## SURVEY FOR PROPOSED UNION HIGH COMPLETED

### Figures Compiled on Status Of Districts Included In Canby Plan.

A complete survey of the districts included in the proposed Canby Union High in order to form a basis for accurate determination of their relative position as affected by the formation of a joint district, has been completed by County School Superintendent Brenton Vedder.

The survey shows that seventeen districts have a total valuation of \$2,531,387.93, levy special taxes to the amount of \$20,878.72 for grammar school and high school purposes exclusive of the 3.3 high school tuition taxes, have a combined school census of 1,216 with an enrollment of 861, graduated a total of 98 from the grade schools this year, employ 39 teachers whose total monthly salary is \$3,439.75.

**PLANS ARE TENTATIVE**

The establishment of a union high school at Canby is only in its inception, and meetings of the various school boards are to be held after the first of the year to consider the submitting of the proposition to the taxpayers. The outline of the various districts is only tentative, but has been arranged so as to give a definite working basis.

Canby, according to the survey has levied a 27.2 mill tax for both grammar school and high school purposes, which raises upon a valuation of \$534,815.48 a total of \$14,547.06. Seven teachers are employed in the grammar school and five in the high school, the salaries of the former aggregating \$755.55 a month and the latter \$822.20. Of the school census of 392, based upon the latest census completed a month ago, 348 are enrolled, and 33 were graduated from the 8th grade this year.

**12 LEVY TAX**

Of the 16 districts outside of Canby, twelve have levied a special tax for grammar school purposes, which totals \$4.9 the average tax being 4.57 mills. In addition to this, they all pay a levy of 3.3 mills for high school tuition purposes, which would not be required in the event of the consolidation.

The districts outside of Canby employ on the average, one teacher. Three districts, however, have two room schools, requiring two teachers. The average salary ranges from \$90 to \$125 a month.

The districts included in the list are Elliott Prairie, Mundorf, Macksburg, Oak Lawn, Marks Prairie, Nedy Union Hill, Brown's, New Era, Meridian, Union Hill, Ninety-one, Barlow, Lone Elder, Whiskey Hill, and Aurora. These latter two districts are only partly in this county and the figures given are only for that portion that falls under local jurisdiction.

## Two Cars Crash On Highway Near Canby

A Ford automobile driven by Lyle Pennell, of Barlow, and a new Lexington automobile driven by L. G. Compton, state warden of the state penitentiary at Salem, collided Sunday afternoon at 3 o'clock near the new garage of Grant White in this city, and as a result the Lexington car, which was completely turned over, was badly damaged, necessitating a new wheel cover and extensive repairs to the body of the car. Compton's face was badly cut by glass, when the windshield broke as the collision occurred.

After the two cars came together, the Lexington skidded about 40 feet before it turned over. Compton in company with a friend, were both thrown from the car, and those witnessing the accident claim it a miracle that the occupants did not suffer from serious injuries.

Pennell was on his way to Molalla and Compton traveling north on his way to Portland, the two cars colliding at the cross roads.

Mr. Compton's car was removed to the White garage, and today taken to Portland by the Lexington automobile representatives, where repairs will be made.

It is the intention of the company to install one of the latest soda fountains, an equipment for the candy department, one of the new departments to be established for the new building. This will be in charge of Mrs. C. H. Sheldon, experienced in this line. Mrs. Sheldon, wife of the local manager of the company, has assisted in the drug store since her husband has been connected with the firm.

## Oregon Eleven Wins On Hawaiian Grid

HONOLULU, Dec. 27.—With a barrage of forward passes and brilliant end and center plays, the football eleven of University of Oregon yesterday defeated University of Hawaii 47 to 0.

The islanders were completely at the mercy of the mainland players. The heavy Oregonians broke through the Hawaiian line at will, completely outclassed the island team and destroyed its morale at the very outset.

In the first period Chapman went over for a touchdown and Leslie kicked goal.

King, Reinhart and Latham made touchdowns in the second period and Leslie failed to kick goal on King's score.

Latham went over for a touchdown again in the third period on a forward pass and Leslie kicked goal.

The heavy fourth period Reinhart scored two touchdowns, one on a forward pass from Latham. Leslie failed to kick goal on the first touchdown but booted the pigskin over on the second try.

The Oregon team is scheduled to meet a navy team from Pearl Harbor here Monday, January 2.

## Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions.

**HALL'S CATARRH MEDICINE** is a Tonic and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and assisting Nature in restoring normal conditions.

## PRICE BROTHERS' ROBBERED; MEN'S APPAREL TAKEN

Robbers who entered the Price Brothers' Department store at 7th and Main streets Wednesday morning, made themselves at home, leisurely looked over stock, picked out several hundred dollars worth of men's apparel, and departed leaving practically no clues behind them.

## Exact Amount of Loot Is Not Determined; No Trace of Thieves Is Found.

Entrance was gained to the store through a roof scuttle. Climbing onto the roof of an adjacent building, the robbers, believed two in number, took the top off of the hole, which was unfastened, and dropped to the mezzanine floor.

No definite estimate of the amount of the loss has been made. A number of suits, overcoats, silk and cotton shirts, socks and underwear were taken. From the appearance of the store, and the number of cigarette butts upon the floor, the yeggs had evidently stayed for several hours. The stock, while not badly disarranged, showed that considerable care had been used in making the selection.

## GO THRU ROOF

It is believed that the robbery took place about two o'clock in the morning. The theory was at first held by the authorities that the job was the work of boys, but this was discarded after a complete investigation due to the evident confidence that had been displayed by the robbers and the ease which they conducted their work.

