which many springs are noted.

The general science classes have been studying "floating bodies." They are starting some slips and intend to study their growth as regular class work. The object is to watch plants grow under ideal conditions.

The agricultural classes studied corn last week. They learned where and how it grows best, when it should be planted, etc.

Mrs. Woodard's classes have been studying work and machines of work. They are surprised to know that all complex machines are classed under only two heads, lever and inclined plane.

DR GILBERT GIVES FINE LECTURE ON RAILROADS AT LIBRARY

The lecture given at the auditorium of the Oregon City Library on Saturday evening by Dr. James H. Gilbert of the University of Oregon, was one of the most interesting lectures given at that place.

He discussed the railroad situation before the war and at the present time, and commended the McAdoo administration from the standpoint of its efficiency, blaming the inadequate salaries both for the management and for the workmen for inefficiency.

He also discussed the situation which called for the government taking over the roads, and while pointing out the deficit declared it necessary under the circumstances.

Dr. Gilbert is opposed to government ownership, considering the securing of proper administration heads for government salaries an improbable task.

While showing the corrupting influence of private ownership in politics, he believed the baneful effect of politics would be much worse under the government ownership system.

PORTER WINS HIS CASE AFTER TRIAL BY JURY ON SATURDAY

In the case of Irving Wheeler against A. G. Porter, the jury rendered a verdict for the defendant. This was an action brought to recover a real estate commission of \$250 which the plaintiff claimed was due him from the defendant for making a sale of real estate for the defendant.

The chief point at issue in the case was the fact that Porter claimed he listed his land with Wheeler for a specified time of ten days or until such time as he notified Wheeler to quit as his agent.

Porter after the ten days notified Wheeler orally that he no longer was his agent and the court charged the jury that if they found that Porter did so notify Wheeler that they should find for the defendant.

Old Man Colby's Prayer

Dear Lord I once concerned myself about affairs of Thine, I worried and denied myself, because I did oblige.

The devil had the best of Thee and played a better game. So I advised Thee often to protect Thy holy name.

I thought of Thee as a great God, but weak enough at best. To let the devil win the game and from Thy hand to wrest.

Thy well beloved, and find delight in thwarting every plan. And all arrangements Thou couldst make to help the Son of man.

Thou know'st that, by many prayers, I counseled Thee always.

That Thou should'st up, bestir Thyself and rest not night or day; But go into the battle and make bear Thy mighty arm.

To shield Thy helpless children from the devil's magic charm. Now vain all that good advice which Thou could'st never heed.

For Satan seemed to have the start, was ever in the lead; 'Twas then my steps began to slip, my feet were almost gone.

So fragile seemed my father's God that I was betting on. But I had little learning then, was foolish as a beast.

And sought to give Thee counsel, wherein I knew the least; Henceforth I'll pray that for my sins I may make full amends.

And thwart the evil tendencies of good well-meaning friends. I've learned, my enemies are all within, not one without.

Therefore I only have my selfish self to heat and flout; And now my prayers are limited to just my own affairs.

What'er I do, forbid dear Lord, that I should put on airs. F. W. PARKER.

REST ROOM IS OPENED BY W. C. T. U. WITH GOOD PROGRAM

The rest rooms established by the W. C. T. U. in this city at Seventh street near Main at the rear of the Jones drug store, were opened to the public on Friday.

In connection with the formal opening, the W. C. T. U. held a county institute, and various parts of the county were represented.

Among these were Mrs. F. Parker, of West Linn; Mrs. Julia Fall, of Evergreen; Mrs. Hollingsworth, of Gladstone; Mrs. A. D. Smith, of Jennings Lodge. Other visitors were Mrs. L. C. Driggs, who was the first president of the W. C. T. U. when organized in Oregon City 35 years ago, who is now making her home in Portland.

Mrs. Driggs gave a most interesting talk relating a number of reminiscences of her early work with the W. C. T. U. in Oregon City. Mrs. Monroe, also formerly of this city, now of Portland, who became a member of the W. C. T. U. 25 years ago, also gave a splendid talk on the work during her residence here.

Others appearing on the program were Mrs. George Eberly, Mrs. E. B. Andrews, who presided at the meeting.

During the afternoon a number of vocal selections were given with Mrs. George Osborne presiding at the organ.

Among the subjects taken up for discussion was the meeting to be held on Tuesday, when it was planned to have this in the form of a miscellaneous shower, and all will be welcome. There are many articles that are needed for the rest room, and that will add to the attractiveness if such articles can be obtained.

Among the articles that are needed are pictures, dust pans, dishes, teaspoons, broom, screen, chairs, some toys for the children who accompany their parents to the rooms, books, sofa pillows, face towels, wash basin and in fact any articles that will make a room of this kind look home like.

