

JENNINGS LODGE

SPECIAL ELECTION FOR WATER DISTRICT IS SET

On March 14, a special election will be held in the Oak Grove-Jennings Lodge district for the purpose of forming a joint water district. The date of election was set Tuesday by the county court after petitions circulated there were checked over by County Clerk Fred A. Miller and sufficient qualified signatures found to require the calling of the election.

The district, included in the proposal, embraces approximately 10 square miles, and will have an assessed valuation of more than \$1,000,000. Under the law, they will be able to tax for ten per cent of the valuation. This will raise a fund of \$100,000. At present there are no estimates regarding the cost of the system, and no plans will be made until after the election. The district takes in the territory from the north boundary of Gladstone, to and including a portion of the south part of Milwaukie, embracing the Jennings Lodge, Concord and Oak Grove school districts.

Sentiment throughout the entire district, according to J. Dean Butler, attorney in charge of the legal work, is practically united in favor of the water district, and there is practically no doubt but what the election will carry.

SANDY DEPARTMENT

MRS. J. M. C. MILLER Correspondent

Modern School at Sandy Advocated

SANDY, Feb. 1.—County Supt. Vedder brings the matter of a modern union high school officially before this section in a number of letters which have been received since his recent visit here and gives figures that are startling in their significance. He first gives the valuation of each district in the present union high, the total of which amounts to \$961,000.00 and says with the addition of Welches, Sandy Ridge, Marmot, Deep Creek, Brightwood, Greenwood and Hill Crest there would be an assessed valuation of \$1,428,000.00.

"Many students of Clackamas county are attending school in Marion, Washington, Yamhill and Multnomah counties simply because we have not provided adequate high school facilities for them in our own county and the tuition to these four counties mentioned was more than \$21,000.00 for the school year of 1920-21. Regarding this phase of the question, will say that we do not think it a sound educational policy, nor good business, to pay out to other counties this amount of money, when by a united effort on our part we can build and maintain schools second to none.

"While no definite figures are available, regarding the cost of a site and school building, we believe \$30,000.00 would cover the entire cost." Furthermore, Mr. Vedder states in his letter that it would not, in his opinion, be necessary to float a bonded debt, as the voters of the H. S. district could authorize the board of directors to contract a warrant indebtedness. These warrants could be then paid off in a few years by direct taxation, and no bonds need be issued thus saving many thousands of dollars in interest.

"The special tax levy in the Sandy Union High (district No. 2) for 1921 was 2.3 mills, while a special levy on all property outside of high school districts for tuition purposes was 2.3. The special levy in the H. S. district for the year 1922 is 2.3 mills, and the levy on outside property is 3.8.

"I am firmly convinced that the enlargement of Union High school District No. 2 is the best solution of the high school problem in your part of the country," wrote Mr. Vedder.

It has also been stated that the outlying districts will eventually have to come in, and that it is much better for them to come in now while they can have a "say" in the selection of a site and the construction of a new building.
