Site Selected For Union High School

SANDY, Feb. 7.—The Sandy Union high school board met today and during their deliberations accepted the offer made by Ed. F. Burns to donate a site for a high school building. This site contains three and a half or four acres and is located on the bluff road west of the Sandy creamery. The land is practically all cleared, and is a beautiful site and can be seen from the highway.

Sandy and the surrounding districts are jubilant over this valuable donation, and with the prospect of several other districts coming in soon, the situation looks indeed hopeful for the completion of a new building by next September. A good high school will be the biggest asset possible to this entire section.

Another valuable site of five acres was offered as a donation by W. A. Proctor, but with the necessity of clearing the land, it would be impossible to get a building ready by next fall.

County Superintendent Vedder was present at the meeting and gave the board valuable suggestions and outlined similar plans that are being carried out in other districts. Mr. Vedder is very enthusiastic over the possibilities of this union high school, and is working day and night to further the movement.

Local Farm Bureau Organized at Sandy

SANDY, Feb. 7.—There was a called meeting at the Odd Fellow's hall Saturday for the purpose of organizing a local Farm Bureau here. A lengthy discussion in which failures of organizations to make good for the farmer were aired, and some even hinted that the farm bureau was just another "bat thrown out to catch the farmer."

Mr. Annin of Kelso who was reared in Denmark said he was glad the farmer "was having it badly," for when he got far enough down in the mud he would make a struggle, to get out.

"When things in Denmark came to the pass the farmers in Denmark came to the together and elected their own men, made their own laws, and said 'the sooner we get together and do the same, the better.'"

A. C. Thomas advocated getting together as a farmer's political party, and said "fill the Legislature with farmers if you want anything."

A. L. Mattingly scored the "politics" which took Senator Kenyon out of his position where he could be of untold interest to the farmers, and placed him on the supreme bench where he "could not 'hurt' anything." Mattingly also energetically scored a certain Senator who has failed to work for the farmer discussed taxes gave figures to show that the rate at which the taxes have increased the past few years if continued, will result in the confiscation of the land. F. Lohrmann also showed up the Esch-Cummins law being largely responsible for the purchasing power of the farmer being depreciated to such an alarming extent.

After these live-wire talks about conditions in general, and some personal conditions as well, somebody said, "but what are you going to do about it?" Things calmed down, then Hart, the presiding officer made a plea for the Farm Bureau, and Mr. Thomas, who said he had been in the habit of "biting" every time anything came along said he would stay with the Bureau this year, and others decided to do the same, with the result that a local organization was formed with Ed. Hart, president and Walter Krebs secretary.

Farewell Surprise Given Krebs Family
 SANDY, Feb. 6.—Mr. and Mrs. Chas. Krebs were "amazed" when a big party suddenly appeared at their home for a farewell surprise before they moved to Deep Creek last Saturday. The Krebs family had not thought of any kind of demonstration and were very much pleased as well as surprised. The following neighbors were present beside Mr. and Mrs. Herman Miller and family, who sponsored the affair: Walter Krebs, Harold, Ruth and Myrtle, Mrs. Joe Haselwander, Tressa and Marie, Lou Gherke, Will Widmer, Mr. and Mrs. Will Bell, Mr. and Mrs. Fred Suckow, Richard and Milton, Miss Saide McKenzie, Victor Lundeen, Mario Boitano, Mr. and Mrs. Henry Weeber, Mr. and Mrs. Carow, F. Lohrmann, Mr. and Mrs. Joe Theodore Fischer, Mr. and Mrs. Joe Haley, Mr. and Mrs. Ed Plateau, Games were played, and a fine midnight supper was spread, and everyone had a fine time.

FEEL EARTHQUAKE
 SANDY, Feb. 7.—Mr. and Mrs. Harry Reed of Sandy felt the earthquake shock last week, despite the report that it was not felt in the vicinity of Portland. The Reeds did not retire till after one o'clock, and before they were asleep the shock was felt distinctly.

NEW HOME PLANNED
 SANDY, Feb. 7.—Robert Jonsrud has begun work on his basement, and R. C. Frace of Sandy has secured the contract for building a modern residence for the Jonsruds' near Sandy on the bluff road. The site is an ideal one, and the forty acres owned by Jonsrud is one of the most sightly spots around Sandy. Residents here will welcome this family as a splendid addition to the neighborhood.
