

# CANBY AND SOUTHERN CLACKAMAS

## CANBY OUT AFTER BIG PREMIUMS AT ANNUAL EXHIBITION

CANBY, Or., July 28.—An enthusiastic meeting of the Canby Commercial Club was held at the city hall Monday evening, and was largely attended. The meeting was called for the purpose of discussing the subject of Canby's exhibit at the coming county fair to be held at the fair grounds September 20-23. It was proposed that Canby enter an exhibit to compete for the Community Club prize for which will be given \$75 for first prize, \$50 for second, and \$25 for third. There are a number of communities to enter for this prize. Among these will be Hazelton, which won first prize last year; Molalla, which is to make her first exhibit; Mount Pleasant, which has not entered for several years, and previous to that time having always won a prize. There are a number of other communities to enter, which will be announced later.

Carl Joehake, of this city, who has always taken an active interest in the county fairs, has been selected to gather exhibits for Canby booth, and is to spare no pains in trying to get one of the big prizes for Canby. With plenty of gardens producing all kinds of vegetables, fruit trees bearing luscious fruit and grain that cannot be beaten will go towards making one of the best booths if not the best in the building, if the people of this section will give Mr. Joehake their earnest support.

## Stage Service Fair To Be Good

CANBY, Or., July 28.—Through the efforts of M. J. Lee there was an excellent car service offered the people of Canby during the Chautauqua, thus allowing those to attend the evening session a chance to make the return trip at night following the evening's performance. Many took advantage of this, and Mr. Lee's assistant, Martin Widdows, who is also an experienced driver, handled his passengers in a most competent manner.

Mr. Lee has arranged to place on two extra cars during the Clackamas county fair to be held at the fair grounds in this city on September 20 to 23, inclusive, and thus allow the people of Oregon City and elsewhere desiring to visit the fair to make the trip to and from the fair grounds when they please. The stages will go to the fair gates, and but a few steps will be necessary to enter the fair ground. The present stage, which has a capacity of over 20 passengers, will be one of the cars for the run, and experienced men at the wheel will be in charge, besides Mr. Widdows and Mr. Lee.

The cars will run up to and including evening, thus allowing the fair visitors to remain until evening to listen to the band concerts and to attend the dances that may possibly be held.

## Boy's Leg Broken In Auto Accident

CANBY, Or., July 28.—Lloyd Garrett, six year old son of Mr. and Mrs. Henry Garrett, of Newberg, met with a painful accident recently when he was struck by an automobile. Beside a number of minor bruises his left leg was broken above the ankle. The Garretts are former residents of Canby. The little lad was with his mother and attempted to cross the street ahead of a machine coming at a moderate speed. No blame could be attached to the driver, who aided in caring for the injured boy.

The accident was witnessed by the boy's mother, and his father, who conducts a store nearby, was the first to reach the scene. Lloyd is the grandson of Mr. and Mrs. H. Soper, of this city. His mother was formerly Miss Edna Hutchinson, of Canby.

## Grain Crop Being Harvested at Canby

CANBY, Or., July 28.—The grain in and around Canby has never looked more favorable than at the present time, and from the present outlook the crop of this year will be a bumper one.

Many of the farmers have cut their grain and stacked it ready to be hauled to the threshing. Threshing outfits are in the vicinity, and it will not be long until the sound of the threshing is heard in this city.

The grain in many places stands about six feet high, and the kernels are well filled.

Many of the farmers who have had good luck with the grain this year are contemplating entering specimens at the coming county fair to be held September 20-23. This will show the fair visitors just what our section of the county can do when it comes to producing grain of various kinds.

## Frank Dodge Will Build Aurora School

CANBY, Or., July 28.—Frank Dodge, the well known contractor of this city, was the lowest bidder for the construction of the proposed new high school building for Aurora. The work is now being held up by a controversy over the bonds that were voted for the building and for the site. One of the big-hearted residents of Aurora has come through by offering a building site free of charge and to be in the center of the district, a most ideal location.

The plans for the building are for an eight-room structure of attractive appearance, to be built of concrete.

## MILLINERY SHOP TO OPEN

CANBY, Or., July 28.—The Misses May and Pearl Drumm, who arrived in Canby early in the spring, have decided to open a millinery establishment in Canby, and have purchased a small building, which they have had moved on their property here, and this is being renovated for the millinery store.

Miss Pearl Drumm, before coming to Canby, was engaged as a milliner and has had much experience.

