fundamental policy at the Washington conference, Japan will not permit the scrapping of the twenty-one demands agreement with China, and will not tolerate interference in the Shantung question, it was declared yesterday by a Japanese in an authoritative position. He asserted Japan considered these matters as accomplished facts which concerned China and Japan directly.

In the general discussion of Far Eastern matters, however Japan was said to be willing frankly to explain her position regarding these questions

May Cut Navy The government is preparing to is-

sue special instructions to the Japanese delegates concerning the limitation of armaments, says the Nichi Nich' Shimbun It is indicated that the project for the building of eight battleships and eight battle cruisers originated in the idea that this program was necessary for the national defense, but that Japan has come to recognize the project has lost its original significance

She is, therefore, prepared, in agreement with the powers, tc carry out such curtailment, it is said, as would make her navy strong enough to maintain the peace of the Far East. Premier Scored

The choice of Prince Tokugawa as

head of the Japanese delegation meets with national favor and gives the Kensei-Kai, or opposition party, no ground for attack upon the government.

Opposition newspapera, however, turn a fire of criticism upon Premier Hara, saying, ne was "too cowardly to ge to Washington himself and accept responsibility for decisions taken there."

Tariffs were filed by the Southern Pacific company in June, effective State Chamber to July 1, increasing the car fare on street cars operating in Salem, Eu gene and West Linn from 5 to 8 cents At about the same time the Pacific Power & Light company, operating the Astoria street railway system filed a new tariff, effective July 1, involving a similar increase in rates

Both of these tariffs were suspended by the commission, pending an investigation into the reasonableness of the proposed new rates. These sus pensions expire October 1, necessitating a second suspension, this time until January 1, unless a finding is reached before that date, to enable the No program either for the meeting or commission to complete its investigation. This second suspension, how ever, exhausts the jurisdiction of the commission in this line and new rates will either become effective as introduced or as might be altered by the commission or must he denied before the expiration of this time.

The great land-clearing movement that swept the country in 1920 is even stronger in 1921-farmers the country over are clearing more land this year than ever before.

The modern way is to use dynamite for blasting out stumps and boulders, for this method is very rapid, reasonable in cost and leaves the land in good condition for cultivation. The majority of farmers use
