

# CANBY AND SOUTHERN CLACKAMAS

## PLANS COMPLETED FOR MEETING ON UNION HIGH

### Districts Included in Plan For Consolidation Will Go To Conference at Canby.

The program for the all-day meeting at Canby which is to be held on March 4, has been completely arranged. The primary purpose of the meeting is the discussion of the proposed union high school, which will have its headquarters there. The union districts will be discussed by Assistant State Superintendent W. M. Smith and Judge Grant E. Dimick.

Students of the Canby high school will give a special program and the reports of delegates to the Oregon State Teachers' Association will be received. A debate on school administration by the county unit plan will be conducted by J. W. Leonard, president and Lewis E. Reese, secretary of the Clackamas county division of Oregon State Teachers' Association.

Brenton Vedder, county superintendent will preside. Lunch will be served by the Ladies Aid societies of the various churches. The morning will be devoted to a discussion of the high school and the afternoon program will be in the hands of the teachers. The object of the meeting is to afford an opportunity to the 16 districts which would be included in the union high school if the movement were successful, to express their views.

Already five meetings have been held and the unanimous vote has been given for the proposed union high school. The last meeting was held at Marks Prairie and after speeches by Judge Dimick, M. J. Lee and Mr. Vedder it was found that the sentiment of the meeting favored the union high school idea.

The above numbered districts have a total assessed valuation of about \$2,611,122.40 and all of this property, with the exception of No. 86 (Canby), is now paying 3.3 mills for high school tuition. This amounts to \$8,851.81, and the levy to pay the tuition of the high schools for the school year of 1921-22, and also to take care of unpaid bills.

The districts to be included in the union high school district are No. 63, Canby; No. 73, New Era; No. 83, Browns; No. 81, Union Hill; No. 18, Mundorf; No. 119, Lone Elder; No. 20, Mackburg; No. 40, Noedy; No. 91, Ninety-One; No. 79, Meridian; No. 38, Marks Prairie; No. 97, Barlow; No. 60, Union Hill; No. 2, Elliott Prairie; part of No. 22, Oak Lawn, and part of No. 59, Whiskey Hill, that lies in Clackamas county, also that part of No. 303, Aurora, which lies in Clackamas county.

The total cost for the Canby high school for 1920-21 was \$7,793.55, and the district will receive \$4,337.05 from the tuition fund. The tuition bills for the eight standard high schools of Clackamas county and the bills from Marion, Yamhill, Washington and Multnomah counties amount to about \$87,000.00 and \$21,722.36 will go to the adjoining counties.

In forming a union high school in Canby there would be created a school board of five members, and only one director can be elected from any grammar school district. The law, governing this, prevents any district from getting control of the board—in fact all members of the board may be selected from the outlying districts.

## Dogs Poisoned And Horses Lose Shoes

CANBY, March 1.—"Paradise Corner" seems a good name for a settlement, but even at places of such names dastardly acts are performed, for at the home of Mrs. S. P. Pratt, of that place, she recently lost a handsome and faithful Shepherd dog by the name of Rover, and another little pet dog known as "Fanny" recently brought to Paradise Corner from Canada by Mrs. Mary Storey, mother of Mrs. Pratt which were poisoned with strychnine. A few days later, the party or parties, who probably not content with poisoning these pet animals, again visited the farm and removed from the two horses' front feet the horse-shoes that had recently been placed on the horses when she purchased the animals.

As the dogs were killed near the barn, a distance of about a half a mile from the Pratt home, and also where the shoes were removed from the horses, Mrs. Pratt, who recently purchased that tract of land containing the barn, has decided to have the barn buildings moved nearer her home, where she can keep watch in the future. Already the barn has been razed and moved to its new location. Mrs. Pratt, a widow, does her own farm work, including plowing and seeding, besides other heavy farm work, including clearing land.