H. A. Dedman, President  
H. B. Evans, Cashier

## First National Bank OF CANBY

Under U. S. Gov't Supervision.  
Resources over \$300,000.00.

IF ITS FOR THE HOME—WE HAVE IT.

We invite you to come in and be convinced the same as others.

# SANDY DEPARTMENT

MRS. J. M. C. MILLER Correspondent

## LOOP ROAD THROUGH SANDY IS BOOSTED BY BIG DELEGATION

SANDY, Or., July 28.—It would take too much space and "gray matter" to try to put down all the names of our own "road folks" that Commissioner Mann said "packed the house" at the Loop meeting last week in the court house. However, Sandy did herself proud! And let this be said, Sandy will "not die" as many have pessimistically prophesied, if by some strange proceeding we should fail to get the highway. We shall still "do business as the old stand," and still be on the map as Sandy has been ever since the old days when Meling's and Revenue's stores were the only business centers for the vast territory around here. Sandy has always been the direct route to Hood, and we shall not grow faint hearted! We gave Portland a big "allice" of our county once, and now she had better let us be! But when we get the highway it will be the making of Sandy, but we shall be no dead bunch whatever happens!

Now it will be a pity if the big county Jersey meet, program of which was published in last week's notes, is not well attended on Saturday, but so many are haying or "graining" that some fear we will not have a goodly representation of home folks at the Hart ranch. The first grain of the season is being cut now and as the weather has been freakish the past few weeks, many farmers are afraid to take chances. However, everyone must go anyway.

It was a fine editorial review of the loop meeting the Enterprise gave last week. The Portland Telegram was the first Portland daily to come out in the open "for us" with a strong editorial on the reasons why Sandy is the only reasonable route. Oregon City represented our cause well at the meeting, for which we are duly grateful.

Some time ago the government sent out a kind of "propaganda" to farmers advising a careful study of the cost of production and advocated keeping a set of books in order to see what was paying and what was not. J. G. DeShazer, a prominent dairyman and farmer here says this advice has been largely followed, so the farmer is working far more intelligently since making a study of methods, conditions and profits. At the present price of milk feed farmers generally agree that milking cows is a losing game. However, Mr. DeShazer is optimistic and holds that this condition is what opened the way for the organization of the Dairyman's League, and he believes in time the League will work out a system whereby farmers will have more than the value of the fertilizer for milking cows, which so many justly claim is the condition now.

Mr. and Mrs. Paul Bany have moved into one of the Sutherland cottages. S. B. Berg, formerly of Barlow, who purchased the handsome home of the late Mr. and Mrs. Barlow, has moved to Canby, having purchased the home of Mr. and Mrs. Hendricksen. Mr. and Mrs. Hendricksen, who have resided here for a number of years, have gone to Portland, and are now occupying their beautiful home.

Mrs. George Bates and children have gone to Idaho, where they are to visit relatives for a few weeks.

C. L. Bates is making a number of improvements on his place. Among these is a new coat of paint.

Mrs. Calvin Koehler visited Oregon City Tuesday.

Mr. and Mrs. E. P. Hunseth, who have been making their home in Canby, and recently disposing of the same, left Wednesday for their future home at Alberta, Canada, where they are to join several of their children. While enroute they will visit for a few days in Portland with their daughter, Mrs. Christ, another daughter, who has been ill, will also leave soon for Canada to make her home. She is at present visiting her sister in Portland. The Hunseth place has been purchased by J. J. Sandness, a realty dealer of this city.

Olaf Stoehrer, of Rice Lake, Wisconsin, is in Canby, where he is looking for a location. If he finds a piece of property that is suitable he may purchase the same and make his future home here. Mr. Stoehrer is favorably impressed with the climate of Oregon.

Mrs. Charles Sheldon left Tuesday afternoon for McMinnville, where she will spend several days. She was called to that city by the illness of her brother, who lost his wife by death in June.

## Canby Power To Be Made At Woodburn

CANBY, Or., July 28.—The power house supplying Canby with electricity is located on the banks of the Molalla river, in charge of E. G. Robinson, has been discontinued, and hereafter the electrical supply will come from Woodburn power house. The first "juice" came from that city last Friday, and is giving satisfaction. Mr. Robinson will continue in charge of the company in the building on Main street.

Woodburn is supplying a number of nearby towns with electricity, among them being Hubbard, Aurora, Donald and Canby.

