It almost gave Frank nervous prostration to die out on ice cream to weary travellers while the echo of the fans floated into his ears. "Over the hill" got too strong and he "beat it" apropr and all, to the game to see how it was going. A quart of water to wash the jar in, a box to pack them, the kettle in which to cook the berries—conservation of energy with a big "C".

I want the type that's hard to beat!
She must be straight and long and deep
And stand up proudly on all four feet.
Her ears will be large, but her head no long,
And she will be big where her lungs belong.
Her pin-bones will be level, with hips "12" wide,
And a barrel so big—hold a ton inside.
You ask me what color? O, I don't care,
But she must have velvet skin and silky hair.
At all the fairs I'll show to you,
My Jersey heifer. She'll win the blue.

CATARRHAL DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or impaired hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts through the blood on the mucous surfaces of the system. We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c. F. J. Cheney & Co., Toledo, O.—Adv.
