**The Oregon City High**

SPORTS SOCIETIES SAYINGS DOINGS

The Class of '22 are now the proud wearers of their new class pins and rings. So, with a few possible exceptions, you may know that persons wearing the letters O. C. H. S. mounted on a green gold arrow-head with the figures 22 at the tip are candidates for graduation in June.

**Juniors 15-Seniors 13**  
The Juniors and Senior boys played the championship game of the inter-class basketball series on Tuesday afternoon. The preliminary contests between Seniors and Freshman, and Juniors and Sophomores, left it to these two teams to decide the championship. Class rivalry made the game one of "put and take," as it were, and yet in spite of the fight, a fairly good brand of basketball was displayed. One can readily prophesy that, with the material in that game developed in the way of accuracy and teamwork, we have an excellent outlook for a successful season in basket-ball. The following gives the line-up and score for each team.

Senior	Total
F. J. Bennett	1 0 2
F. J. Sullivan	2 1 5
C. R. Eby	0 0 0
G. G. Tatro	0 0 0
G. P. Laurs	0 0 0
G. T. Parry	2 2 6
Totals	5 3 13
Juniors	
F. M. Toban	0 0 0
F. F. Gardiner	2 2 6
C. C. Johnson	3 2 8
G. L. Bingham	0 1 1
G. W. Griswell	0 0 0
Totals	5 5 15

Alternating halves, a girls game was played on the same afternoon. This was a practice game between teams picked from Junior and Senior girls. In this game the Junior girls were winners with a score of 14 to 2. Alice Hultenberg was the star of this game with the total of 14 points to her credit.

On Thursday, January 5, an assembly program was given in honor and appreciation of the football players of the past season. Talks were made by Manager Pete Laurs, Captain James Sullivan and Captain-elect Leonard Mayfield. Coach L. A. King gave a brief review of the season's games and some ideas of our prospects for next year. A talk that proved to be both instructive and entertaining was given by Miss Ermil Bingham, her topic dealing with the girl's interest in and support of football.

Following a few preliminary remarks, Principal W. L. Arant presented stripes to those who have participated in sufficient games to win a letter the second time, and letters to those who qualified for a letter for the first time this season.

Those receiving stripes were: James Sullivan, Wilbur Griswell, Leonard Mayfield, Carl Johnson, Monroe Harbison, Ralph McCoy.

Letters were awarded to: Pete Laurs, George Tatro, Myron Toban, Roscoe Locke, Bud Baxter, Roland Eby, Ryle Reddick, Leonard Thoen, Hugh Croner, John Bennett, Chester Newton, Stanley Losh, Quentin Cox.

The high school debating teams are hard at work in preparation for the contests set for Friday evening, February 3. In managing the debate work, the entire state is divided into districts, the local high-school belonging to the North Willamette District. In each case the affirmative team remains at home for the contest and at our own high school, Gordon Hannaford and Gladys Hannaford will debate with the negative team from Parkrose. The negative team from O. C. H. S., composed of Marguerite Jackson and Eloy Anderson will go to West Linn to debate. The question for debate is: "Resolved, That the Plumb Plan for the control and management of railroads should be enacted into law."

A recent enrollment at the high school is that of Emma White, who comes here from the King George V high school of Gray Point, B. C. An interesting difference in school organization was shown in arranging her course here. Miss White has been in high school there for a year and three months and will be classified here as a Sophomore, yet she has been reciting for seven periods each day and was enrolled in nine courses. The chief differences are that some classes recite only two or three times each week, similar to our college plan. All preparation must be done outside of school hours, and the regular time for study is expected to be 3 hours each evening. This is usually from 7 to 10, since participation in sports takes up the time before dinner.

**MOVEMENT TO ENLARGE UNION HIGH LAUNCHED**

**Seven More Districts May be Joined to Sandy; Increase in Valuation Pointed Out.**

A movement to increase the size of Union High School District Number 2, centered about Sandy, so as to take in seven other grammar school districts, has been launched here. A tentative list of districts which might be included in the enlargement has been prepared by County School Superintendent Brenton Vedder and the movement is to be considered by the Sandy people and the other districts which would be affected.

