## Flag Is Raised at Wildcat Schoolhouse

MOLALLA, April 19.—Wildcat has celebrated. She has unfurled her flag to the breeze. There are those in this vicinity who can recall learning their "three R's, Reading, Riting and Rithmetic" in this school, and could also tell you who sat in each of the other desks and when.

Then came a day when Wildcat closed her doors to the school children. Her taxable property was doled out to surrounding districts. The little schoolhouse remained only as a monument to the education of the past.

There were changes, many of them. There were children who were beyond the legal limit of distance that the law requires a child to travel for an education but what was far worse, was the condition of roads. Some, who lived on the side nearest Molalla, and on a better road, took their children to Molalla daily in an automobile. Still others went to the same place with horse and vehicle. Others went 'cross lots and through pastures' to other near by schools, while some waited for the return of the school.

As it was estimated that there were thirty-five children in need of a school it was voted to enlarge the one at Teazel Creek and provide two teachers, however this came no nearer solving the problem and was never done.

As soon as Mr. Vedder became superintendent, he permitted the people to have their choice of having two schools in one district, a method which has been used in various parts of the state to solve such problems.

Somehow in the newness of the situation, they forgot to vote funds to provide a flag, while the law states very particularly about its provisions and just when it shall be unfurled. So the people gave a basket social which netted them so much that they decided to provide both a suitable flag and immediately.

Days lengthened in to weeks, while weeks glided into months and neither arrived, through some misunderstanding.

It was then that the Teazel Creek portion of the district lent them a flag it had used before they bought their new one. The people of Beaver Lake district also lent their services, so Friday April 15, the flag was raised with proper ceremony. The Rural Supervisor, Mrs. Buckley was present and assisted them with their problems.

The people of Wildcat always knew that they were loyal citizens, but now that the colors proclaim the fact to the world, they feel much better over the matter.

They expect to vote for a new flag, at the next budget meeting.

This school was taught until Christmas by Mr. Hueston and from the beginning of the year by Mrs. William Thomas. Mrs. Thomas is well liked by the patrons of the school. She has had many years of experience in teaching, several of which were taught in Molalla. Mrs. Thomas did not apply for any school at the beginning of the school-year, owing to serious sickness in her family.

## Wilsonville Plans New Business Block

WILSONVILLE, April 20.—Options have been taken on the four corners here for business buildings by some of most progressive men in this community. The property is owned by R. I. Seely, Mr. Ulrich and the Butson Estate. This places the town where it should have been years ago.

The Farmers Bank is needing new quarters, and H. D. Aden large store also is seeking new quarters. The entire community needs a hall as a meeting place. The Farmers Union perhaps the Grange, as well as the I. O. O. F. Lodge which is fast out growing their present quarters. The building which is proposed will accommodate on its lower floor rooms for the bank, H. D. Aden store, and a place for a good up to date hardware and implement business, confectionery, barber shop and meat market. The upper floor is to be given over to lodge rooms and community halls. Any business men who thinking of this locality can get all the desired information from Dwight Seely, cashier of the Farmers Bank, H. D. Aden or Wiedeman Brothers florists. This is no real estate fake boom but an honest endeavor to push forward.

For years and years this place has slept.

Rip Van Winkle is a sample of pep a fertile country is hard to down. But "Let George Do It," don't build a town.

Now old Rip Van Winkle rolls in his sleep.

For a movement is a foot wide and deep.

Options for business sites comes with a bang.

And all pull together, let the pessimist hang.

With concrete buildings no fire to wipe clean.

Good market for produce now can be seen.

Inducements as factory sites float in the air.

With financial backing big as a bear.

The farmers will meet and state their needs.

We have plenty of action, for light and power.

Trains are passing hour by hour.

A fine farming country, soil rich and deep.

And Rip Van Winkle no longer sleeps.

If you run a factory with overhead high.

You are losing a chance in passing this by.

All hands are willing to aid and boost.

For dollars like chickens come home to roost.

Put hard feelings far back, deep on the shelves.
