ers and Essanay companies. Later he starred under Belasco's in "The Heart of Wotona." His work as a Liberty Loan speaker throughout the East was noteworthy. Fills a Long-Felt Want. It would seem that all there was left to be invented in the tomato line would be a worthless one, but this year two distinct novelties are offered, the most striking of which is a white tomato. It is the counterpart in all respects of the ordinary tomato, except its color, which is a brilliant cream white. John Baer seems the most striking of the new red varieties because of the profusion of its yield and the uniformity of the fruits, which are of the round, salad variety. It is not quite so early as Earliana, but a much heavier bearer. It will be found a winner.

Phone Rate Raise Protest Meet Held

SANDY, July 1.—Rev. S. F. Pitts acted as chairman at the protest meeting held last night at Cottrell which resented the rate-raise on telephones, especially what they feel is a discrimination against the country people, viz, the charging of ten cents per mile extra for all phones beyond the three mile limit. It is claimed this is something new in "telephoning." The people at Pleasant Home and Cottrell are hard hit because they are so far from the central office. The new rate went into effect July 1 and will affect a large section in northern Clackamas and Eastern Multnomah.

Most of the Cottrell residents ordered their phones taken out at once the increased rate amounting to 70 cents per month to some, others, more or less. The telephone company insists that material has not come down and that they have been losing money; not being able to pay dividends for two years. The public service commission granted the company the right to make the advance, and the commission came in for its share of criticism. Those living far out, who need the phone the worst are the hardest hit, it is claimed.

Minnesota People Visit Sandy Folks

SANDY, July 1.—Mr. and Mrs. Carl Wendland recently entertained their cousins, Mr. and Mrs. Walter Locke, who drove in from Perham, Minn., and surprised them. The Lockes drove all the way, 2200 miles, having no car trouble save two slight punctures caused from picking up a tack and a nail in Montana they ran into a flood and a cyclone and were delayed, but with traveling along leisurely it cost \$26.00 for gas and oil (70 gallons of gas) in places the roads were dangerously narrow. While crossing the divide six cars preceding the Lockes went over the cliffs, one car was an 8 passenger machine. When nearing the summit of the Rockies, many drivers kill their engines unless working perfectly. One car crashed down 500 feet while trying to start, the margin of road being so small it was a guess whether the driver could "step on her" and not plunge forward or back. Locke put an invention of his own on his car so he was doubly protected.

He was formerly a garage man at Gray's Crossing, and was also a Sandy man. Mrs. Locke is a cousin of Ed Flateau of Sandy.

It was especially splendid of Fred Radford and Clarence Browning to come up from Cottrell and not fail us even though the other members of the orchestra changed their plans at the last moment, unavoidably of course.
