NEW MEMBERS OF COMMERCIAL CLUB ARE ADDED

Since the Oregon City Commercial club started a campaign for new members last week, the different committees have been industriously canvassing the city to add to the roll. Success by many of the delegations has resulted, but the business men and active men of the city are urged to join the club. The campaign has been put on for the reason that the good works of the club will be halted unless more finances are available. No other institution in the city has to do with the progress and up-to-the-minute affairs of this municipality than the Commercial club. Edith Pendleton, 11-Year-Old Molalla Girl Awarded State Poultry Honors

Edith Pendleton, an eleven-year-old Molalla lass, is beginning now to get experience in the art of raising poultry. She does not intend to be one of those poultry raisers who fall by the wayside in years to come because they cannot stand the pace. Edith has won a trip to the O. A. C. Summer School because of her success in club work last year, and this year finds her going stronger than ever. Here is how she did it:

"When I joined the Fernwood Poultry Club in March, 1919, I decided to take Division II, so I bought two settings of White Wyandotte eggs from my mother at \$2.00 per setting. I worked, taking care of her chickens at ten cents per hour to pay for them. I borrowed two broody hens from my mother to set, but just before the time they would hatch I had to let her have one of her hens back because she sent to Canada and got a setting of eggs from the hens that won the All-Northwest egg-laying contest in 1919, and she wanted a hen to put them under."

"Well, I persuaded another hen to take her place, but she was too heavy and she broke all of the eggs but eight, so I did not have very good luck hatching chicks."

"Altogether I hatched 18 chicks. One was a cripple and soon died, but that was the only one I lost. The others were about half grown and then one of my finest pullets got first under the hen-house and died. Then another one died with the roup."

"I sold four roosters as broilers which brought me \$2.60, and I donated two more for our Club picnic dinner. I have seven pullets and two roosters left. My expense and labor came to \$10.20."

"I won first prize at the Clackamas County Fair and also won first prize in Division II at the State Fair. That means a two weeks' trip to the Summer School at the Oregon Agricultural College for me next summer. I like poultry raising so well that I am taking Division I this year. I have six my pullets in this project and they average 30 eggs per week now."

"I am going to make them do better than that when spring comes. Of course, one cannot always win first prize but I am going to do my best to 'make the best better'."—Ex. Ser. News.
