ONE KILLED; MANY HURT IN SOUTH DAKOTA BLAZE

SIOUX CITY, Ia., July 10—Men were busy today clearing wreckage to reach the town of St. Charles, S. D., which was reduced by a tornado which caused property damage estimated at more than \$775,000 and resulted in the death of one man and the injury of many others, said a special dispatch received by the Sioux City Journal from Bonesteel, S. D., ten miles from the storm's path.

Practically every building in St. Charles, a town of about 150 people, was damaged by the twister, which later swept through the business and residential sections, says the dispatch, it adds:

"Howard Hughes, a resident of St. Charles, met death instantly when he was caught beneath the falling walls of the pool hall as he was attempting to escape into the street through a front door. His mother is among the reported seriously hurt. A stranger in the town, whose name could not be ascertained, sustained serious injuries. He was in the pool hall when the storm struck. A score of others received minor cuts and bruises.

YOUTH DROWNS; MAN MISSING AT ST. HELENS

ST. HELENS, Ore., July 10—Two victims apparently have been claimed by the Columbia river near this point within the last two days, William C. Clovis, 17 year old son of Joseph Clovis, was drowned near Sauvie island about 6 o'clock Sunday evening when a canoe in which he and James Harrison were riding turned over in the rough water. A boat load of John D. Kelly, veteran fisherman of this place, was found drifting in midriver this morning without its owner, indicating the second drowning.

Twenty Soft Drink Parlors Closed By Kansas City Police

KANSAS CITY, Mo., July 10—"Them days is gone forever." Witness the closing of 20 "soft drink" parlors here at 6 o'clock every night until the settlement of the railroad shoppens strike as in the troublesome days of old. "Don't make any difference if they do or don't get the stuff that makes the strikers feel like celebrating their cause or taking a nip may be to forget," asserted Lieutenant C. E. Christie of the 19th street police station. "The strikers gather at these places every night and they might cause a fuss. My orders are to close 'em."

HOW TO BE PRETTY

If you want to be pretty—and who doesn't?—map out for yourself the proper program of life, and there you are.

Have I proven it? Of course not, but what matter—you take the recommendation of a bald-headed barber for a guaranteed hair-cream, as you might just as reasonably take this from me.

Live regularly and temperately, sleeping every night either in the open or with windows raised wide. Eat generously of vegetables and fruits, sparingly of starches and sugars and meats, and drink a great deal of water.

Exercise daily in the open air. If you can play a game so much the better, for that will pump life into you, and give you a sparkle in your eye and elasticity in your step.

Bathe often enough to keep your skin clean and well ventilated. The mental is fifty-fifty with the physical in making you pretty. Do not worry nor strain, but be happily active, your mind filled with beautiful images, sweet dreams, ennobling thoughts, and kindly purposes, and cultivate a real interest in people and things. No sluggish intellect can project a beautiful fact. A tense or harassed face is not pretty, and neither is a stupid one.

To be sure, all this will not give you symmetrical eye-brows, an Apollo nose a three-cornered, kiss-inviting mouth, nor the regular features of a movie star. But a keen intellect and a gracious soul give a beauty of expression which, if combined with a shapely form and a clear complexion, go a long way toward beauty.

There is one more point, however, you must be, to a certain extent, in style, or you will look garish and crude, rather than attractive. Even more, you must be artistic in get-up, understanding the principles of line and color and harmony.

Yes, it is some job to be pretty. That is the reason so few of us succeed in holding ourselves up to it. Don't you wish we had available personal beauty experts whom we could consult about our appearance, just as we have architects for buildings and landscape gardeners for grounds?

CANADIAN CLUB WOMEN

Club women of Canada have organized into a Federation of Women's Institutes, of which Miss Isabel Noble of Dayland, Alberta, is President. There are 100,000 club women in the organization and it is the desire of Miss Noble that the Canadian and American club women affiliate.

"For Home and Country," is the slogan of the Canadian Federation of Women's Institutes. Its object, as stated by Miss Noble, is: to better women's condition on the farm, to bring town and country women closer in touch with one another, and to do everything to make women's place a larger one and her life broader, to the end that she may be of greater use to herself and service to her community.

The Federation has seven departments of work: child welfare and public health; education and better schools; legislation; immigration; household economics; agriculture; and publicity.

GREEN EATS

It is probably not an accident that warm weather is the time when fruits and vegetables are most plentiful and at their best. Now, if ever, we need them most. This is what our bodies get from fresh fruits and vegetables:

TONIC ACIDS which tone the vital organs and act as regulars for blood and help to purify the blood.

MINERALS—Calcium, which keeps the veins and arteries supple, and the bones from becoming too brittle; phosphorus, which is a nerve and brain food and without which some authorities claim no other food will do us any good; iron, which upbuilds the blood and without which we would become anemic.

VITAMINS—which nobody knows much about, but which make us more vigorous and lively.

ROUGHAGE—the cellulose and woody fibre which is needed for bulk to encourage the peristaltic action of the digestive tract. Without this, digestive action and elimination are both sluggish.

Much actual nourishment, starch, sugar, and proteins are found in bananas, beans, peas, and in other fruits and vegetables.

Fruits and vegetables are largely water and we need that, too. When they can be eaten raw, they are better so. Cooking often destroys the vitamins. Much of the mineral matter is dissolved and wasted in the water in which they are cooked. For this reason use as little water as you can and make use of it as a food if possible.

Fortunately a great many of us may pick all this treasure from "our own vine and fig-tree," or we may buy it of the truck-man or fruit vendor at the door.

SMILES

Unhappy Thought "O wad some power that fiftie gie us To see ourselves as others see us." Tear the portrait hown would shock us, And misery would meanly mock us.

Happy Thought But no amount of talk or labor Would make us think 'twas really US We'd wear the picture was our neighbor And smile to see him treated thus.

MRS. SOLOMON SAYS

The modern child is an appetiteless individual. He wants to go without breakfast or eat some dainty which will not give him the proper stamina to attack the day's work. Mother, tell him this: Have horse-sense, eat oatmeal.
