HARVEY CROSS TO BE HEAD OF CHAUTAUQUA ASSOCIATION IN 1922

All Officers Re-elected; Plan for Park Improvements Not Yet Definite

Officers of the Willamette Valley Chautauqua association were re-elected for the ensuing year, at a meeting of the stockholders held here Friday afternoon.

C. H. Dye was re-elected vice president, Arthur Peattie, secretary and E. G. Caulfield treasurer.

No definite plans for the improvement of the grounds were made at the meeting with the exception of a decision to construct an entrance to the park at 82nd street.

It is the policy of the association to make some additions or improvements to the park at Gladstone each year, but what will be done in this line in preparation for the chautauqua of 1922 has not yet been decided.

Chautauqua Expense Is Shown in Report

The expenses of the Willamette Valley Chautauqua at Gladstone this year, amounted to \$10,764.86, according to the financial report for 1921.

The report shows that a total of \$2,317.80 was spent during the year for permanent improvements to the grounds.

The board of directors for the association next year will consist of Mary L. Mallett, president of the state W. C. T. U.; George Armstrong, Redland.

The executive committee, which has already been empowered to negotiate with the Ellison-White people for next year's program is composed of H. E. Cross, C. H. Dye, L. Adams, E. G. Caulfield and C. Schuebel.

At the meeting held last week, the officers of the association of this year were re-elected for the ensuing term.

MR. AUTO OWNER... How are your side curtains and top? Are you prepared for winter driving? I specialize in making and repairing tops and side curtains and I will save you money over the Portland prices.

High Livestock Standards

In a very few years Clackamas county has acquired a reputation for breeding high grade cattle. Preference has run to Jerseys and Guernseys, and through the co-operation of local financial institutions, pure-bred stock has been imported from foreign lands.

Scrubs and grades are taboo among those who have not been slow to take advantage of opportunity to improve livestock conditions here. Purchases have been made easy as financial backing has been provided to responsible persons, and the returns are immeasurably better.

Cattle of Clackamas will be exhibited at the annual show of the Pacific International Livestock Exposition at Portland November 5 to 12. A total of \$3,500 has been offered in prizes for Jersey exhibits, and large sums for other breeds.

Building up fine strains of cattle is not difficult in a section such as ours. Clackamas is a natural stock and dairy county, with ideal climatic conditions to assist the breeder.

Huntley Takes Oath as Revenue Collector

(Continued from Page One)
the government, a fact which, Mr. Miller contends, speaks most eloquently of the high standard of patriotism and citizenship of Oregon men and women.

Following the ceremony of installing the new collector this morning, the oath of office was administered to 38 deputy collectors by Stewart F. Lamb, who acted in the capacity of chief deputy for this purpose.

Jack Littell, who has held the position of chief deputy under Milton A. Miller, tendered his resignation to Mr. Huntley this morning and it was accepted, effective November 15.

Miller stated that he had not perfected his plans for the future. He is 53 years old, was born on a farm near Lebanon and served two years in the lower house of the state legislature and 12 years in the state senate.

Racer Turns Turtle; One Dies; One Hurt

ROSEBURG, Oct. 1.—Louis C. Sigel, in the employ of Western Motors company San Francisco, met death early this morning at a point a short distance north of Oakland and his companion, Clark Rogers, was badly injured when the car they were piloting in an endurance run from Portland to San Francisco plunged through a bridge at 3 o'clock this morning.

Full particulars of the accident that snuffed out one life, and perhaps another, are lacking, but it is understood that the car, a Willis Sainte Claire twin eight, equipped with a 50 gallon auxiliary tank for gas and oil, turned completely over and pinned both men underneath.

Thirty-five electric meters control the movements of the giant telescope recently installed in California for astronomical observation.

Paradise Corners Romance Punctured

Paradise corners, Clackamas county, Oregon, is living proof of the wisdom of the bard of Avon when he gave to immortality the phrase, "What's in a name?"

The suit was the outgrowth of an interesting situation. In 1895 Sarah Bell married Cadiz Pratt. Some time later they moved to Paradise Corners. On July 5, 1917 a divorce was filed alleging that Cadiz Pratt, defendant had been guilty of cruel and inhuman treatment.

Pratt wanted to jail. His former wife married R. P. Browne but on September 21 of this year, Browne filed suit for divorce, claiming, in addition to cruel treatment at the hands of his wife, that she was keeping Cadiz Pratt who in the mean time had been released, on their place during the time her husband was away.

The court granted a divorce and the division of personal property. Then Browne requested the protection of a deputy sheriff while he went to his home to claim that part of the mutual goods decreed to remain in his name.

Division of Union District Is Denied

School district 26, at Union, will not be divided into two districts. This was the decision of the district board, which, in an adjourned session, cast a 2 to 2 vote upon the question. It requires a majority vote to divide a district.

A reduction of the tax levy of the Carver district was compromised recently \$1400 was included in the budget for the purchase of four acres of land. It was claimed that this was not needed by the district and the levy was reduced so as to net \$700 for this purpose, two acres to be purchased.

WOMAN'S PAGE by Florence Riddick Boys

Women's Clubs

Speaking educationally, women have ages-long eaten the crumbs which fell from the master's table. It is only in the last generation that they have been admitted to high schools, and colleges, with their brothers.

Perhaps her very privation has made her all the more keen. High schools, lectures, and public libraries are not attended by large numbers of women than men, and the one distinctly learned profession—school teaching—is almost monopolized by the gentler sex.