The seven included in the proposed change are Welches, 13; Sandy Ridge, 39; Marmot, 26; Deep Creek, 91; Brightwood, 113; Greenwood, 124, and Hillcrest, 135. These districts would increase the total valuation of the Union High School district from \$961,772 to \$1,482,835.25.

If the consolidation is effected, it would increase the school census of the district one-third. The census of the union high district at present is 462, and if the other seven were taken in it would be 647. The statistics compiled by Mr. Vedder show that the number of graduates from the eighth grade in the entire district included in the proposed combined plan was 40 last year. Of this number 29 came from grammar schools within the Sandy district proper.

The proposal for the enlargement of District Two is the second case now pending in the county. A movement was recently started to organize a union high school district at Canby. This, however, would involve the creation of a district which has never existed before while the other would simply involve an enlargement.

**Prize Turkeys from Ryan Ranch Stolen**

Eight prize turkeys were stolen from the home of Judge and Mrs. Thomas F. Ryan, of Gladstone, Tuesday evening, during the absence of Judge Ryan, who was attending the installation ceremonies of the Pioneer Chapter of Eastern Star in this city. No clue to the turkey thief has been found. Sheriff Wilson has been notified. The birds were the property of Mrs. Ryan, who has been an invalid for the past six years, and six months, unable to leave her bed in that time, and she highly prized these turkeys, looking forward to having others raised from the stock for show purposes.

Among the birds stolen were two that had been awarded blue ribbons at the Oregon State Fair in 1921, and two blue ribbon winners at the California State Fair. One of the birds cost Judge Ryan \$18, and the entire flock was valued at \$100.

From indications the birds had been snatched before removed from the coop, showing that the thief was experienced at the business. This was to prevent them from making any noise while being caught.

Several weeks ago Judge Ryan found two men prowling near his home, and several shots were fired by Mr. Ryan, scaring them away.

**Holidays at Indian Mission Described**

In a letter to Mrs. James Dawson, of this city, from Mrs. C. H. L. Chandler, wife of Rev. Chandler, written at Pocatello, Idaho, tells an interesting account of Christmas celebration among the Pocatello Indians at the Episcopal Mission.

On Christmas Eve the big Christmas tree, beautifully decorated, and laden with gifts for the Indians was an event that drew two hundred of these people. Not one was forgotten, had provided funds for gifts to be presented from the grandfather to the tiniest child. Men wore given pipes and tobacco, women useful articles, such as handkerchiefs or bright colored ribbons. Boys were given books and girls pretty hair ribbons, while the younger generation received toys.

Candies and nuts were also provided. There were over 100 children taking part, and as Mrs. Chandler officiated as organist of the occasion, says this was the most beautiful singing of children she has listened to, in her experience as an accompanist. Many of these children had unusual sweet voices, and attracted unusual attention of the many white visitors at the service.

Rev. Chandler is rector of Trinity church of Pocatello, resigning the rectorship of St. Paul's Episcopal church of this city. The family is delighted with the new home, Trinity church is one of the handsomest structures of Pocatello, being built of stone.

**NEWLYWED KILLED**  
OMAHA, Jan. 12.—Fifteen minutes after Henry L. Tinker of Dallas, S. D., married Miss Julia Brunning of Omaha at Council Bluffs last night he was lying fatally injured under an overturned automobile. He died here early today. The bride was painfully injured.

**OFFICERS OUSTED**  
NEW YORK, Jan. 11.—Asserting that they had been wrongly advised to go on strike and were eager to return to their old jobs, about 1800 milk wagon drivers of local union No. 554, who have been on strike since November 1, unanimously voted the union officials' out of office at an indignation meeting. Basis for the action, it was said, was provided in the union's constitution.

**TAX EXEMPTIONS HIT**  
WASHINGTON, Jan. 16.—The treasury department will support a constitutional amendment prohibiting further issuance of tax exempt securities. Secretary Mellon told the house ways and means committee today.

**OLD FASHIONED BREAD AND MILK BEST FOOD FOR BABIES, IS EXPERT OPINION**

American Boy Drinking Milk

By DR. H. E. BARNARD, Director, American Institute of Baking.