There will be plenty of light at the fair grounds this year under the new arrangement.

## FULLER PROPERTY SOLD

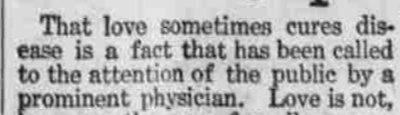

CANBY, Or., July 28.—Mrs. John Fuller has sold her property on Third and A streets to Mr. and Mrs. W. M. Drumm, who have taken possession of the same. The property is well located.

## Doctor Cupid

That love sometimes cures disease is a fact that has been called to the attention of the public by a prominent physician. Love is not, however, the cure for all women. Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of.

Doctor Pierce's Favorite Prescription gives new life and new strength to weak, worn-out, run-down women. "Favorite Prescription" makes weak women strong and sick women well. It is now sold by all druggists in the United States in tablets as well as in liquid form.

ROSEBURG, OREGON—"I suffered something terrible from an organic trouble. Could scarcely stand on my feet. My head and back ached so hard and I was weak and nervous. I had severe pains in my side and my limbs and feet ached. I was also troubled with constipation. I took Dr. Pierce's Favorite Prescription, Golden Medical Discovery, and Pleasant Pellets. These medicines cured me of all my ailments and I was well and strong."—Mrs. W. D. MOORE, 1246 N. Jackson Street.

These medicines cured me of all my ailments and I was well and strong."—Mrs. W. D. MOORE, 1246 N. Jackson Street.

Charley McCourtly of Boring Route recently bought seven acres of land on the Bluff road from T. Thorzden, Geo. Beers making the deal.

Over in the Marmot country L. R. Meserve sold some alder timber a short time ago to the Gates Lumber Co. of Portland, and construction of a furniture factory has already begun. Beers made that transfer also.

The Webber shingle mill near Cherryville is turning out an average of twelve thousand shingles per day of the finest quality, according to Mrs. L. B. Green, who was in town Monday laying in supplies. Mrs. Green is packing shingles, and says they are handling private orders only, as the supply is sold as fast as ready. The splendid cedar all along Cedar Creek insures the shingle industry to last a long while. Mrs. Green is very enthusiastic about the Loop, and is of course a "south sider."

It was hard luck for the Bruns Lumber company, when they went to the mill one morning and found the dam had broken out and all the water was gone. But twenty-five men went to work at once to repair the damage and the saw began humming again the first of the week. A. C. Martin has the slab contract and is putting two trucks on the Portland road, beside hauling some locally. Congratulations to the Bruns mill for eliminating all the waste. They are sawing forty thousand feet a day, employ twenty-five men, saw five hundred ties a day, and cannot supply all the local demand for lumber.

The Dwyer Logging camp has started work again after shutting down for three weeks. They ship from seventy to one hundred thousand feet per day. Adolph and Gus Dahrens are working there again, and all the old crew is expected back in a short time. Help that comes from employment agencies works a few days and then gets the wanderlust.

The bridge across the Sandy about two miles this side of Truman's is condemned, which necessitates a ten mile drive out of his way, says Jack Scates since he made his last trip up that way a few days ago.

Miss Mary Junker has received an invitation to the wedding of Raymond Eugene Warner, the first principal of the Sandy Union high school. Mr. Warner will be married to Miss Edna Idella Holly, at Sebastopol, Cal., on August 16, and will reside at Fortuna, Cal.

A petition is being circulated in the Sandy school district at the request of patrons of the Cottrell school asking the Sandy Union high to admit them into our district, which we shall be very happy to do. Gresham was very anxious to have them unite with their district, but being loyal Clackamas folks it is natural they should prefer to affiliate with the Sandy Union High. It will be far better all around for them to unite with us.

The following committees were appointed at the last Rebekah lodge meeting: Entertainment, Marguerite Klein, Cecil Duke, Myra Revenue; Finance, Mrs. Robert Smith, A. C. Baumback, Susan Greenwood; Refreshment, Alma Maroney, W. Hosholm, Sadie Bosholm.

A humorous side of the affair when mail clerk Huston fell off the train last week was that the conductor went in the station at Boring to telephone and the motorman and every one was so excited over Huston the train started on without the conductor. Mrs. Morand kept waving for them to stop, but they all thought she was waving good bye at her husband and the train ad gone a mile before they missed the conductor.

