## MR. AND MRS. KASTER GIVEN SURPRISE BY MACKSBURG FRIENDS

MACKSBURG, Or., May 26.—If profusion of wild fruit be any indication of abundant yield in the cultivated crop we may promise ourselves a goodly harvest in the present year. Never has the ground been so thickly strewn with the wild strawberry or the fence and fallen logs been more gayly festooned with the blackberry vine than now.

The garden strawberry, thrifty and promising as it is, is outstripped in advancement by those of the roadside and wood. Groups of children too young for school are everywhere gathering the newly-ripened fruit, and mobilizing new health and vigor from their competitive races over the flower-sprinkled sod.

Never has the prospect of winter grain or hay been better than it is today. The potatoes are up and are retelling a full recompense for the loss sustained in last winter's cold.
