The interior of the home was prettily decorated. The color scheme was green and yellow. These colors were artistically carried out among the table decorations as well, and was centered with a golden colored pumpkin filled with fruit, while the places were marked with place cards with original limerick by Miss Jessie Paddock. Fancy Articles—Mrs. Frank Bernier.

OF JAPANESE FOR ARMAMENTS
WASHINGTON, Dec. 2.—American naval opinion finds it difficult to reconcile Japanese claims to a higher fleet ratio than the American 5-5-3 proposal on the basis of Japan's additional tonnage sought by Japan is all in offensive, or defensive ships. The Japanese experts brought up in discussions among the experts, however, the question of additional airplane carriers for Japan. It has been indicated in Japanese circles that Japan desires equal tonnage with Great Britain and the United States in carriers.

It is regarded as certain that the American conference delegation will not be disposed to accept the Japanese proposal of equal tonnage in airplane carriers for Japan.

RECORD HIGH TIDE WASHES TRACK OUT NEAR ASTORIA
ASTORIA, Or., Dec. 2.—One of the year's highest tides backed up into the Columbia river by the long series of southerly storms and washed out a length of track variously estimated at from 2000 feet to a mile and a half long on the S. P. & S. railway, about six miles east of Astoria, last evening.

A northerly wind which lashed the river to fury and drove heavy waves against the railway embankment between Fernhill and Burnside undermined the rails, in some places leaving the ties and steel rails hanging suspended over gaps.

No trains reached Astoria last night, but one wire remained up between here and Portland and travel over the highway was almost completely shut down by trees having fallen across the pavement.
