POTATO GROWERS—ATTENTION A public demonstration of grading potatoes for market will be held at the potato warehouse of Geo. Brown & Sons at New Era at 2:00 p. m. on Feb. 2. There are many growers in the county who are unfamiliar with market requirements as to size, quality, best types of containers, etc., for seed potatoes if they are to command the best market and prices. Machine graders are used by Brown & Sons, who say that their machines will pay for themselves each year, and if consideration is given to the long life of such equipment it is not difficult to figure why many growers could well afford to invest in mechanical graders. One of the machines will be in operation at the demonstration. This meeting will give the potato growers of the county a chance to observe the practical methods employed by successful potato growers, who will be glad to answer questions of the less experienced. This will be an opportunity. Make it a part of your farm business to attend. For further particulars call or address the County Agent. RIOTS TO BE CURBED DENVER, Jan. 21.—The demonstration of unemployed ex-soldiers scheduled for today, will not be permitted, state officials announced.
