**CROP CONDITIONS GOOD IN WILLAMETTE VALLEY**

Crop conditions down through the Willamette valley are favorable, according to reports received by J. H. Mulchay, general freight agent of the Southern Pacific company, from station agents along the line. The apple crop will be somewhat smaller than last year, with the apples much thinner than they were a year ago. There has been considerable moisture together with late, but not too cold, spring weather, and the apples may make up in size what they lack in numbers.

Conditions are favorable for pears, the Frost period having passed without any damage. However, some districts report a heavy drop, especially in the Anjou variety, and the yield will not be so large as early reports indicated. Present prospects are for 10 or 15 per cent increase over last year's crop.

Grain and hay are doing well. Considerable hay has been cut during the past two weeks, and the crop is excellent.

**PAGEANT SUGGESTED**

(Continued from page one.)  
gon City within a few days to talk over the matter with some of the people here who have become interested in the staging of an annual pageant, and it is expected within a few weeks that a definite plan for handling it will be developed.

**FRENCH PREMIER HOLDS PARLEY WITH GEORGE**

LONDON, June 20.—Raymond Poincare, the French premier, had a three hours' conference with David Lloyd George, British prime minister, yesterday. The statesmen discussed German reparations, the Hague conference, the Tangier situation and Greco-Turkish relations.

With regard to reparations, it was decided that the reparations commission should investigate the real conditions of German finances and endeavor to determine whether, with the assistance of a foreign loan, Germany could balance her budget, or otherwise re-establish her currency.

With regard to The Hague conference there was no agreement on the basis that any decisions of the conference should be an referendum, and that the experts could make their recommendations and the respective governments then would be free to take whatever action that they please.

**THIRTY YEARS AGO**

Taken from the Oregon City Enterprise June 17, 1892.

J. J. Cooke, of the firm of Wilson & Cooke, was in Corvallis this week and made arrangements for handling the product of the Corvallis Wagon & Carriage Factory.

A son was born to Mr. and Mrs. D. C. Latourette on Thursday of last week.

The Junior Society of the Baptist church will give an excursion up the river twelve miles to Manzanilla Grove and return on Saturday.

Archbishop Gross will speak at Pope's hall June 27 on "The Origin of Human Society" as viewed by history and reason. There will also be a program of recitation and vocal and instrumental music. The entertainment will be under the direction of the Catholic Knights of America. Archbishop Gross is an eloquent speaker.

Senior Warden L. L. Porter and Professor Strange as proxy for Junior Warden Sidney Smith are in attendance on the Masonic grand lodge in Portland.

Martha Woodward, of Clackamas county, and Davis D. Hull, of Multnomah county, were married by Justice W. Fouts at his office Wednesday.

District Clerk Ryan is getting signatures to a petition to have Abernethy island put into the Oregon City school district. It is claimed that it is not now in any district, and the Electric Company consequently escapes paying any school tax. Casemah also wants Abernethy Island, but the company prefers to come into the Oregon City district. It will remain with superintendent of the county schools to decide.

W. A. Huntley and C. G. Huntley, his brother left on Wednesday for another spin on their bicycles, their first visit being at Salem. They continued their journey up the valley on Thursday. They expect to return Saturday.

**CROPS ARE DESTROYED BY BIG TEXAS FLOODS**

DONNA, Texas, June 20.—The great Rio Grande flood broke the levee here this morning. There is now nearly five miles of whirling water between this town and the Mexican side of the river. The crest of the flood now reported at Laredo is expected to reach here tonight. All crops in the river lowlands have been destroyed.

**COMING BIRTH OF NAMELESS BABE IS SUICIDE CAUSE**

**Milwaukie Man Mentioned In Note of Marie Zollner, 18, Who Attempts Own Life By Poison in Portland.**

**PHYSICANS BELIEVE CONDITION SERIOUS**

**Character of Unfortunate Was Believed of Best, Declares Woman's Former Employer**

Marie Zollner, comely lass of 18 years, was taken to St. Vincent's hospital, the result of poison taken Monday night in a Portland rooming house with suicidal intent.