Mrs. C. D. Purcell met Mrs. Ernest Smith in Portland last week and talked over the good old times they had when the Smiths, Barendricks, McWilliams and others formed the social set of Sandy. Friends of Mr. and Mrs. McWilliams will be sorry to hear of their recent hard luck in losing their house, barn and everything they had by fire. They have two little girls now. Mrs. McWilliams is especially remembered for her beautiful singing. Mrs. Smith is the charming wife of the Methodist minister who was pastor here a few years ago. Her husband is pastor of the church at McMinnville now, and they have three children. The Smiths are close friends of the Barendricks at McMinnville, and report the doctor as doing splendidly, and the family is very popular there socially.

Mr. and Mrs. Ralph Granger went to Portland on a shopping expedition one day last week.

Mr. and Mrs. John Maroney had an interesting evening Monday with friends and relatives. Mr. and Mrs. J. Cline of Orient brought with them Mr. and Mrs. Frank Lennartz, and Mr. and Mrs. Fred Lennartz from Nebraska. The Lennartzs drove out to the coast in automobiles and camped all the way, stopping in Yellowstone park for a week. They are all in love with Oregon; the climate, water, "pretty verdure" and even the pretty people! They say Nebraska is not natural, they have to irrigate, in fact it is "home made" back there, while everything here is God-made—that's why no place can beat Oregon. Lennartzes say they want to shape their affairs so they can come back to locate in Oregon, and of course that means Clackamas county.

There are a good many wild blackberries this season, yet it seems they are harder to get than usual. So many hunters, is one reason, yet few in comparison to what there would be if gas were not so scarce.

John Revenue was telling about how he used to carry an axe with him in pioneer times in order to chop his way through the trail when he went to the store. And now John has bought himself a new Ford—who deserves one more? Jack Patterson, also of Kelso, has a new Overland. They both ordered through the Perret garage.

Mr. and Mrs. George Ten Eyck of Marmot and Mrs. Parnell Avery of Cherryville were lunch guests at Mr. and Mrs. J. M. C. Miller's son Sunday.

Lents have moved into the Phelps house. They have camped several seasons on the Bluff road, and always like to get back to Sandy, as the climate here is excellent for Mr. Lents. Sandy climate is ideal for anybody.

Mr. and Mrs. Oren Scotch of Vancouver, B. C., were visitors at the Purcell home recently. They were traveling companions of Mr. and Mrs. C. D. Purcell last fall while they were journeying through the Canadian Rockies, and are now to spend some time at Government Camp. The Scotchs and Purcells advise lovers of scenery who contemplate a trip east to travel over the Canadian Rockies. While encircling the American continent last winter Mr. and Mrs. Purcell saw nothing in eastern, southern or western states that can equal the grandeur of the Canadian Rockies, (though the reporter is sure they excepted the majestic old Hood and our own Clackamas county scenic beauty). Kamrooz, Field and Banff are especially wonderful. From Field there is a magnificent view of Mt. Stevens, the highest mountain in the Rockies. At Banff the scenery is sublime. The largest herd of buffalo in the world is also an interesting attraction on this route.

Mr. and Mrs. Floyd Reed and son, Miss Blackhall of Corbett, Jack Scates and Mrs. H. Blackhall went up to the Scates camp at Welch's on Sunday for the day. Mrs. Blackhall and Mrs. Reed remaining for a longer outing.

The Fred Strong had a family reunion at their summer home, "Valley View," on Sunday in honor of Dr. John Milton Wells of Boston, a prominent physician-surgeon in the East. There were present Mr. and Mrs. Fred Strong and daughter, Dr. G. M. Wells, Dr. J. Hunter Wells, Mrs. Wells, Mrs. Florence West, son and daughter, Mrs. Emma Blandford and daughter, Mr. and Mrs. William Bittle Wells and daughters and Mrs. Oscar Wells.

Mrs. Blandford and daughter, of Portland, are guests of the Fred and Strongs for two weeks at their country home near Sandy.

There were two hundred of the Hanson Stevens descendants at the 30th family reunion, which Ronald Esson, our popular druggist, and family attended last week at Silverton. Hanson Stevens crossed the old Barlow route in '52 and settled in Howell's Prairie. Mrs. Stevens was a Mount, of whom the Drs. Mount of Oregon City are descendants. Hanson Stevens was the father of twelve children, and his descendants number between four and five hundred. The reunion was held in a grove till the rain drove the crowd into a church. The marvelous dinner was one of the features of the day.

