The party sprang the top of the iron grates that divide the waiting room from the confectionery at night, and evidently crawling through.

**PIONEER DAYS ARE RECALLED BY STORIES OF EARLY OREGON**

SANDY, Sept. 22.—Among the early settlers who can tell interesting tales of pioneering in this section is Paul Dunn one of our home town folk who took up a homestead and lived on it forty-seven years, having sold the place and moved into Sandy only a year ago. It was Aug. 1, 1871 that Mr. Dunn, came from Michigan to the Upper Cascades at the age of 19 years and went to doing repair work on the old Portage railroad. The historical old block house then served as a rendezvous for the "boys", but Mr. Dunn does not go into details as to their mode of entertainment! Three months after his arrival at the Cascades the town of Portland lured the ambitious young man and he went to work in a butcher shop on Second and Morrison, and a little later did grading on First St. for Drew and Patridge. At that time there was not a foot of grading done on 18th St. and Gisan was the boundary street on the north, and beyond Salmon, nothing but the wilds of green wood, whispered of the metropolis to be! The only business houses on the East side were two grocery stores, a saloon, and an eating house run by "Auntie Frush" who did all her own cooking and waiting on tables. In the Spring of '72 Paul went to work on the Locks at Oregon City, and the same fall established residence on his homestead near what is now called the Bluff road.

At that time there was no house on the old road between Pleasant Home and Sandy, and in Sandy he can only recall three houses, those of Richard Gerdes, George Sherrick, and Otto Scholley, a scapegrace Austrian baron, sent over her as a remittance man. Gerdes put in a store a little later. Paul Dunn helped to build the first grist mill in this part of the country. It was located about one hundred yards from the present bridge over Cedar creek. John Riesy and Mr. Woenke were the proprietors, but the citizens gave both money and time toward it's construction. John Riesy going to Portland to raise more money for the project, and he stayed all night with Mr. and Mrs. Dunn on his return the first night Mrs. Dunn stayed on the homestead as a bride. The three hundred dollars Riesy had raised was tied up in a red handkerchief and was handed to Mrs. Dunn to take care of through the night. The lumber was sawed at Bob Wilson's mill and Caleb, a brother of Harvey Cross, superintended the building of the mill. The saw mill was old when Mr. Dunn came here, but it still had a sash-saw, the kind that Harvey Cross described in his recent address at Sandy's celebration over the prospective highway. Mrs. Dunn was Mary Smith and they were married at Indian Creek, near Hood River, Feb. 4, '77 forty-four years ago, and came to Paul's homestead on Feb. 6, and preparations were on the way for a big chivari the night of their arrival. The boys had a home "minstrel troupe" that did it's best in musical comedy attempts when ever occasion demanded, but Bob Wilson died that night before the crowd all got together, so only John Riesy was with the bride and groom the first night, and they were never chivari'd, but it is not so very long till their golden wedding, so there's time enough yet.

**SANDY SCHOOL NEWS.**  
SANDY, Sept. 22.—Sandy and vicinity are sending a fair quota of fine young folk to other schools this term. Miss Mary Junker has gone to O. A. C. to major in vocal music under Prof. Gaskins, and she will minor in Home Economics. Her high school credits admitted her into the regular work and she decided not to specialize altogether. Miss Junker left on Saturday for Portland and went on to Corvallis Monday. Miss Junker has a beautiful voice and will no doubt make fine progress in her vocal work.

Miss Gertrude Melnig and her brother Alfred left on Sunday morning to enter the O. A. C. also. Gertrude will take up Commerce, and will also study piano. Alfred will take up mechanical engineering; these popular young people will be missed here tremendously, as they have been a part of the town ever since they were youngsters.

Ned and Harry Mitchell left on Saturday for the O. A. C. where Ned will study mechanical engineering and Harry civil engineering. Such an exodus of Sandy young people all at once will make it a little lonesome. Stand them all in a row alongside the same number from any other vicinity and for looks and intelligence—"our" young folks will take the prize!

Mrs. Van Fleet is the principal of the Cottrell school and Miss Plock of Portland is the assistant.

The Dover school will not commence until about the last of the month and Miss Olive Shaw will be the teacher. Miss Shaw lives in the neighborhood.

Jennie and Cora Ten Eyek are going to Eugene about the 25th to enter the U. of O. Jennie won a two hundred dollar scholarship at the Washington High which she will present on her arrival.

Miss Ruby Meyer, principal of the Sandy grade is boarding with Mrs. Allen. Mrs. Ten Eyek will also be with Mrs. Allen for a time, at least. Alice Douglas has to stay out of the Cherryville school several days last week because of tonsil trouble.