The motive was disclosed in a note left for a Milwaukie, Or., young man. Its contents were:

"I am taking this way out of my trouble rather than bring our baby into the world nameless. I do hope that you'll be satisfied in having driven me to suicide. If it were only me I could stand the disgrace, but my innocent baby would not have a chance in the world.

"So goodbye, and forgive me if this causes you any trouble.

"Your broken hearted  
"MARIE."

**Analysis Is Difficult**

Characterization of the situation with respect to other important manufactured lines, is less simple. The textile strike continues and this of course lessens the output of cotton goods, although near-full capacity is maintained consistently by the plants in the Southern cotton mill districts. The manufacture of woolen goods has suffered a slight seasonal recession, while continued depression and inactivity seem to possess the silk industry. Reports from boot and shoe manufacturers in different parts of the country vary, activity in the St. Louis district being well maintained, while in Boston, Philadelphia and Chicago a slight recession is apparent—this, too, being explained on "seasonal" grounds.

The monthly compilation for May by the Federal Reserve Board of wholesale prices is encouraging, an advance of two points over that of April being shown. Explanation of the advance is found in the rise of prices of agricultural products and of raw materials which are necessary to certain basic industries. The building boom has favorably influenced some lines, notably hardware.

The improvement in manufacturing conditions, resulting as it does in larger disbursement of wages in many lines of industry, and more especially the improvement in agricultural conditions are reflected in the advance of commodity prices which are gradually approaching normalcy. A more favorable note is sounded too in the retail trade reports, which is grateful to ears tired of listening to the sad minor strain of recent months.

**Rate Cut Feature**

The announcement by the Interstate Commerce Commission of a general horizontal freight rate cut was the striking economic event of last week. This is not a flat cut of 12-20 per cent, as reported by some papers, but this number of points is deducted from the rate increases of around September 1, 1920, which is quite a different matter. During the war the several increases raised freight rates to about 176 per cent of the pre-war level, and this present cut will reduce them on an average by something like 7 or 8 per cent. Passenger rates are not disturbed and not affected. The 16-12 per cent reduction on hay and grain last fall and the voluntary cut on all agricultural products January 1 are evidently considered sufficient. The Commission figured that the roads can earn 5-3-4 per cent on their capital after this cut, assuming substantial gains in traffic from and after this date. Further reductions in wages are expected and are said to be quite necessary to many of the roads having relatively high operating ratios. The effects of this cut on traffic and commodity movements generally cannot be accurately estimated, but results will be observed with keen interest.

**MANCHURIAN ARMY SAID SURROUNDED IN SOUTH**

LONDON, June 16.—Heavy fighting is still in progress along the southern frontier of Manchuria, between the armies of General Wu Pei Fu and General Chang so-Lin, according to advices from Tien Tsin to Peking today. Another unconfirmed report is that General Chang's Manchurian army has been surrounded by General Wu's army.

**NOT GUILTY PLEA MADE BY EX-SAILOR'S SLAYER**

WHITE PLAINS, N. Y., June 16.—Walter S. Ward, son of the millionaire head of the Ward Baking company, who confessed killing Clarence Peters, an ex-sailor, because he asserted Peters and two others were blackmailing him, this afternoon pleaded not guilty to the indictment for murder returned against him by the Westchester county grand jury yesterday.

**PROPHECIES Covering Past Few Months Conditions JUSTIFIED BY Stronger Trend In General Trade and NEW ACTIVITY**

By Robert E. Smith

President Lumbermen Trust Company Bank, Portland, Ore.  
The month of May and its economic developments, taken by and large, give justification to optimistic prognosticators of the last few months. It cannot be denied that the trend of conditions is upward, for the better; slow it is, to be sure, but the improvement is also steady.

On the whole, the important feature of the development of the month was the maintenance by the principal agricultural products of a steady improvement in indicated yield. Unless all signs fall, crops of all kinds will be abundant. Another noteworthy development was the improvement in the prices of cotton, grain and other agricultural products. A combination of these two features, abundant crops and good prices for them, will inevitably result in the autumn of 1922 in a widespread and mighty improvement in general conditions.

**Labor Demand Greater**  
An explanation of the betterment in the unemployment situation is found, in part at least, in the increased seasonal demand for outdoor labor. At this time of year when farm work of all kinds is in full swing it is easy to find an explanation for the material diminution in the numbers of the unemployed. The unsurpassed activity in building, too, is responsible for some part of the decrease in unemployment, and with the improvement in economic conditions generally, many other occupations are taking on additional employees.