Mrs. W. G. Webber of Cherryville has with her Mrs. George Simonds, a friend from Portland, for a couple of weeks' stay.

Miss Leta Beers and Alex. Schmitz went to Portland on Sunday to visit Leta's aunt, Mrs. C. H. Edwards, who is ill at St. Vincent's hospital with appendicitis.

Mr. and Mrs. Ernest Harris were at the home of Hobart Beers at Bull Run on Sunday.

Scott Wells, nephew of Mrs. F. Strong, who spent part of his vacation here, has returned to the Boston "Yach."

Miss Una Gunn, aunt of Mrs. Clyde McCully, is spending a week at the McCully home. Mrs. McCully attended Chautauqua while in Salem last week. Mr. McCully has begun hauling for the Burns Lumber Co.

Mrs. Catherine Cook had a pleasant visit at Boring with her friend Mrs. Severin a few days ago.

Mrs. G. S. Acheson and daughter, Gertrude, who is Mrs. George Perret's sister, were out for the week end at the Perret home. Mrs. Acheson remained till the middle of the week.

Ernest Bonett has sold his Ford to George Wolf, and Mrs. Bonett has gone to work as head loader up at the Mickelsen-Nelson mill.

The Misses Miller, cousins of "J. M." have broken camp on the Bluff and gone back to Portland. Miss Edith and Miss May Hilton, also of the party, left for their home in Iowa on Tuesday, but said they hoped sometime to return to stay, they fell so much in love with Oregon.

Lige Coalman and George Maroney are building a log house down on Cedar Creek for a summer home for Dr. Welch of Oregon City. More and more people talk of "summer homes" out this way.

Up to date (rap on wood) there has been the clearest atmosphere and the fewest fires in this part of the county that any one so far interviewed can recall.

Saturday and Sunday the J. M. C. Millers had as visitors from Portland Mr. and Mrs. Nelson G. Pike, Mr. and Mrs. W. D. Deaver and Mrs. Anna Shillock, who enjoyed the Sandy surroundings immensely. Mrs. Shillock is remembered by all who heard her sing at the celebration two years ago.

We all went to the dance on Saturday night, after blackberrying on Saturday P. M. and put in some strenuous hours, but they all insisted it was a rest, so it was! "Rest is not quitting a busy career, rest is the fitting of self to it's sphere!"

This is the first real hay weather there has been and the farmers are cutting out hay now and will rush it in as fast as possible.

Up at Brightwood Mrs. Billy Winters and little daughter have been quite ill with the measles during the past week.

There was a party at the L. L. Griffith home in the Cottrell neighborhood Sunday and the following were present: Mr. and Mrs. Gus Dahrens and children, Mrs. Sitz and daughter, Mr. and Mrs. Adolph and baby Stanley, Mr. and Mrs. Walter Krebs and family, the Schwartz family, and Mrs. Dora Dahrens. Abig dinner is reported.

Mrs. Dora Dahrens has not been very well, so has come out from Portland to stay a couple of weeks here and rest up, and then will go to the beach at Seaside for a time.

Mr. and Mrs. Duke and Mr. and Mrs. Fred Proctor went down to Chautauqua Sunday for the big "Sunday" carrying along a picnic dinner.

Mr. and Mrs. E. L. Power, Carl Power and little Gretchen went up to the Toll Gate Sunday taking a big feed along, and forgot the cares of the ranch for a whole day.

Mrs. A. W. Godeau from Portland

family and she and Mrs. Maroney called on the following old friends of Mrs. Godeau's: Mrs. Esson, Mrs. E. L. Power, Mrs. H. W. Watkins, Mrs. Loundree, Mrs. Hoffman, Mrs. Wolf and Mrs. Ernest Bonett.

John B. Maroney, nephew of John R. Maroney, rode out from Portland one last week on horseback. The horse is a "sing lefoot" and covered the distance in only three and one half hours. It gas does not get more plentiful soon a horse back rider will not be such a novelty.

Mr. and Mrs. J. H. L. Maybe and Lloyd were out over Sunday with the Maroneys from town, and Mrs. Maybe went to the dance with her daughter Alma on Saturday night.

Mr. and Mrs. Bosholm and Mildred were also at the Maroney home on Sunday.

Mrs. C. Osterover and son, Allen, of Portland, were visitors at the Lou-dree home around the latter part of last week.

Mrs. Libbie Hall was initiated into a full fledged Rebekah at the last meeting, and the usual big feed was a part of the program.

