## Sentiment Favors

### Sandy Union High

SANDY, Feb. 28.—Superintendent Brenton Vedder attended the meeting of the union high and grade school boards here last Saturday and at the request of Chairman Junker explained the benefits to be derived from surrounding districts coming into the union, and also answered many questions that have tangled the minds of those favoring and those not favoring the union.

The present seven districts have a valuation of almost one million dollars, and one thing was brought out that most people do not know, viz. that all property outside the union district is now paying high school taxes. He also said we are paying out enormous sums to other counties for tuition and "it is only common sense to take care of our own young people."

We have 1948 children in our own county high schools, and cited Molalla which has eighteen districts in the union and is getting off easier in taxes than if they had not come in. Leo McCabe and W. J. Berghouse of Greenwood district represented that district and McCabe made a strong plea to come into the union. V. Lundeen was the spokesman for Sandyridge school board and Lundeen thinks that district will vote almost unanimously to come in. Some urged going ahead and not waiting for any outside districts as it is believed the present union can finance a new building, but to be fair to those desiring to come in it was decided to wait till Tuesday, March 6, the regular meeting of the union board, which will receive petitions from those desiring to come in, and then immediate steps will be taken to vote whether we shall favor short time warrants, which means "a pay as you go policy," or bonds. All present were against bonding the districts and Superintendent Vedder favors the warrant plan.

The entire delegation went over to inspect the Burns site, and all were pleased, the superintendent expressing the opinion that it is "an ideal site." Chairman Junker made a strong plea, as did F. L. Proctor, for immediate action. It is hoped that everybody in the union and those desiring to come in will rush the program through so as to get the building started as soon as possible.

## Sermon Is Enjoyed By Large Audience

SANDY, Feb. 28.—A large audience enjoyed the sermon of Rev. Albyn Esson of Dallas Sunday night who said it was a "picnic of the right kind to come to Sandy." Rev. Esson is an easy, yet forceful speaker who carried his hearers along with him. The basis of his talk was the text, "Keep thy heart with all difference for out of it are the issues of life."

This minister made it clear that the

"moral and spiritual forces are greater than the material and carnal things of life," and gave many illustrations to show that civilization especially needs at this time a balance wheel, and that every individual needs God. "We live quickly, we soon pass on, and it is a wrong impression that religion is not a practical phase of living, for down at the bottom of things the teachings of God are the fundamentals in the heart of man and religion is not apart from practical, vital things of life." Rev. Esson was invited to visit Sandy again.

## Robber Captured By Amateur "Cop"

SANDY, March 1.—One big rifle, one revolver, one flashlight, one pair of field glasses, one dagger and twenty-five pounds of ammunition were the "haul" made by a nineteen year old burglar at the M. Dickenson home two or three weeks ago. Said thief was caught through the detective work of "Happy" Hauglum and is now awaiting trial when the grand jury meets.

"It takes a brave young husky fellow to show some of the present officials how to handle a petty larceny case," said a party who described the "thrills" Happy got out of the job. Dickenson was not anxious to take the trouble of hunting the mauler but Hauglum persisted, and got Dickenson to Portland with him where they kept an eye open along the pawn-shop territory, and in due time Mr. Burslaa showed up and when Happy and Dickenson faced him near the Alder street station he wilted on the spot. Happy phoned for a policeman who took the party to the police station where the party man was held while Happy went to Oregon City for a warrant. The officials there were not anxious to hear the story of the capture, but after trying energetically to get some one interested and failing, he went to district attorney's office and an officer was sent to Portland at once and brought the prisoner to Oregon City.

brick factory near Sandy or in the Cottrell vicinity if the vote carries to build a new high school. He is an old hand at the brick business and knows it from "a" to "zard." He says he could save the district seven or eight dollars on the thousand by making them here. This end of the country would have a plant here that would be extremely beneficial, as it is expensive and hard to always send to the city for every brick-bat needed out here. Much depends on the clay but he has his eyes on two places that would make good brick.