The demand for factory labor, however, has not kept pace with that for other kinds, even eliminating the voluntary unemployment caused by strikes.

To make an adequate estimate of the manufacturing situation one must bear in mind the distinction between the basic commodities and those of a more highly finished sort. In previous letters, mention has been made of iron and steel, and the marked improvement in their case continues without abatement. Iron and steel manufacturers are again experiencing the exhilarating feeling which accompanies the piling up of unfilled orders. These have increased steadily during May and in that month also ingot production was the greatest of the year to date.

Copper, too, is holding its own in company with the other non-ferrous metals.

**Do You Remember?**

Stories of the Old Pioneers and Yarns from Old Newspapers.

Do you remember S. W. Moss and how he used to drive the cows back and forth from town to the pasture north of town?

Do you remember reading "Prairie Flower" the novel, of which he was the author?

Do you remember any of his children—some of whom are unusually talented?

Do you remember anything about Philip Foster, the former pioneer at Eagle Creek? His was the first pioneer home to be found when crossing the Cascades by way of Barlow route? There is still a son living on the old home in the person of E. N. Foster, and whom it is a pleasure to meet.

Do you remember Francis Revenue the former pioneer and founder of Sandy? He settled at Sandy somewhat later than Foster at Eagle Creek and yet it has been the pleasure of many of the old timers to share his hospitality.

**Do You Remember?**

Do you remember "Bob" Williams whose step-father, Singer, built the Singer Mill, where the City Hall is to be? He is now of The Dalles and was a visitor at Sheriff Wilson's Wednesday last, H.

**Do You Remember?**

Do you remember who built the three small houses on Main Street, commencing at 13th and Main? These houses were built by W. C. Johnson, but the carpenters were L. D. Cross, and C. E. Cross and H. E. Cross, our present county judge.

Judge Cross tells me that quite a bit of the cedar lumber came from Sandy and in the rough and his job was to rip it up in width to suit—and that a good part of the finishing work was done at Sandy.

Don't see much of that today? This was along about 1872. E. H.

**NEW RECORD AIR TIME IS SET BY MAIL PLANE**

SAN FRANCISCO, Cal., June 17.—A record for the airplane time between Salt Lake City and San Francisco was made by the United States air mail service today when three fliers working in relays negotiated the distance in six hours, twelve minutes. The record announcement was made by the air mail service after all past records had been consulted.

**WOMAN'S CANDIDACY IS BIG FACTOR IN ELECTION**

ST. PAUL, Minn., June 19.—Minnesota voters went to the polls today to nominate party candidates for the United States senate, congress and state officers.

More than the usual interest attaches to the senatorial contest, for a woman, Mrs. Anna Dickie Olesen of Cloquet, is contesting with two men for the Democratic nomination, and Senator Frank B. Kellogg, an avowed and loyal supporter of the national administration, has two opponents in his race for renomination.

**INDUSTRIES WILL SUFFER BY DEFICIENCY OF COAL**

CHICAGO, Ill., June 17.—Industry will begin to feel the pinch of a coal shortage early in July, according to the best authorities here. One large railroad with headquarters in Chicago has already had its reserve reduced to twenty-three days' supply.

To meet this emergency, according to reports prevalent in Chicago, a determined effort will be made in the near future to reopen enough mines in the Pennsylvania district to increase the present output of non-union coal about 20 per cent.

**BALL TEAM FORMED BY PLAYERS AT MOLALLA**

MOLALLA, June 14.—Molalla has organized a baseball team. Leo Shaver and Lawrence Masterson were put in charge. Earnest Palfrey, who played first base on the O. A. C. team, will be in uniform. Harold Ridings and Alfred Shaver, members of the O. A. C. crew team; Verne Faurel and Duane Robbins, who played at O. A. C.; Champ Vaughan, catcher on the high school, and Alvin Glutsch will play. Molalla will play the Multnomah aggregation Sunday.

