CANBY DISPLAY AT COUNTY FAIR CAUSES FAVORABLE COMMENT

CANBY, Sept. 30.—Canby is deserving of much credit for the display from this section of the county at the Clackamas county fair and the women who arranged the exhibit are receiving merited congratulations. The handsomely constructed booth attracted much attention from the visitors, and much regret was felt that the weather was so unfavorable that others were unable to attend and see what Canby could produce.

Among the women giving their aid in arranging the booth were Mrs. Carl Joehne, Mrs. Charles Sheldon and Mrs. W. H. Bair, and men who assisted were Charles Sheldon and W. H. Bair, who toiled until dark at night getting everything in readiness for the opening day.

The Carlton & Rosenkrans Company had a most attractive booth, artistically gotten up by Mr. and Mrs. R. S. Smith, whose one of the samples of their goods displayed in the background. Carl tents were artistically arranged as a border and also at both sides of the booth.

On the grounds was a fine display of tractor plows and disc plows that drew crowds and interested many farmers. The exhibit was entered by the Canby Hardware Company, with Wilmer Sandness in charge. Mr. Sandness is well posted on the mechanical devices, and was able to give all information desired. The Canby Hardware Company can always be depended upon for an exhibit at the fair, as also the Carlton & Rosenkrans Company. Grant White had a fine display of Ford and Hall & Son of this city had an excellent showing of Chevrolet and Buick cars.

Canby added much to the floral display this year, which was in charge of Mrs. Bertha Hurst, and Mrs. Howard Eccles made a competent superintendent of the domestic science department, filling the vacancy of Mrs. Knight. Some of the best cooks of Canby exhibited in the domestic science department.

The Ladies Aid Society was game when it came to braving the stormy weather, and served meals as long as they could.

C. O. Thomas' confectionery had a concession, but the weather not being favorable for ice cream cones, but for umbrellas. Mr. Thomas probably could have done better business by selling rubber boots and hot coffee, but he, like the others, was game.

AUTO ACCIDENT IS CAUSE OF BIG LAND DEAL NEAR CANBY

CANBY, Sept. 30.—One of the largest land deals closed by the J. J. Sandness Realty Company at Canby took place the first of the week when the old home place of Clarence Becke, located near Aurora, and one of the old colony farms, was sold, the price being \$24,000. The purchaser is William Jenkey, of Auburn, California, a fruit grower of that place, who came to Oregon to look for a location.

A singular coincidence occurred previous to Mr. Jenkey making the purchase. He arrived in Oregon by automobile, saying he looked on both sides of the road for a farm, and after the machine became stalled near Canby, found it necessary to go to Portland for parts that were broken. It was necessary to remain at Canby for several days before the repair was made, and decided to take in some of the farms of that section of the state, visited the Sandness real estate office.

When shown the Becke farm, he was immediately impressed and purchased the land, which consists of 160 acres, upon which is located a twelve-room house. Much of the land was formerly planted to hops but is now planted in fruit. It is the intention of the new buyer to trim the trees, spray and make other improvements, and also to plant new trees, where the land is suitable. Jenkey is delighted with his new home, and will take possession in the early spring, having rented it to other parties until that time. Mr. Jenkey is the father of nine children, six boys and three girls, most of whom are of school age.

Mr. Sandness has also sold the Charles Stevens place, consisting of 78 acres, the purchaser being N. C. Smith, of Halsey, Oregon. The price was \$12,000.

Mr. Sandness made another important deal during the week, this being a part of the B. Mosler place in Canby, consisting of three lots and house, now occupied by Warren Kendall and family. C. H. Harness, formerly of Canby, who has recently returned from Alaska, decided there was no place like Clackamas county, and is to resume his residence here. He will take possession as soon as the Kendall family find another house.

Canby Ships Much Fruit to Canneries

CANBY, Sept. 30.—Canby is one of the most important fruit shipping centers of Clackamas County, and although the fruit this year has been somewhat short, that place has done her share in supplying the canneries in the various parts of the state with fruit and has had a steady demand for produce.

The Hazelwood Creamery Company having headquarters at Canby, has a shipping station for canneries, in charge of Carl Schmitt. So far this season he has shipped for the company to the canneries at Sheridan, Brownsville, Tillamook, Woodburn and Sherwood fifteen tons of Italian prunes, with more to ship; eight tons of Bartlett pears, and eight tons of Evergreen blackberries, with more to be shipped. Prunes have brought about one and three-quarters cents per pound; blackberries, six cents; pears, from two to two and one-half cents.