The extraordinary interest every one is taking in the recently discovered vitamin content of food in stimulating the study of food as perhaps no other situation has ever done.

It was never easy for people to think in terms of calories or energy producing food units, but it is a simple matter to remember that children will not grow if they are deprived of the butter fat of milk, and that many children's disorders are due to too narrow a diet.

The interest manifested in a careful choice of the food supply is bound to be very helpful during the coming winter, and especially so in the case of families where economy is most necessary. Fortunately the best foods for children and for grown people too are "the cheapest foods." It is not necessary to eat high priced foods in order to get the essential vitamins. Not only is milk an ideal food for children because of its high food value and cheap cost, but it is also rich in the vitamins.

A diet of bread and milk furnishes almost everything the child needs, for the bread supplements

Yum! Yum! Boscian Children Eating Bread and Milk

By DR. H. E. BARNARD, Director, American Institute of Baking.

The milk and supplies the necessary starch food and a very desirable form of protein for muscle building. The yeast used in making the bread is the richest of all known foods in the water soluble vitamins.

If in addition to the bread and milk diet, green vegetables are eaten, either in the form of salads or cooked, other important food elements are provided. Cabbage,

spinach, carrots and turnips have a high vitamin content and they are also rich in essential minerals which the growing child needs.

The popularity of the common fresh yeast cake, as a source of vitamins is in itself strong evidence that these little understood food accessories are quite as important in nutrition as fat, carbohydrates or protein.

**JOINT WATER DISTRICT IS DISSOLVED BY COURT**

The way is now cleared for the formation of a new water district in the vicinity of Oak Grove, through a court decision of Circuit Judge J. U. Campbell dissolving the old Jennings Lodge-Oak Grove district.

The question of the legality of the election creating this district has been in doubt and the judge declared the formation procedure void. No improvements were made under the old district, due partially to the cloud that was cast over any attempt to sell bonds, as the election's legality was doubted.

Plans at present are for the securing of Bull Run water. An election is to be held in the near future to create a district with boundaries differing somewhat from the former area.

**WOMAN BADLY HURT IN AUTOMOBILE ACCIDENT**

Mrs. W. E. Warner, of Ninth and Selma streets, Oregon City, had a narrow escape from death on Sunday evening while riding in an automobile driven by her son, Sidney, who was blinded by glaring lights of a passing car while a heavy fog hung over the city.

Mrs. Warner had been at the home of a sick relative in this city, and while riding along Ninth street a number of automobiles passed. Several of the drivers failed to dim their lights, causing the driver of the Warner car to collide with a curbing. Mrs. Warner was pitched against the windshield with terrific force, causing a gash in the throat, one-eighth of an inch from the jugular vein, and laceration of the chin. The injured woman was immediately rushed to the home of Doctors Eaton, close by, and it was necessary to take four stitches in the neck and twelve stitches in the chin. Mrs. Warner's face is also badly bruised. She suffered from great loss of blood before the home of the attending physician was reached and was in a weakened condition upon her arrival there.

Mrs. Warner is one of the active members of the Methodist church of this city and also of the Willamette Rebekah Lodge.

**CAMPAIGN TO MAINTAIN NURSE HERE, PLANNED**

The committee from the Clackamas County Health association met in the Commercial club parlors to promulgate plans for raising a fund sufficient by vote to retain a county nurse throughout the year. A canvas of each section of the county will be made to raise the \$2000 necessary to insure the work.

**Repair of Bridge at Molalla Is Rushed**

John Heft, county bridge superintendent, is engaged in getting the steel bridge between Molalla and Colton, damaged by the heavy floods, in readiness for traffic. It is estimated the repairs will cost the county \$500. Later new piers will be put in at a cost of approximately \$2000.

**LICENSE IS ISSUED**  
A marriage license was issued Saturday to John Kobler, 28, and Mary Grady, 20, both of this city.