**25 NEW MEMBERS ARE INITIATED BY GRANGERS**

On the evening of June 15, at a special meeting held for the purpose, Warner Grange No. 117, of New Era, initiated 25 new members. This is one of the largest classes taken into the Grange in recent years. The first and second degrees were given to the following candidates: Mr. and Mrs. Hilson Woodard, Mr. and Mrs. Nels Melum, Mr. and Mrs. Charles Chinn, Wesley Knowles, Harriet Reynolds, George Brown, Karl Bigel, Alice Chinn, Mrs. Nettie Williams, Stephen A. Mead, Ed. Mead, Herman Anthony, Delta Critzer, Viola Dundas, Otto Dietz, Fred Hurius, Rheinart Kell, Fred Dietz, Ruth Chinn, George C. Critzer, Julia Lodi and Hugo Frank.

After the initiation ice cream, cake and candy were served to the large assemblage of members and candidates, which numbered seventy in all.

**The Woman's Column.**

By Florence Riddick-Boys.

**SYSTEM IN THE HOME**

In the "good old days", work was done more or less hit-and-miss. Nobody had to hurry, and shiftless folk could get on fairly well with only half way methods. But this is the day of efficiency—no only a thing to be used in the factory, but an important asset of the home. The fact that we women had not applied it here is what gave rise to the saying: "Man's work is from sun to sun, but woman's work is never done."

The adage is no longer true in the best regulated families. The capable mother of a family does not get flustered in the midst of chaos. She knows the satisfactory feeling of a plan, hours, and a poise, even in this strenuous age. She has time for the things she wants to do, the committee meeting and the club—because she plans her work and works her plan.

Domestic help is almost out of the question, and the family realizes it will have to wait on itself and depend on its own resources. This makes for a kindly spirit of comradery and mutual appreciation—not a bad result if it is— and calls for a well studied out system.

**Breakfast Is Simple**

The modern breakfast is a simple affair; fruit cereal, toast, egg, coffee—or less. After it has been eaten it does not hurt any member of the family to pick up all the dishes around his place and carry them to the kitchen—the self-serve system, you know. This gives the housewife quite a lift. But if they do not do this, she wheels in the teacup and clears the table with one trip. She puts the dishes to soak and leaves the kitchen in reasonable shape while she gives her orders for the day's supplies. Then she "picks up" the whole house. There may be some family who hang up all their belongings and put their beds to air thoroughly. I would not say that it couldn't be done, but it generally falls to the housewife to go about from room to room gathering up the loose ends.

After this she returns to the kitchen, washes the dishes in hot, soapy water, rinses and wipes the glasses and silver, and leaves the rest to drain while she goes back over the house making beds, brushing up, and dusting.

**Duty in Kitchen Shown**

While getting dinner she must be in the kitchen to watch things cook. That is the most economical time to attend to the drained china, and it is economy of time if, during this period, she can get everything ready for the next meal, or bake a cake with the cooking, or do some of the stunts which put her ahead of the game. Formerly, before we had learned to double up on this time, we wasted many a precious half-hour, watching the food with one eye while the other was peevishly kept on the street whence we expected Hubby.

Numerous housewives have proven, beyond peradventure of a doubt, that it saves time and effort to wash two or three meal's dishes together. We have an inherent horror of leaving dirty dishes, but it can be done. Of two evils—the doing of them after each meal or the leaving of them until morning when you are feeling fresh and have on work clothes—the latter is probably the lesser, and she who has a good forgetfuly will come to find it quite painless, as she thus gains an extra hour of freedom daily.

Since we are not spending money on help in the home as we did in the olden time, it is entirely legitimate that we save time and energy by paring the cooked food shops and sales which are springing up everywhere.

A simpler, wiser, and more happy diet, dress, and house-furnishing, a practical plan; ready-made at our service—all this is making life today the sweetest, broadest, and most useful ever.

Check up on yourself. How perfect is your system?

**The U. S. Child Labor Situation**

The Child Labor Law—such as it was—was annulled by the United States Supreme court recently. It was a poor law, but it was all we had. It seems that Congress has no constitutional right to regulate ages, and hours of labor of children, and, in the attempt to effect this, laid a tax of ten per cent upon the annual net profits of institutions employing children.

Leaders in the work to protect children in industry are much concerned for their cause now. One result of this action will be to quicken the states to pass sufficient child labor laws and the tendency will be to standardize these laws among the states.