Hunt has been instituted for several "shady" characters noticed by the officers during the past two days. City and county officials have been called in on the case.

## BOY THEORY SCOUTED

It is believed that the robbery took place about two o'clock in the morning. The theory was at first held by the authorities that the job was the work of boys, but this was discarded after a complete investigation due to the evident confidence that had been displayed by the robbers and the ease which they conducted their work.

## 18 MILLION IS SPENT ON ROADS OF STATE IN 1921

SALEM, Or., Dec. 15.—There has been expended under the supervision of the state highway department during the fiscal year of 1921 approximately \$18,245,821.37, according to a report prepared here today by Herbert Nunn, state highway engineer.

These funds were divided as follows:

State funds	\$15,031,655.14
Federal co-operative funds	2,181,956.65
County funds	985,831.42
Railway funds	46,378.16

Besides these amounts the state highway department has supervised the surveys and location for marked roads, for which money is available to the aggregate of approximately \$2,000,000.

During the year the commission has finished construction of approximately 188 miles of pavement, 499 miles of macadam and 504 miles of grading, or a total of 1191 miles constructed. It also has completed 98 bridges at an approximate total cost of \$1,441,180.

The overhead cost of operating the state highway department, as set out in the report was 5.98 per centum of the total amount of money expended. This included the expense of the highway commission and secretary, legal department, auditing, cost-keeping, testing materials, road maps and information reports, bridge designs for counties, engineering work furnished to counties, surveys and engineering for market roads, state surveys for co-operative construction, all engineering for construction on state and cooperative roads, and supervision of maintenance.

## OLCOTT VETOES SEVEN SPECIAL SESSION BILLS

Lodge Exemption and Full Term Measure Knifed by Chief Executive.

SALEM, Or., Dec. 28.—Five house bills and two senate bills passed at the recent special session of the legislature were vetoed by Governor OLCOTT today.

In referring to these bills in his veto messages the governor said they were not of such character or urgency as to have warranted consideration at the special session.

His veto included a house bill which provided that no lodges chartered by special act of the legislature assembly of the territory of Oregon prior to the adoption of the constitution of 1859 shall be limited as to the value of the real or personal property which they may hold for their use or benefit. It was said that this bill affected only two lodges in the state, one of which is located at Eugene and the other at Oregon City.

Another vetoed bill provided that whenever a person at any general election in Oregon shall be elected to any state, district or county office, unless otherwise provided by the constitution, such person so elected shall hold office for the number of years prescribed by law as the full term of such office.

The governor also disapproved a bill having for its purpose the validation of marriages where one or both of the principals previously had been divorced in counties other than their legal residence.

Other house bills vetoed related to methods of voting by absent voters and increasing the exemption of taxation on inheritance.

Senate bill number 16 included in the governor's vetoes. It provided that school districts shall not be required to publish their estimate sheets under the so-called budget law.

Senate bill No. 14 also was disapproved. This bill related to the manner of fixing values of estates, for inheritance tax purposes, when the information was not forthcoming from the usual sources.

The governor signed senate bill No. 10 authorizing state banks to borrow money from the war finance corporation under the same conditions as govern national banks.

National banks, under the present laws, may borrow money from the war finance corporation in any amount they may cover by satisfactory collateral. The state banks, under the so-called old banking statute, were limited to borrowing from the war finance corporation only in the amount represented by their capital stock and surplus.

## Garbage Franchise Put up to Council

Proposals for an exclusive municipal contract for the collection of garbage in Oregon City are to be presented to the council at their meeting next Wednesday, January 4. A letter from a concern which operated in Astoria has been received by City Recorder Charles Kelly, and it is probable that representatives of the company will be on hand to outline their proposition.

At present there is no organized method of disposing of garbage here. The city collects solid refuse, such as cans and bottles, about once each month. Householders are forced to make their own arrangements for the disposal of their refuse.

It is understood that several concerns are to make proposals for the handling of this business here, although but one has been definitely presented. It is probable that the operation of a municipal incinerator will be discussed, although in general a franchise to a privately operated concern is favored.

## Red Cross May Run Six Months in 1922

Although complete reports from the Red Cross drive which was held just prior to the Thanksgiving holidays have not yet been received, it is probable, according to present indications that only sufficient funds will be raised to enable the local office to continue its activities for the first six months of the coming year.

Reports from a number of the outlying districts in the county are not in, and the returns from the majority of the local industrial plants where subscription campaigns were carried on, have not been made. The Crown-Willamette Paper company turned over to the secretary \$300 which was raised by subscriptions among the men at the plant and the Red Cross has expressed itself as highly gratified at their showing.

## HAWLEY MILLS SUED FOR USE OF MACHINE PATENT

SUIT IS COMMENCED IN FEDERAL COURT

Eibel Process Company of Portland, Maine, Is Plaintiff.

PORTLAND, Dec. 28.—A perpetual injunction against the use of an improvement on a paper making machine is asked against the Hawley Pulp & Paper company of Oregon City in an equity suit filed this morning in the federal court by the Eibel Process company of Portland, Me.

The plaintiff alleges that the Oregon City company is using an improvement on its Fourdrinier machines which was patented February 26, 1907, by William Eibel.

A large number of paper manufacturers are using the improvement under license from the plaintiff, the complainant states. The Hawley Pulp & Paper company has been notified of its alleged infringement and requested to secure a license to use the improvement, the bill sets forth.

## Six Poultry Farms To Keep Records

Two additional poultry demonstration farms have been selected for Clackamas county for the coming year, making now a total of six from which records will be kept and on which seasonal demonstrations will be conducted.

Last year there were four of these farms, doing
