To the Voters of Clackamas County MY PLATFORM IS ECONOMY AND HONESTY.

- 1st—The burden of Taxation is left by me, equal to the average Taxpayer and Farmer of Clackamas county, being a dirt Farmer myself. 2nd—I always opposed waste and extravagance in public and private business. (We as Farmers must.)

In asking the support of the voters and taxpayers in the coming primary election, I invite their attention to my record for an Economic Administration of County Affairs. A conscientious administration of the County business along progressive and economical lines, the constructive program maintained and carried on in a careful, businesslike manner, notwithstanding the obstacles caused by war prices of material and labor.

I have always kept the interest of the Taxpayer uppermost in my mind and I have always supported a policy for the development of all parts of Clackamas County.

I have been a progressive member of your Board of Commissioners and have given much time and thought to the Selection and Development of the Market Roads of the County in the effort to benefit the Farmer and aid him to get to the market centers of the County, that some of the burdens of the Taxpayers may be lessened by being able to reach their markets points.

I wish to thank the citizens of Clackamas County for their cooperation and support in the past, and to assure them that if elected I shall, to my utmost endeavor to maintain the standard of open and fair dealing which I have followed in the past. I shall squarely face the problems of the County with an honest endeavor to deal justly and fairly with all. I am not pledged to, nor controlled by, any clique or ring and am FREE and shall keep myself FREE for unhampered work, regardless of jealousy, hatred or malice on the part of petty politicians and disgruntled individuals.

I invite a careful investigation of my work and of my ability to perform the duties of the office I seek. I shall render value received for every dollar spent through my order. Any official is subject to political abuse, but be fair and know for yourself. It is not advisable to change saddles in the middle of the stream. I am willing to stand on my past record. Judge fairly and I am willing to abide by the result. W. F. HARRIS. (Paid Adv. by W. F. Harris).

CLACKAMAS COUNTY'S 'MATCH' FUND LARGEST IN STATE OF OREGON

Money Appropriated Here to Aid in Forest Highway Work Is Record; Ratios For Total Amount Is Big.

Clackamas county is the greatest single contributor of any county in the state in the matter of funds expended or obligated for highway contracts under the United States forest projects, according to official figures. The amount credited to this district is \$747,675.48 and the nearest approach to this, is provided by a total of \$648,674.76 for Union county. Third highest contribution is \$520,093.81 for Umatilla county and the lowest amount in the state is shown to be \$11,906.68 for Benton county.

Official tabulations show that the funds exacted by the state for these projects are on a cooperative basis and that the proportions donated by the county, state, railroad and government are consolidated into one fund, which represents expenditures actually made or obligated for in the future.

County Percentage Given Thus the authorized figures indicate that in the case of Clackamas county the total funds are \$1,923,466.87, of which sum the state contributes \$822,349.55 the government \$353,441.84, and the county the remaining \$747,675.48. This, expressed in terms of percentage would show that the county's portion of the total was approximately 38 per cent.

The relation of other counties' contributions to the general fund designated in the same manner show that the highest per centage is 44.5 for Walla Walla county followed by Jefferson county with 44.4 and Umatilla county 38.1. This method of reckoning places Clackamas county fourth and Columbia county lowest in the state with a percentage of .36 while the per centage for the whole state or the bearing which all county contributions have to the total fund is found to be 16.25.

Mileage Is Shown From the same tabulations the mileage of work in Clackamas county which is either contracted for or completed or already under contract, grading 57.58, surfacing 26.37, and paving 17.16.

Of the counties where the percentage contribution exceeded Clackamas county the table shows the mileage distributed in this manner: Walla walla county, grading 40.19, surfacing 39.51, paving nil; Umatilla county, grading 78.12, surfacing 37.06, paving 37.74. Union county where the county amount contrasted with the other county donations is second largest is listed as having the following mileage either completed or already under contract, grading 75.13, surfacing 52.12, paving 7.31.

Final figures covering the total amount which has either been already expended or about to be disbursed in the near future show that for the entire state of Oregon a sum of \$50,058,963.13 has been set apart, under the conditions explained, for the development of highways as provided for in the United States forest projects.
