Either our criminal class is cultivating its manners and becoming gentle -almost polished, in fact-or else more naturally gentle and courteous people are entering our criminal class. Anyway, the two thieves who felled tain View, are visiting her mother. John Varvarigo, a watchman in a Brooklyn restaurant, put a bag of sawdust under his head, in order that he might rest more comfortably, after spent the week-end on a fishing trip \$10; and then they set a glass of water where he could reach it with his bound hands. After the old-time Robin Hood flavor of this gallantry on the part of the highwayman, it seems almost unromantic to add that John was later rescued by a doughnut man,

> No one need to tell Samuel Citrone, truckman, that military patriotism is dying. Being entirely practical when he is trucking, he started to protect a piece of furniture he was taking the German Lutheran church, will offrom the Navy Recruiting station the ficiate. other day by wrapping it in the only article he had handy-the American the only known survivor of the deflag. It took two policement to rescue him from the mob, which included several ex-service men.

The first purely scientific and psychological stud poker game in the history of that uncertain game was staged the other night at Columbia University; and by two of its most learned professors, Prof. Albert Johnson, M. A., and Prof. Joseph Holmes, M. A., research directors of the university's famous psychological laboratory They proved beyond any gamble in the world that science has it all over marked eards or any other of the sure-thing methods practiced by chaps heretofore. Six students who at some time in their lives had become acquainted with the game were given pecial dispensations to play ten-cent limit stud poker in the very heart of the university in order to demonstrate how a recently perfected little machine registers every emotion no matter how skilled one may be in concealing it from his face. The profes sors proved beyond a doubt that the better the hand the faster revolved the cylinders, which were showing the effect of the game upon the subject's heart.
