SEATTLE, Wash., Feb. 19.—Charges that the Puget Sound Navy Yard at Bremerton, Wash., is a hot bed of radicalism are being investigated by national headquarters of the American Legion, according to information received by officials of the Washington department of the ex-service men's organization.

The investigation started following a report by Robert A. La Roux, Legion national field organizer, who visited the Puget Sound yard after Washington Legionnaires alleged that practically all the navy yard foremen are Reds and that they were discriminating against ex-service men in order to hire members of the communistic party.

"Of thirty-seven men who were discharged recently at Bremerton, thirty-five were veterans of the world war," Mr. La Roux stated. "It seems that the red foremen are hiring only men who are known to be radicals."

Lemuel Bolles, Legion national adjutant, proposes to ask for an investigation by the Naval Affairs committee of congress if the Legion probe bears out the contentions of the Washington Legionnaires.

Asked what he thought of "jazz," this young man of twenty-four years replied, "It is the scandal of the art."

The same position was held at an altitude of 3,500 feet, all supplies being packed up the mountainside at night, as the two armies were facing each other, and only thirty-five yards apart and "every move meant a rifle shot." Going out to no-man's land was a common event for this young soldier, who was sent to explore at least fifty times, but always in the night, "so intent were we in expecting an attack from the enemy at any moment during all that time. But I was lucky," continued Creghino, "and did not receive a scratch in my three year's service though in the midst of bombs, rifle shots and hand grenades time after time. One night I threw thirty-five cases of torpedoes (tubes of high-power explosives), and fighting by my side were artists of all professions."
