SETTLEMENT OF STRIKE

HINGES UPON SENIORITY

WASHINGTON, Aug. 22.—Railroad executives must accept defeat on the seniority issue if the walkout of shop workers is to be settled, one of the leading labor figures in the strike told the United Press today.

Unless the managements are prepared to concede the shop men's demands for restoration of seniority rights, the peace conference of brotherhood leaders and railroad executives in New York tomorrow will be futile, he said.

This determined stand of the present strikers, determination of the Eastern railway executives for a fight to the finish and the call issued by the American Federation of Labor for financial and moral support of the shop men by all organized labor have caused administration leaders to lose the hope they had for an early settlement of the dispute.

All plans for settlement of the strike at the New York conference between the executives and chiefs of the Big Four brotherhoods were advanced by the former, the strike leader declared.

The leaders of the shop men and brotherhood chiefs remained steadfast on the demand for unimpaired seniority rights throughout all the seniority sessions and are prepared to fight it out along that line indefinitely.