Mrs. R. E. Esson and the children left on Saturday for Long Beach, Wash. Mr. Esson drove them as far as Portland. They will "coast" for a couple of weeks, anyway.

Indians have been camped near town in order to "conserve" some of our perfectly good "black-berries." In one day they picked thirty gallons and would not sell a berry, preferring to dry them for winter use.

There is a fair crop of wild black berries again this year and people from "everywhere" are scouting around after them. Portland people fairly swarm out this way on weekends, some camping over night, and in every instance it's the one that gets there first that has the best luck.

Charley Krebs of Sandy ridge has returned from a several days trip over into the Tillamook country. He says all kinds of crops over that way are not nearly so good as ours. Mr. Krebs says if we only get the Loop, that this part of the country cannot be beat anywhere. And we must get it!

Mr. Vietr Falkman of Woodstock, a schoolmate of Maria Boitano's, was out to the Boitano-Pizzola-ranch last Sunday for the day.

Mr. Dwyer, of the Dwyer, Logging Co., is travelling up and down Sandy ridge as far as the Dover country once and sometimes twice a day and people think he really has something "up his sleeve" and if he has everyone is hoping he will take it out!

Mario Boitano and Joe Wilcox counted over a hundred of our Sandy and neighborhood folks at the big meeting with the Highway Commission last week.

Rev. and Mrs. Paul Politz and daughter Henrietta, Mr. and Mrs. Shoemaker, Mr. Doltz, Mr. and Mrs. W. Doltz, and daughter Bertha drove out from Portland to hold a family reunion over Sunday with Mr. and Mrs. C. D. Purcell. One special feature of the occasion was to celebrate the birthday of Mr. Doltz, Mrs. Purcell's father.

Rev. Bristol, pastor of the Methodist church, very graciously gave the morning service Sunday over to Paul Doltz, who recently with his wife and daughter, returned from the Philippine Islands, where he has been a missionary of the Presbyterian church for eighteen years. Henrietta, their daughter, is a "Filipino," having the distinction of choosing the Islands as her birthplace. Mr. Doltz talked mostly of personal instances where the teaching of Christian ideals had changed the lives of individuals invarious communities, and how little by little a splendid work had developed until the eight different Protestant denominations now have a membership of one hundred thousand, the Methodist churches aving fifty thousand of the membership.

Mr. Doltz mentioned especially the work of the Episcopal church, which is making its strongest effort in trying to elevate the savage tribes known as the Igorotes, and is having great success with these, the least evolved of any of the Island peoples. Mr. Doltz speaks very highly of the Islands, saying the better classes are progressive, intelligent and highly educated, both in Spanish and English. Mr. Doltz goes to New York this week on church matters, then will soon take his family to Lincoln, Neb., for the winter and will return to the Islands in the Spring and take up his work again.

Paul Dunn is out on the road—this week with other county reviewers locating new county roads. They are in the extreme southern part of this time.

Miss Callista de la Fontaine did not get steamer accommodations last week for San Francisco, so will not go till the 30th. The Canning girls of Kelso expect to go down to a farewell party given on Friday at the De la Fontaine home for her.

B. Allen, who was the wireless at the top of Mt. Hood last winter, was stationed there again this summer and was in Sandy on Saturday calling on the Maroneys. He is material packed up the mountain.

Carl Langer and his sister Sandy ridge spent the day at the Limberg home Sunday. Mrs. Limberg also had other guests.

Miss Letitia Puffer and her brothers, Cecil and Percy, Mr. Art Dixon, and children, and Mr. Bonett's brother and wife, all spent Sunday at the Bonett home.

Mr. H. H. Watkins and family, H.H. Crest went down to Chautauqua on Sunday and heard the famous "Billy" Sunday. Mr. Watkins and Billy talked about everything in the universe—covered it all.

Mr. and Mrs. A. C. Thomas of Bull Run were also at Chautauqua Sunday, as were many others from these parts.

The Pomery house is occupied by five nuns from Saint Mary's Immaculate school at Albina, who are spending the summer here.

Mrs. McCully took her grandmother and aunt home to Salem the last of the week in her Studebaker.

Mrs. H. J. Puffer of Gresham was out visiting her sister, Mrs. Ernest Bonett a few days recently.

Cecil Duke and his chum, Mr. F.W. Gresham, went on a week-end trip to Cloud Cap Inn, and had a perfectly fine time.