**Across the Pacific From Oregon City to the Mysterious East**

FRIDAY, Dec. 16, At Sea.—After nearly a week on the good ship Pine Tree State, I have come to the conclusion that the Pacific Ocean is a tremendous body of water. We have been steaming north and west from Cape Flattery since last Saturday night, with no land in sight and have seen a slow going freighter from the Columbia river and that is all. Today the sea is smooth and we are knocking off better than 18 knots, with fair prospects of making Yokohama on time next Thursday.

The passenger list is light, only 14 in the cabins, with space for more than 200, though there are about 400 Chinese in the steerage. I have not explored that quarter yet. We left Seattle at noon, with the band playing and colors flying, for this is the maiden trip of the ship. Made Victoria on schedule that evening and went to bed before passing through the Straits.

Next morning there was such a difference. The band was silent, every member being on the sick list. We fell into a choppy sea off the Cape. The printer fell a victim and for three days the menus have been typewritten. My family joined the chorus and the spacious dining salon was nearly deserted. Now that we have passed the Aleutian Islands, the going is good and passengers are commencing to enjoy life on shipboard.

The Pine Tree State is more than a floating hotel. The crew numbers 260, the ship is 535 feet in length, with a beam of 72 feet. Below the flying bridge is the pilot house and chart room. Next below comes the captain's quarters, with an officers' smoking room forward, and midships there are quarters for the deck officers, who have their own mess room. There are so many decks on the ship that one easily becomes confused going about. Above the main promenade deck aft, there is a writing room and tea room, which is quite a popular place about 4 o'clock, and the port and starboard promenade decks are glass enclosed. Inside there is a main lobby, social hall, smoking room and veranda (whisper it) a bar. The tier of staterooms with baths connecting are on a deck below the promenade, with offices for the purser, surgeon and others. Still below come the dining salon, with quarters for the petty officers and the steerage quarters aft. Then come the engine and fire rooms, store rooms and other quarters, that I have not seen.

George is keen over the wireless room. The ship carries three operators, and every day we receive bulletins of world news that are posted in the lobbies. The fire drill yesterday was interesting, with every member of the big crew assigned to a definite post. By noon today we shall be nearly 2000 miles from the Pacific Coast.

**FOUR GAIN LIBERTY**  
DETROIT, Mich., Jan. 16.—Four prisoners, including two of the city's most notorious gunmen, fled to freedom from the house of correction today.

The men made their escape while being marched to breakfast. They slid out of the breakfast line and hid in an anteroom, after which they battered down the bars and dashed for liberty.

**FUNDING BILL REPORTED**  
WASHINGTON, Jan. 16.—Senator McCumber today reported from the finance committee the foreign debt refunding bill providing for collection of the \$11,000,000,000 owed the United States by the allies.

**LACK OF FUNDS HINDER RED CROSS WORK HERE**

That the activities of the American Red Cross chapter in this county will continue only for about five months of the present year is the indication of the outcome of the drive for memberships conducted during the recent holidays.

The total raised by the Red Cross throughout the county was \$1,100. Of this amount, \$300 is the share which will be sent to the national chapter and the remainder will only suffice to carry the expenses of the local chapter for less than six months.

The work of the Red Cross since the conclusion of the war has been in aiding the disabled and wounded soldiers, and the straightening out of claims for government compensation. During the past year the Red Cross had also extended its field to civilian relief, which work was abandoned during the stress of the war and energies concentrated upon the caring for military forces.

Whether arrangements will be made to keep up the work of the local office after the subscribed funds are exhausted, the chapter here is unable to determine at present. It is probable that it will be enabled to continue its humanitarian work through added donations to the fund subscribed at the end of last year.

**JAMES WILKINSON, 85, SUFFERS FROM STROKE**

James Wilkinson, 85, for the past 57 years a resident of Oregon City, was stricken at 6:30 o'clock Saturday afternoon with acute heart trouble.

Mr. Wilkinson was working in the Congregational church building, where he has held a post for a number of years, refusing to discontinue his duties even though his health was failing. Drs. Meissner and Eaton were called, and the man removed to his home at 14th and Main streets. His recovery is hoped for.

Mrs. Jeannette Wiggins, of Portland, his daughter, came to Oregon City immediately.

