STUDENTS

Do you understand the true meaning of the word "Credit"? Do you especially understand its uses in connection with "Savings"? Credit can go much further than enabling you to open a charge account in some store. Real credit means your standing in your community.

Can you go to your banker and get from him the credit you want for some undertaking? The chances are you can if you can give him positive proof that you have been able to save money regularly. This is absolute proof to him of your real worth and staunch character. This ability to save is part of the security you must always have in your possession in order to enjoy credit. No truer words than those of James J. Hill "Are you able to save? If not, drop out. You will lose. You may think not, but you will lose as sure as you live. The seed of success is not in you."

Be come inspired with these principles, and you are treading the path leading to success. We want to meet you at this bank.

Mrs. Burmeister was out during the week and brought her son Irvin who will remain with his father at the Bruns mill. Mrs. Burmeister has taken an agency for selling violet ray apparatus for Oregon and Washington and is at present taking a course in salesmanship.

SANDY, April 18.—W. P. Roberts and a number of farmers in the Dover district have turned their milk cows dry because of a scarcity of feed. The weather has kept too cool for grass to grow, and to ship in feed over the roads up that way would be prohibitive.

Smelt parties were the order of the day the past week. The road was filled with cars headed for the Sandy river, and every fisherman remembered his neighbors, with a feed. One man reported 4 tons taken out by Knarr of Troutdale who ground the smelt up for feed at the Bonneville hatchery. But that many made no impression on the numbers left.
