Taxes and Performance

While county road taxes in Oregon have increased 75.7 per cent since 1915, those of Clackamas county have gone forward 85.2 per cent, amounting in 1915 to \$315,391 and in 1921 to \$548,081. The figure for 1915 covers state, county and district road taxes, and for 1921 county, district and market road taxes, there being no state tax levied in 1921, aside from the market

Clackamas, with its levy of more than a half million dollars, stands second in the amount of money appropriated, only Multnomah leading her with a levy of \$998,357. The total levy for all of the counties in the state is \$6,024,714, so that Clackamas appropriates oneeleventh of all of the road taxes in the state. This tremendous sum is wholly apart from road bond issues, and here again Clackamas has a bonded program of \$1,700,000 for permanent roads, though the permanancy of some of the roads contemplated under this expenditure is rather doubtful.

The people of this county are eager for good roads. of other sections of Oregon. They are willing to pay the price, as they have always been willing, for in 1915 In this respect they are no different from the residents Clackamas had the highest road levy in the state, aside from Multnomah.

But the time is coming, and, if we mistake not, it is nearly here, when Clackamas county taxpayers will demand better roads for their money. They have spent more than a million dollars in the last few years, but our roads, aside from the two Portland-Oregon City thoroughfares, and the state highways, are nothing to boast of. This is not because we have altogether failed to build our roads in the right way, but we are woefully short on maintenance and thousands of dollars have been put into our roads, only to be blown to the four winds under heavy motor traffic.

The road bond program, coupled with the general, district and market road money, will probably run well over three-quarters of a million dollars annually. No business concern would think of spending that much money without proper organization. Clackamas county's road work is big enough to have a competent head, who should be permitted to operate without political interference, and it is important enough to be backed by a definite plan of maintenance. Road taxes in Clackamas county are high, and they may be justified by our road mileage, but high taxes are never justified unless a maximum performance goes hand in hand with the expenditure.

"Golf Spine" the Latest. The "golf spine" is the intest of income producers for the doctors, according to Dr. Homer E. Bailey, who was the principal speaker at a meeting of the St. Louis Osteopathic association. It is a result, he said, of putting too much "pep" into the game. There are two forms of the trouble, the doctor said. One results from swinging too hard at the ball while the player is standing in an upright position.

The other results from a swing while the player is leaning forward. In the first instance there is a dislocation of the vertebrae at the base of the neck and in the other at the small of the back. In the first instance, the player suffers from pains similar to rheumatic pains in the right shoulder and in the second instance the pains are in the back.-Kansas City Star.

PRAISES STATE SCHOOL

A tribute to the Oregon schools which are doing educational work for the ex-service men, was paid by Myron Burke, of New York, who visited here

Burke, who is an overseas man, was hadly gassed and has been attending the eastern vocational training schools Some time ago he was transferred to San Louis Obispo, where his training has been continued. He was recently given a ten-day furough and come to Oregon City to visit with friends here. Burke in comparing notes with men

who are receiving training from the Oregon schools, said that the work of the University and Agricultural college compares very favorably, i it is not better than that given the men in the eastern schools.

While here Burke visited with Miss R. Pratt. local secretary of the Rec Cross , who is in charge of the directon of the vocational training work here. He spoke of the training provided by the New York schools, where he atended, and said that he found the results no greater than were being accomplshed upon the western coast. The vocational training system, as it exists in the east, has come in for considerable crticism in a national way. First hand comparsons, however, according to Miss Pratt, show that the system in the west is operat-

LOWELL PATTON RETURNS

Well-Known Pianist Who Makes Western Chautauqua Tour Again This Season.

Chautauqua audiences will welcome the news that Lowell Patton, the talented planist with the New York Artists' Trio in 1920, is returning again this season. He has been on a tour of New Zealand this winter and comes back with added laurels.

Rachmaninoff, the noted Russlan

and composer of the present age, recognized Mr. Patton's exceptional talent and coached him for a long period of time, In New York he was known as "the protege of Rachmaninoff," He has been accompanist for many of the big artists of the East.

The Perils in a Kiss. "As for Elodie-what did a kiss or two matter? If one paid all that attention to a kiss one's life would be a complicated drama of a hundred threads. 'A kiss is nothing'-so ran one of her obiter dicta-unles you feel

it in your toes. Then look out." "A kiss must mean either very much or very little. There are maidens to whom it signifies a life's consecration. There are men whose blood it fires with burning passion. There are couples of different sex who jointly consider their first kiss a matter of supreme importance, and, the temporary rapture over, at once begin to discuss the possibilities of parental approbation and the ways and means of matrimony. A kiss may be the very devil of a thing, leading to two or three dozen honorably born grandchildren, or to suicide, or to celibate addiction to cats, or to the fate of Abelard, or to the Fall of Troy. . . Volumes could be written on it."-From "The Mountebank" by W. J. Locke,