**TWO ARE ARRESTED ON MOONSHINING CHARGES**

William Gentry and W. H. Payne are facing liquor charges as the result of two raids made Friday by deputies of the sheriff's office. Constable Lowe, and Deputies Long and Hughes raided the Gentry residence on the Frank Robinson farm, two and one-half miles east of Carson on the Clackamas river. They confiscated a complete wash boiler still and sixty gallons of mash.

Fifty gallons of mash and a pint of moonshine were found in possession of Payne, who is on the Bessie Scott ranch a mile southwest of Damascus. No still was located.

Both men are to appear for trial.

**B. F. Michaels Gets Judgment for \$100**  
A judgment in the sum of \$100 was granted in the circuit court Tuesday against the defendant August Olson. The case, appealed from the justice court, involved a dispute over ownership of some blacksmith supplies.

**ODD FELLOWS BUILDING AT ESTACADA DAMAGED**

**Ely Merchandise Store and Lodge Rooms Threatened by Fire; Cause Unknown.**

ESTACADA, Jan. 16.—Fire which broke out late Sunday afternoon damaged the Odd Fellows' building and for a time threatened its complete destruction, but prompt action of the local fire department prevented any extensive loss. The cause was unknown.

The stock of Ely's general merchandise store and furnishings of the Masons, Eastern Star, Odd Fellows and Rebekahs quarters on the second floor were carried from the building. They were somewhat damaged by water.

The blaze started in the apartments of Will Biff, located in the building, destroying the apartment furniture. The full extent of the damage had not been determined. Insurance of \$7000 was carried on the store stock and \$4000 on the lodge paraphernalia.

**MINOR CHANGES MADE IN SCHOOL BOUNDARIES**

Five minor changes in school district divisions were ordered yesterday at a meeting of the boundary board, composed of the county court and school superintendent. Six petitions were acted upon, five of whom were granted, the other being taken under advisement.

A small portion of the Twilight district was annexed to Oregon City. A part of Meadowbrook was put in with the Fernwood district. Two small parts of the Holcomb district were changed, one going to Carver and the other to Parkplace. A portion of the New Era district was added to Mountain Road.

The majority of the changes were made to accommodate individual families where it was found more practical, on account of transportation difficulties, to send children to another school.

The matter of the addition of a portion of the Carver district to Lower Logan is under advisement.

**Jersey Club Elects; Club Leader Lauded**

The Clackamas County Jersey Cattle club has elected the following officers for the coming year: N. H. Smith, president; A. D. Gribble, vice president; John Rheinart, secretary-treasurer.

Resolutions were adopted commending the work of Mrs. L. H. Purcell, Country club leader, and expressing disapproval of the action taken by the county budget meeting in cutting her salary from the budget.

Later a delegation headed by N. H. Smith, president of the club, presented the resolutions to the county court and urged the court to restore the appropriation to the budget.

The court declined to act in the matter, Judge Cross saying that as far as the county court was concerned the budget would stand as recommended at the meeting, and this item would not be restored until it had received a majority vote at a regular budget meeting.

**'ME FOR PRESIDENT,' SAYS OAK GROVE MAN**

For President of the United States—N. F. Nelson of Oak Grove, Or. Nelson declared in a letter to a Portland paper his intention to run for the presidency in 1924.

He says in part: "Am not of any particular creed or party, yet at the present time, a progressive, democratic Republican. Am a firm believer in the enfranchisement of women and should I be elected would have one or more in my advisory cabinet. I was born in a log cabin. I deem it imprudent to outline any definite policy at the present time."

**NEGLECT IS CHARGED**

WASHINGTON, Jan. 16.—Asserting that the more than 3500 mentally disabled former service men now placed in state institutions were victims of such "gross neglect, indifference and profiteering" as constituted a "black reproach on the honor of the nation," the Disabled Veterans of the World War, in a memorial presented today to President Harding urged immediate action by the government looking to the treatment of all such cases in federal institutions.

