NOTICE

To the citizens of Oregon City and vicinity: We wish to announce that we have located in Oregon City with office and treating rooms at No. 1109 Main St. in the Frank Busch building.

We use the famous pack treatment introduced in the Northwest by Dr. Lotus at Vada, Washington, who prior to his death, gave successful treatments to thousands of people from Portland, Seattle and intermediate sections.

Dr. Lotus in his administration of this pack treatment, proved beyond doubt, that Rheumatism and all nerve and blood disorders, readily responded to this Hydrotherapy pack.

There is absolutely no drugs or poisonous solutions in this treatment, but its effect is realized by the patient at once, and is wonderful in results.

In cases of old age and middle life when blood pressure is high, circulation is sluggish, and poisons rapidly accumulate in the system, this treatment gives to one a feeling, as if ten to fifteen years younger in age.

Having had eight years practice in Clackamas county, with more than one hundred and fifty chronic cases successfully treated at my offices in Canby and Aurora I will be glad to meet old friends from these points who may read this ad, and who, I know will be glad to give an encouraging word to their friends, as to the home they may have in this enlargement of my work.

We make no charge for consultation, or examination, and if symptoms are such that we cannot help you, we will frankly tell you so. Come in and let's get acquainted. Dr. John Fuller, Hydro and Mechano Therapy, 9-8-11F

FIRE ON ROAD TO OATFIELD IS CONTROLLED

ENTIRE DISTRICT WAS ENDANGERED

Volunteer Firefighters Check Blaze and Prevent Serious Damage

Volunteer fire fighters from Gladstone, assisted by folk from Glen Echo and other nearby settlements, spent the greater part of Tuesday battling a brush and timber fire along the Oatfield road.

The fire this morning had covered an area about a mile and a half long and from half a mile to a mile wide.

Most of it was in brush and slashings, but some timber stands were being destroyed. The extreme dryness of everything makes the work of checking the blaze extremely difficult.

The fire Tuesday night lighted the sky brilliantly, and many people thought that it was a continuation of the brush fire that started at Bell Station hill, on the Estacada line, near Portland, last Friday, and which has since been burning its way southward.

The Oatfield road fire, however, is separate from the other one, though the Bell station fire has already traveled over four miles of territory, and if not extinguished may sweep up into the Damascus country.

GLADSTONE, Sept. 14.—(Special).—The slashing fire between the Oatfield and Webster roads which got beyond control Tuesday night, was aided by the high winds and did much damage to the standing timber as well as totally destroying 350 cords of wood, most of which belonged to S. Stevens, of Oak Grove.

At eleven o'clock a S. O. S. call was sent to Gladstone. Many men responded and at 1:30 it was thought to be practically under control and many returned to their homes when it again broke out.

The efforts of Eugene Vedder, O. Prouty, Dr. Nash, Attorney Hammond and Mr. Laidlaw, it was fought, back and the men returned to their homes at 3:30 Wednesday morning.

Several large trees fell across the road and much damage done to fences and grain fields. More than 150 acres was fire swept.

The scene of the fire is about three and a half miles North-east of Gladstone. Men were still watching to prevent another outbreak all Wednesday and Wednesday night. They will continue the watch Thursday.
