VALUE OF PRODUCTS

NEBRASKA.-The value of products in 1919 shows increase over that in 1914 of \$373,116,000, or 168.4 per cent. The average per establishment in 1919 was approximately \$206,000 and in 1914 \$89,000.

The value of products represents their selling value or price at the plants as actually turned out by the factories during the census year and may have little relation to the amount of the sales for that year. The values under this head also include amounts received for work done on materials furnished by others.

She dinner given by the Misses Mixter for Mrs. Barton and Miss Bess Barton. Max Woenche is still on the up The Mixters and Barton families are grade and his recovery seems re old friends and the occasion was a renewal of memories and events of mutual interest.

Hazel Beers is happy to be out and her friends are glad she is able to take up her school work again. Hers was a severe seige of tonsilitis and let us hope it is the last of the season, Things just naturally go a lot better when all the students are together.

The high school seniors have ordered their invitations for the graduation