Mrs. E. B. Andrews has donated a kitchen treasure for the use of those desiring to prepare their lunch, at noon, for it is planned by the W. C. T. U. to give the young women and other women employed to allow them the use of the room.

Tables are there for their comfort, and a few more chairs are needed, but it is believed by the women that some big hearted business man will come to their aid and donate a chair or two, or even more if they so desire.

Anyone in the city having anything on the "shower" day—Tuesday of this week, will be doing a good deal by giving towards this cause.

Mrs. Clover was the hostess of the rest room on Saturday, and during the day a large number of women called at the rooms and enjoyed the comforts afforded them by the women of this city.

There were 36 calling at the rooms on the opening day. Fifty people visited the room on Monday.

BELGIUM IS FAST RECOVERING FROM WORLD WAR EFFECTS

NEW YORK, Jan. 16.—Belgium is recovering more rapidly from war's devastation than any other European country; her glass industries are working 100 per cent normal; more than 60 per cent of the textile industries are running; there is plenty of food and all who want work can have it, said Henry P. Morgan, American consul general at Brussels, on his arrival here yesterday.

Thirty Years Ago Today

Taken from Oregon City Enterprise, January 16, 1890.

A barber was visited by a customer in this city a few days ago, and the following conversation was overheard by another awaiting his turn: Barber, running his hand through the head of the customer's hair—"Your head, sir, is quite.....". Customer (irritably). You gave it a shampoo yourself two days ago. Barber (quickly recovering)—is quite a remarkably well shaped head sir."

E. J. McKittick returned from his trip East Tuesday night on the overland, looking better than ever.

The Y. P. S. C. of the Congregational church will hold a dime social at the home of Mrs. F. F. White on Thursday evening.

The report was current on Sunday that Hon. D. P. Thompson had the grippie and could not live. J. W. Mel-drum, who went down to Portland in the morning to see him, brought back word in the evening that the story was a gross exaggeration. So reports grow.

On Tuesday evening Mr. and Mrs. E. E. Charnan entertained the Young People's Euchre Club at their residence, card playing and dancing being the program for the evening. Following cards and dancing punch and other delicacies were served. Every one present had a most enjoyable time.

E. O. Dedman, of Clackamas, who has been raising vegetables for the East Portland cannery, says it would be an excellent thing for the farmers of this vicinity if a cannery could be secured in Oregon City.

Mrs. Harry Harding has been very sick for the past week. Josie Shinsheimer returned to Portland last week.

The young ladies of the Congregational church will give a necktie party next Thursday evening. Young ladies are invited to come and bring neckties. Supper will be served.

The annual meeting of the stockholders of the Willamette Falls Excelsior Company was held on Tuesday evening, and the following named directors elected: E. L. Eastman, A. W. Howard, James Roake, T. L. Charman and N. O. Walden.

I. Selling has been very sick for the past week suffering from erysipelas. Mr. and Mrs. W. H. Warren, of Portland, brother of E. H. Warren were in Oregon City during the week.

We are glad to report to our readers that Mr. W. C. Johnson's condition appears to be rather better. Since Tuesday a change for the better has seemed to be in progress. The two weeks of care has made the rest of the family sick.

Miss Nettie Cochran is visiting with friends in Pomroy, Washington.

Creed Stratton left Monday to attend Bishop Scott's Academy in Portland.

The Coloma in Port—Advices from China report the safe arrival of the Coloma, after a pleasant voyage of 50 days from Astoria. Among the passengers of the vessel were Anita McCarror, of this city, who is chaperoned on the trip by a lady friend of Mrs. Mary McCarror, mother of Anita. The latter has gone for the benefit of her health, and will return with the friends with whom she accompanied.

Little Long Short Item—A Long Creek girl named Short, long loved a certain Mr. Little. While Mr. Little, little thing of Short, loved a little lassie named Long. To make a long story short, Little proposed to Long, and short longed to be with Little's shortcomings. So, Short, meeting Long, threatened to marry Little before Long, which caused Little in a short time to marry Long. Query: Did tall Short love big Little less because big Little loved little Long?

Breaking Ice—Last Friday morning the Latona started for Portland and found the river comparatively clear of ice to near Oswego, below which the river was frozen from bank to bank for a mile and a half. Captain Graham turned the wheel to the ice and broke his way through drift and core formed ice and soiled enough to bear up a team to below the water works. While the boat was breaking its way through this mass which closed in after it, the deckhands of the boat amused themselves by running alongside the boat on the ice. It took six trips of the boat to clear the river of the ice. Had it been attempted in any other way than wheel first the ice would have cut through the hull before she had gone 40 rods.

New Foot Bridge—The efforts of the citizens of Greenpoint have secured a new foot bridge across the Abernethy near its mouth, which is a great convenience for the people of that locality. It was built by private subscription, and is located at the foot of Main Street. The total length including the approaches is 162 feet long and the width four feet.

LIBERTY BOND SALES HEAV
