Endeavor Society Hold Unique Party

JENNINGS LODGE, Nov. 3.—The Christian Endeavor society gave a very enjoyable Halloween social on Friday night at the home of Mrs. Naomi Wilcox.

In her witches costume, Mrs. Barker, brewed a kettle of weird lizards and snakes reading the future of the thirty-nine guests from this very strange mixture.

Then chairs were arranged in a circle and an unwelcome guest of a spectre form stalked in and tried to find a seat, which was denied him, unless he took it by force or speed, thereby making his right hand neighbor the ghost in his stead. Much merriment was provoked by the race to fill the witches stockings, with apples carried on a spoon. The race by the young men to string wet pumpkin seeds was quite exciting. A great hunt was then started to find the old witch's black cat and as soon as its nine pieces were located, the game of pinning, on the cats tail blindfolded followed.

Appropriate prizes were awarded after which pumpkin pie, doughnuts, apples and cider were served. A song fest around the piano brought the social to a close. The guests departed for home charmed with the social also with the new president, Mr. G., under whose untiring efforts, a successful future for the Christian Endeavor is assured.

PISTON PIN KNOCK DESCRIBED
The knock produced by a loose piston pin is considerably lighter than a crank shaft knock and is most noticeable when the engine is running idle with the throttle nearly closed. The only cure for the knock is to repair the pin or bushing or both, though fortunately this knock does not indicate a dangerous condition as a crank shaft or connecting rod knock.