Miss Abbott, Chief of the Children's Bureau, feels that it will be necessary that an amendment be made to the constitution to enable Congress to pass a Federal law to protect children. It has been proven that employers of children, who easily evade state laws, complied with Federal laws, since these are much harder to evade.

Some states have no child labor prohibitions and in such children may and do work, in instances, six days a week; some work all night.

It is estimated that more than a million children under fourteen years of age are now employed in the United States.

**I WONDER**

Twinkle, twinkle, Movie Star,  
Are you what they say you are?  
Our young daughters every night  
See you screened in dazzling light.  
You become their real ideal,  
As before them you un-reel.  
Twinkle, twinkle, Movie Star—  
How I wonder what you are!

**LEGAL NOTICES**

**NOTICE OF SALE**  
In the Circuit Court of the State of Oregon, for Multnomah County.  
In Probate  
In the Matter of the Estate of Charlotte Hartung, Deceased.

**EXECUTOR'S NOTICE**

Notice is hereby given that the undersigned, Executor of the last will and testament of John L. Erl, deceased, has filed his final account herein with the County Clerk of Clackamas County, Oregon, and the County Judge, has set Monday, June 26th, 1922, at the hour of 10:00 o'clock a. m., at the County Court Room in Oregon City, Clackamas County, Oregon, as the time and place for hearing objections to said final account and for the final settlement of said estate.

answer or appear herein, for want thereof, the plaintiff will take a decree against you for the relief demanded in her complaint, to-wit: A decree dissolving the marriage contract now existing between you and plaintiff and awarding to her the future custody of Harold L. Gillett, your minor child.

This summons is published in the Oregon City Enterprise, a newspaper of general circulation, printed and published at Oregon City, in Clackamas County, Oregon, for six consecutive weeks and the first publication thereof, shall be Friday, June 2nd, 1922, and the date of the last publication thereof, shall be Friday, July 14th, 1922. This summons is published in accordance with the order of the Honorable James U. Campbell, Judge of the above entitled Court, which order was entered and docketed in the above entitled cause on the 25th day of May, 1922.

WM. G. MARTIN, CAREY F. MARTIN, Attorneys for Plaintiff.  
Postoffice Address: 413 Masonic Temple Bldg., Salem, Ore.

SUMMONS No. —  
In the Circuit Court of the State of Oregon for Clackamas County, Department No. — Julia Ainsworth, Plaintiff, vs. Edward F. Ainsworth, Defendant.

To Edward F. Ainsworth, the defendant above named: In the Name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled cause and court within six weeks from the date of the first publication of this summons, as hereinafter stated and if you fail to so appear or answer herein for want thereof, the plaintiff will take a decree against you for the relief demanded in her complaint, to-wit: A decree dissolving the marriage contract now existing between you and plaintiff, and restoring her to her former name of Julia Fournier.

This summons is published in the Oregon City Enterprise, a newspaper of general circulation, printed and published at Oregon City, in Clackamas County, Oregon, and the date of the first publication of this Summons, shall be Friday, May 26, 1922, and the date of the last publication thereof, being Friday, July 7, 1922. This publication is made in accordance with the order of the Honorable James U. Campbell, Judge of the above entitled court, which order was entered and docketed in the above entitled cause on May 22nd, 1922.

WM. G. MARTIN, CAREY F. MARTIN, Attorneys for Plaintiff.  
Postoffice Address: 413 Masonic Temple Building, Salem, Oregon.

NOTICE OF FINAL ACCOUNT  
Notice is hereby given that the undersigned, as Administratrix of the estate of Fred Fisher, deceased has filed her final account in the office of the County Clerk of Clackamas County, Oregon, and that Monday, the 26th day of June, 1922, at the hour of 10 o'clock a. m. in the forenoon of said day, in the County Court Room of said Court has been appointed by said Court as the time and place for the hearing of objections thereto and the settlement thereof.

Dated and first published May 22th, 1922.  
Last publication June 23rd, 1922.  
MATHILDA NIEDERHAUSER, Administratrix of the estate of Fred Fisher, deceased.  
FRED L. OLSON, Attorney for Administratrix.
