Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this

in mind! Everything is done to make Camels the

best cigarette it's possible to buy. Nothing is done

simply for show. Take the Camel package for instance. It's the most perfect packing science can devise to protect tigarettes and keep them fresh. Heavy paper -secure foil wrapping-revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no

extra wrappers. No frills or furbelows. Such things do not improve the smoke any more than premiums or coupons. And remember-you must pay their extra cost or get lowered quality.

If you want the smoothest, mellowest, mildest cigarette you can imagine-and one entirely free from cigaretty aftertaste,

It's Camels for you.