Besides fruit the company is shipping large quantities of eggs, cream and poultry.

Duties of Citizenship

We are going through the usual hullabaloo over prospective candidates for municipal offices, with the usual result. We have ever with us the men and women, too, who condemn the actions of city administrations, past and present, and who are quite severe concerning certain of the personnel of our public servants. There comes a lull in these criticisms, however, just before election, when prying people pertinently enquire why it is that all or some of these critics do not face the glare of public opinion and run for city offices.

Some people think there is no honor attached to the mayoralty of Oregon City, but we do not agree with them. It is a nice distinction to be selected as the chief executive of one's home town. The office of mayor has within it a great power for progress, if the incumbent takes his job seriously and is possessed of sufficient determination to establish a reputation for himself and his town. He should visualize Oregon City's needs and plan carefully a program that will be constructive.

Oregon City has for years been short of funds. Under its charter only seven mills are available for general running expenses, plus the road fund that is used to pay for street repairs and to operate the municipal elevator. Notwithstanding the increased cost for everything the city buys, its income has practically stood still during the recent years and it has been exceedingly difficult for any city administration to satisfy a public clamoring for improvements that cost money.

Everybody knows that we have not always had the highest type of citizenship in our municipal offices. Scores of business and professional men have been approached and have firmly declined to run for mayor or for the council, not only this year, but in former years. The council, particularly, has had, at times, unfit men in its personnel. As a whole, however, it has been composed of people of honest principles, but not always of 100 per cent ability.

It is a concrete fact, and one that the public must recognize, that the personnel of the city administration will be just as good as the spirit that prompts the voters, and no better. Citizens eligible to public office and possessing unusual competency have no business to sit back and hammer the men who have the nerve to submit their case to the people.

WINFREE ASKS FOR CUSTODY OF CHILD GIVEN TO MOTHER.

The troubles of Phillip Winfree and Effie Winfree, which have created considerable interest in Clackamas county for the past year, were again brought forth Wednesday when Winfree filed a suit for the custody of the minor child of the couple which was given the mother when she was granted a divorce last week.

Winfree alleges that the defendant is not a proper person to have the custody of the child, alleging misconduct and associations with other men. He filed several affidavits of witnesses with his complaint.

Early this spring Mrs. Winfree was arrested for robbing the Aurora bank of over \$6000. She admitted the crime and said that she gave the money to her husband, whom she was separated from at the time, hoping for a reconciliation. Officers soon located the money and the bank dropped the case and later the Winfrees were remarried and made their home at Sandy for some time.

A short time later Mrs. Winfree caused the arrest of her husband on charges of assault and battery and at the same time sued for a divorce. Winfree was found guilty in the justice court and fined \$40 but appealed, the case and Mrs. Winfree was granted a divorce last week and the custody of the minor child, the father being given the oldest one.

HARDING IS GREETED BY THOUSANDS IN SOUTH

WHEELING, W. Va., Sept. 29.—Before a tumultuous crowd which packed the Wheeling auditorium, while thousands more battled in the streets for admission, Senator Harding laid down here last night a policy of government economy and strict business administration.

From the time of arrival here in the early afternoon the republican nominee was besieged by howling throngs and during the auditorium address his words again and again awakened avalanches of applause.

So dense and tumultuous was the crowd along the line from the senator's hotel to the auditorium that both his car and that which carried Mrs. Harding were lost for a time in traffic jams. Mrs. Harding reached the hall first and was given an ovation as she was pushed through crowded aisles to the platform.

When the nominee arrived the crowd rose and cheered for more than a minute.

Previously Senator Harding had made a short talk denouncing one-man government before a crowd of many thousands who flocked the streets about the hotel and earlier in the day he spoke to five crowds that gathered around his private car as it came across West Virginia.

U. S. ENGINEER HERE FOR EXAMINATION OF TUALATIN RIVER

E. Burslem Thompson, assistant United States engineer, was in Oregon City Thursday arranging for the examination of the Tualatin river from its mouth through Clackamas and a part of Washington counties. At the last session of congress the engineers were directed to make an examination of the stream, with a view to ascertaining the practicability of its improvement and the probable cost. Officers of the Commercial Club will accompany Mr. Thompson, and his chief, Major Parks, in looking over the ground. The Tualatin flows in the Willamette river three miles above Oregon City and the stream drains a large section of valuable farming territory.
