Cleveland Tractor Co.,
Cleveland, Ohio.

Dear Sirs:

I have 200 acres of the hilliest land on God's green earth, and looked tractors over from one end of the county to the other, and tried out a number of tractors to no avail—finally the good Lord dropped a real tractor on our place and it plows every hill and marsh on the whole farm and has set the Badger Stock Farms apace with joy. I sure want to say there is not another tractor on earth that would work this farm. The only thing you will have to get on your tractor is a force feed for the kerosene to force the gas up into the carburetor when going up some of our steep hills. If people only knew the Celtrac as it is, there would be but one tractor built, and your establishment would be swamped with orders.

Yours truly,

L. F. MURPHY.