The Canning girls of Kelso are living in Portland for the school season. Miss Canning is teaching at Lenta, Margaret at Arleta, and Angela at Woodmere. The girls drove out home for the week end.

Miss Mary Jane Conlley, ex-Sandy teacher drove out Sunday with her cousin and family to see Mrs. Eason and family.

Mrs. Lillian Ten Eyek opened the primary grade on Monday last with an enrollment of forty: The following little one's said goodbye to babyhood when their loving mothers sent them to school for the first time Monday morning: Margaret Bell, Balda Dockery, Fred Monroe, Emil Ridderbush, Virginia Wolf, Amanda Ferrett, George Burns, Ray Coalman, Roberta Smith, Claud Parker, Mildred France.

The Boring school work is progressing in fine shape. The sewing and cooking club will have an exhibit at the County Fair at Canby, also the pig club is preparing for an exhibition. The entire school is working to achieve "one hundred per cent," and is hoping to win a prize. Prof. Mallicoet is the principal.

The Firwood teacher, Miss Selby, and her pupils took their lunches to the Wendland pond last Friday and after the picnic resumed the regular work, then all went out on a mushroom hunt.

After all what is so adorable in this old world as youth! The innocence and freshness of the children and young high school students as they go about town are inspiration indeed!

Miss Mixer and Miss Barton report school work as going so well the first week that it seemed merely a continuation of the last semester, which speaks well for both teachers and pupils. Miss Myer had a fine beginning week in her grade work also.

The Dixon girls go back and forth to the mill so as to be with the home folks over the week end.

Miss Pauline Heacock has gone to her home at Damascus and is going to teach the primary grade at the Union School. Miss Heacock had intended to spend the winter with her mother on the Heacock homestead but there was no teacher secured and the county Superintendent appealed so strongly to Miss Heacock to take charge of the first grades that she finally consented.

**MT. HOOD SMOKES.**  
"Mt Hood is smoking again," was the news passed from one to another several days during the past week, and sometimes a dozen or so persons would get together to watch the strange phenomena of "something" that looked like factory smoke curling up at almost regular intervals. Strange it is that seldom the mountain indulges in such freaks. Some persons will not be convinced it is only mist. Anyway old Hood hasn't smoked enough to get the habit!

**SINGLE TAX DISCUSSED**

SANDY, Sept. 22.—The single tax measure which will be voted upon in November was discussed by some local voters over the back fence in this wise: "It is a good law because it is against the rich man," said the single taxer. The reply was: "You own twenty acres of land which you hold at four hundred dollars per acre. You have arrived at the age where you cannot cultivate it any more, and all the income you have is from the rent of that land. Under the proposed tax law, after 1925, the state will 'take the full rental value of the land for taxes.'" (See page ten in the voters booklet you received from the state.)

**FRANCE AND ITALY AGREE**

PARIS, Sept. 20.—An agreement has been reached between the French and Italian ministries of marine with regard to the allotment of German and Austrian warships under the Versailles treaty.

Among the few good measures on the state ballot is the Roosevelt Bird Refuge Measure, which asks for Uncle Sam to be given right and title to all the lands and waters within the Malheur Lake Reservation in Harney Co., as set apart by President Roosevelt in 1908 for the use of the department of agriculture as a preserve and nesting ground for native wild birds. Truly, we want to save our native birds, and the U. S. government will be a stronger proponent than the state who dares interfere with the elk since Uncle Sam is their guardian?

Harry Hagan, son of Mr. and Mrs. Thomas Hagan of Bull Run is hoping to come home at Xmas time from Mare Island where he has been in the navy the past five months. Harry is studying electrical engineering.

An eight pound baby boy came into the home of Mr. and Mrs. Geo. John Affalter went over from Eagle Creek a few days ago to visit the W. P. Roberts family of Dover. He was both a soldier and a marine during the war. Mr. Affalter expects to sail again as soon as the vessel is ready and may be away

The Strong's of Firwood have been marketing mushrooms the past week, having sent in two hundred and fifty pounds at one time by Irving Updegrave, to the city markets. The Strong's are unusually capable, and spy out everything edible the ground can produce.

Mr. A. Malar, father of Antone, is not so well, and is hardly able to be up, as he is very weak.

Mrs. Christine Snow, daughter of A. Malar, Sr., was married last week to Mr. McBride of Portland and they are going to live in the city.

The H. H. Watkins family are going to be sorely missed in the Sunday school, as they are live folks and are needed here, but no doubt the Pleasant Home community will soon be saying the same nice things about them that are said here.