## Independence Man Buys Small Tract

CANBY, March 1.—Martin Halverson has sold his nine-acre tract or land in the northern part of this city and located on the Pacific highway to J. E. Buck, of Independence, Oregon. Mr. Buck and family taking possession on Tuesday evening. The price was \$5500.

Mr. Halverson, who has property interests in Portland, and who resided in that city before taking up his home here, has returned to that city. He had recently completed a modern bungalow on the Canby property, and it is one of the most attractive little homes in this section. The land is cleared and much of which is under cultivation.

Mr. Buck has resided in Independence but a short time, his former home being in Weston, North Dakota, and the place he has been occupying was recently sold. He is now one of the big boosters for Oregon, believing there is no other country that has a better climate. He intends to farm on a small scale beside engaging in the poultry business, specializing on the Plymouth Rocks, having brought some of his best birds to this city.

## Fullers Take Over Hotel Management

CANBY, March 1.—Dr. and Mrs. John Fuller resumed management of the Cottage Hotel in this city on Wednesday morning of this week, after an absence of over a year, a portion of this time having been spent in Portland and in Oregon City as well as at Salem, where Dr. Fuller practiced his profession. ## PLAN FOR BRIDGE CHECKED OVER; DESIGN IS O. K.'D

### State Highway Commission to Make No Change in New Structure Here, Decision Following Second Survey.

## OBJECTIONS ARE HELD WITHOUT FOUNDATION

### Arch Declared to be One of Best in State; River Said Not Seriously Obstructed.

PORTLAND, March 1.—"The Oregon City bridge is all right and is going to be built as planned," said State Highway Commissioner John B. Yeon yesterday.

"We have every confidence in the engineers who designed and then passed on the plans. The work will be continued and we expect the bridge will be ready for use this coming summer."

Yeon explained that after a number of complaints came in regarding the crossing, the state highway commissioners, in order to make doubly sure, engaged Sam Murray, engineer of the O.—W. R. R. & N. Co. to check over the plans and view the site.

Few Changes Made  
"We had every confidence in our own bridge engineer, McCulloch, but we wished to make certain in every detail, so engaged Murray," declared Yeon. "Murray suggested a few minor changes and additions, all of which we have ordered, and the work will proceed now without any additional fussing."

It was explained that the bridge plans were carefully checked over by the war department before permission was granted to build. This, Yeon says, is proof that the structure will not obstruct traffic.

"The pier they are kicking about is not in the deep water at all," said Yeon. "It rests in shallow water near the shore. It is out of the channel and will not obstruct any kind of traffic whatever. Some wanted the pier over on the bank. If this was done, it would serve no especial good purpose, and would cost an additional \$65,000. We will not pay any more attention to this."

Design Said O. K.  
Yeon declares that the Oregon City bridge is the strongest structure of its type that the state highway department has ever designed. He says the arches are of steel and concrete; that they will be ten feet by four feet at the bottom, and six feet by three feet at the top.

There will be a concrete cover over the steel to protect it against any heavy drift that might hit it during extra high water.

It is also pointed out the arches are strengthened by concrete sway braces. These will divert any drift that hits the bridge, engineers say.

## TAX COLLECTIONS GAIN OVER FIGURES FOR 1921

### First Week Shows Increase of 65 Per Cent; Receipts Are Issued at 100 a Day.

An increase of more than 65 per cent in the taxes collected during the first week this year, is evidenced over the similar period for 1921, according to I. D. Taylor, head of the tax department.

Figures covering the seven day period from February 20, when the collections began, to February 28, show a total of \$35,172.56 collected and 560 receipts issued. During the similar period for 1921, 318 receipts were issued and \$21,025 collected. The tax department is at present issuing receipts at the rate of approximately 100 a day and some 125 letters are being received each day asking for statements.

Clackamas county has the third lowest delinquency tax list in the state, notwithstanding the practical doubling of the amount of taxes in the last five years, with no increase in the tax collecting forces. The same number of clerks are being employed now as in 1917, when the total tax amounted to approximately \$845,000 as against over a million and a half at present.