Womens' Club study was not "in-growth." Women began to learn things about the world to awaken to the same interests that were stirring their husbands and brothers. Then began the period of investigations—

OPEN DOORS IN BUSINESS

AGRICULTURE

Just now farming is not as profitable as it has sometimes been, but the condition is probably only temporarily. Farmers are gradually coming to apply science to practical knowledge; to keep books and know which are their most profitable crops; to specialize on some crops fitted to their soil or climatic conditions, or in demand in their market; and to improve market conditions.

Even the farm girl should add a course at an agricultural school to her knowledge and should study bulletins and farm papers and keep alive to up-to-date methods. As farm machinery relieves the heaviest part of farm labor, women will be more and more able to become farmers.

Mangoes

Mangoes or sweet peppers, are commonly despised as food, but they deserve better regard. They contain valuable phosphorus, calcium and iron; and, as a flavor, surpass all vegetables except onions.

In mixed pickles, mangoes have long been used. Stuffed mangoes flourish in rural districts where there are gardens. These are made by taking out the seeds, soaking in salt water overnight, and stuffing with chopped cabbage which has been seasoned with salt, pepper, sugar and celery seed.

They are then packed in a stone jar covered with hot, sweetened vinegar and allowed to stand until used. They may be made more fancy by adding raisins, horseradish, nasturtium seed, a little tumeric, olive oil, grated nutmeg, chopped cucumbers or any other vegetable which may be pickled.

Woman Falls From Stool; Breaks Wrist

Mrs. A. L. Beattie, wife of Dr. Beattie, of this city, is suffering from a comminuted fracture of the wrist, caused by falling from a stool upon which she was standing while removing a screen from a window. The accident occurred at the Beattie home on Saturday afternoon.

Circuit Court Gives 4 Divorce Decrees

Four decrees of divorce were granted Tuesday by Circuit Judge J. U. Campbell, in the following cases: Henry versus Ethel Coles; Florence versus Sidney Cornish; R. versus N. S. Palmer and Lelia versus F. D. Scammon. In the three latter cases the plaintiffs were granted the custody of their minor children.

What Is A Woman's Club?

What is a Woman's Club? A meeting ground for those of purpose, great and broad and strong. Whose aim is toward the stars, whose ever long. To make the patient, listening world resound with sweeter music; purer, nobler tones.

MRS. SLOMON SAYS
A few drops of maple flavor improves pumpkin pies.

The Woman Citizen

A Woman on the State Board of Control. In every state there are institutions which care for unfortunate, the insane, delinquent, orphaned, tuberculous blind, deaf or otherwise needy or homeless. These institutions must be looked after by some power some sort of board of control.

In most states such a board is made up entirely of men, and some states even contend that the work is "unfeminine," "impossible of performance by a woman," and "wholly without the sphere of women." Such is not the case in Nebraska, which has a woman, Miss Katherine Worley, as one of the three members of its Board of Control.

Miss Worley, while confessing that the work is not an "easy chair" job, she is more experienced shopper. Nebraska's having dear ones in many of the state's sixteen institutions, may take comfort in the knowledge that a woman helps the men in the management of the state's homes.

Other states will do well to put a woman members on their Board of Control or state institutions.

Keeping these institutions is but housekeeping on a large scale, and as such not without the sphere of women. There are visits of inspection to be made at frequent intervals, when the housewife's eye is most necessary.

There are social and sanitary problems to be solved in which woman's viewpoint deserves consideration. There are supplies to be purchased, women's clothing of all kinds, such as a woman is best fitted to select, as well as household supplies in which she is more experienced shopper.

Nebraskans having dear ones in many of the state's sixteen institutions, may take comfort in the knowledge that a woman helps the men in the management of the state's homes.

Other states will do well to put a woman members on their Board of Control or state institutions.

HAPPY THOUGHT

Thinking what you do is more fun than doing what you like.

Partner in Sawmill Is Crushed by Fall

SANDY, Nov. 1.—R. E. Jarl, partner in the Nelson & Jarl sawmill, suffered a crushed chest when he fell 25 feet from a log deck. Jarl was too weak to be taken to a hospital and a Gresham physician is attending him at the mill. He was a storekeeper between Sandy and Poring until recently.

DRUNK DRIVER FINED

L. M. Holmes, of Portland, arrested here Sunday night by Officer Wagonblast for driving a machine while intoxicated, was convicted before Recorder Charles Kelly, and fined \$26, which he paid.

They Say Tomorrow Never Comes

HEAR THAT SPRING SQUEAK-I MUST FIX THAT-I'VE BEEN GOING TO DO THAT FOR SOME TIME. THAT'S ENOUGH TO DRIVE YOU CRAZY-I'LL REMIND YOU OF IT. I THOUGHT YOU WERE GOING TO FIX THAT SQUEAKY SPRING-WHY DON'T YOU DO IT NOW-WHEN YOU'RE NOT BUSY. HUH!! 1?-?-WHATCHA SAY-Y. THAT THING'S SQUEAKING WORSE-FOR HEAVENS SAKE DON'T PUT OFF FIXING THAT ANY LONGER. AWRIGHT-AWRIGHT-REMEMBER ME OF IT-TOMORROW NIGHT. FOR THE LOVE O' MIKE-CANT I SIT DOWN FOR FIVE MINUTES WITH OUT YOU HARPING ON THE SQUEAKS IF YOU WORKED LIKE ME ALL DAY-ETC. YOU SAID TO REMIND YOU-SO DONT CALL IT HARPING. I DONT THINK OF IT AT HOME-IF YOU'LL KINDLY REMIND ME TOMORROW. I'M SICK OF HEARING THAT YARN-YOU'VE BEEN GOING TO FIX IT FOR SIX MONTHS ETC.