**CONDITION Shows Big Gain Thruout Country OF BUSINESS**

**Impetus; Trade Is Now Slowly IMPROVING**

By Robert E. Smith

(President of the Lumbermen's Trust Company Bank, Portland, Oregon.)  
The country, involving close inquiry of authorities in all the financial centers inevitably draws forth a variety of opinions. While opinions vary as to causes and remedies it is possible to draw rather exact conclusions as to what conditions actually are and as to what may be expected in the near future.

On the trip which I have just completed I visited important centers throughout the East and South and talked closely with more than one hundred presidents of banks and industrial enterprises professors of economics in universities and governors of Federal Reserve Banks. From the consensus of all these opinions, it may be stated that business as a whole is not going to be as good the coming year as it was in 1919 and 1920.

**NO PANIC POSSIBLE**  
Although times will undoubtedly get worse before they get better we are in no danger of panic, and conditions will not get as bad as they were in 1921 and the years immediately following. A year and a half ago when we were taking an aeroplane ride in the clouds there was a serious question whether we could come down to earth without wrecking our machine, but we have definitely landed and have taken the first big bumps. Although it may be some time before we have smooth riding, we are out of danger of a crash.

The position of the farmer is the principal cause of depressed conditions; that, and the poverty of the railroads going. The farmer pays a large percentage of the freight bills of the country. The farmer is definitely out of the market until next Fall, and the prices of farm products are out of relation with the prices of manufactured products. As long as this condition continues it is impossible to predict resumption of trade and industry. Country banks in the middle West are loaded with frozen assets extended to farmers who cannot pay.

**FAIR PRICES LOW**  
Farm products have reached the pre-war price levels, while manufactured products are 60 per cent above the pre-war levels. Values are coming down slowly for the most part. A large percentage of the country population has left the farms and gone into the cities, and this gives too large a proportion of industrial population for the farmers to support. Wasteful and extravagant methods of production operate against industrial activity. It may be recognized that labor is paid out of production, and as long as labor is permitted to limit or reduce production, industrial activity is hampered.

Prospects for foreign trade are not rosy, owing to the economic conditions in Europe. Our foreign loans of \$10,000,000 can only be paid in merchandise, which, produced at low cost, can be dumped into the United States at figures far below our own production costs.

Nevertheless, there are many reasons for optimism. Merchandise stocks are low in all lines, and, although consumption may be on a reduced scale, 100,000,000 people require a good many commodities. Resumption in buying will surely come, and will be immediately reflected in industry. In all probability, exportation will be stimulated by arrangements or trade with foreign manufacturers. Something may be done along the line of issuing Ter Meulen bonds by means of which impoverished countries in Europe can buy raw materials in the United States. Progress along the lines of disarmament is having a favorable influence.

**TRADE STIMULOUS**  
The foreign exchange conference next Spring will have a tendency to stimulate our foreign trade. There is probability of railroad development, and when this materializes the result will be beneficial to the prosperity of the nation. There are outstanding reasons for optimism in the fact that the United States has the agricultural resources, raw products, skilled labor, facilities and machinery for great production. We also own 40 per cent of the world's supply of gold, great initiative and resourcefulness and the highest type of citizenry. How can great poverty be possible?

One tremors on dangerous ground when forecasting financial conditions. It is possible, nevertheless, to make some specific predictions. It is likely that there will be a general decline in commodity prices. This will be particularly true of manufactured products, although low stocks will prevent immediate sharp reductions.

The general price trend is undoubtedly downward and will continue until manufactured products are on the same level as farm products. We will undoubtedly have labor disturbances through the readjustment period. Labor will endeavor to retard the operation of economic law which is softening no one can do. There will be considerable unemployment. Wasteful processes in industry will be eliminated and efficiency of labor will be increased. There will be many government investigations into the cost of living. Congress and the State legislatures will give serious consideration to the spread between prices falling to production and those charged to consumers, and great laws attempting to remedy this will be proposed.

**Zwicker Cleared of Non-Support Charge**  
Charges of non-support against William R. Zwicker, of Salem, were dismissed by the circuit court petit jury Friday under an instructed verdict from Judge Campbell. Zwicker was indicted here December 22, 1921 for alleged failure to support his daughter.
