SETTLEMENT
Of Fight in Coal
Fields Looms; End
OF STRIKE AIDS

Establishment of New
Equilibrium For All
INDUSTRIES
By Robert E. Smith

The settlement of the coal strike in the central competitive region which was followed by the resumption of work at the mines which produce upwards of sixty million tons a year is the most important business development of the past week. It is generally agreed that this is a fore-runner to a settlement of the strike in other regions and it is believed that within a few weeks production of this very important commodity will again be on a normal basis.

Increased industrial activity will follow the coal strike settlement, especially in the iron and steel industry for many furnaces have been banked due to lack of fuel despite orders which would have kept them running at full capacity had fuel been available.

It is very clear that President Harding does not intend to tolerate the continuance of the railroad shopmen's strike with its attendant heavy losses to shippers because of failure to get commodities moved. On account of its perishable nature, fruit, which is now ready for market, is the most flagrant sufferer.

In the meantime, according to the most recent despatches at hand before this was written, he intends to give the railroad executives and the strikers another opportunity to settle their differences between themselves. If they fail to do so, there will be a special message to Congress in which the President will ask for legislation sufficiently drastic to enable him to control the situation in the public interest.

Rain Is Welcome
The value to the Pacific Northwest of the rain which fell during the past week cannot be accurately estimated, but it was considerable. In addition to saving the late crops which were badly in need of moisture to bring them to maturity, the rainfall extinguished the forest fires which had already done millions of dollars of damage to timber and which probably would have done considerable more damage despite best efforts to control them.

Domestic Wholesale Prices
Largely as a result of the increased coal prices due to the strike and an advance in the cost of building materials, the Department of Labor index of wholesale prices for June was 1.4 per cent higher than the May figure. The price advance which began in January has amounted altogether to nearly 9 per cent. During most of the six months from January to June the price of farm products advanced only slightly, and there was a large increase in fuel, lighting, metals and building materials.

The index shows that the position of the farmer has improved somewhat. The purchasing power of his products as measured in terms of other than commodities, at wholesale is about 28 per cent less than in 1913. This purchasing power is, however, larger than in December, 1921, when it was 38 per cent less than in 1913.

Situation in Industries
Taking the country as a whole employment is again close to normal. Conditions in retail lines as a result are classed as good. Building for the first seven months of the year was 80 per cent above the corresponding period of 1921, 35 per cent of the increase being residential, indicating that the housing shortage is being overcome.

crop prospects this fall, and it is reported that there have been heavy purchases for foreign countries on the declining market. For several months or until wheat from countries in the southern hemisphere is ready for market, Europe must depend on North America for its wheat supply and the price is expected to strengthen in the course of the next few months.

The Wall Street Magazine has made a careful study of the business situation with particular reference to the platitude of money. Over a period of the next year or so it sees the following rotation of events:

- (1) A definite rise in commodity prices.
(2) Expansion of industrial activity.
(3) Increased public buying.
(4) Reduced unemployment.
(5) Higher wages.
(6) A period of new inflation followed by a boom.
(7) A recession as the demand on the money market becomes more pronounced and money rates as a consequence climb upward once more.

WEST LINN DECIDES TO HAVE SPEED COP

To curb reckless motorists who use the West Side highway and whose speed through West Linn is held a constant peril to residents, a special speed officer will be on duty here the next two months at least.

The speed officer will have general powers within the county, and will be instructed to pursue and arrest all speeders and reckless drivers who whiz through the streets. It is expected that the fines derived from arrests will not only pay the officer's salary, but will leave a handsome balance in the city treasury.

Oregon City Mayor Gets Deer on Trip

Mayor Shannon, of Oregon City, is one of the first hunters of 1922 to bring in a deer to this city. Saturday morning at 2 o'clock, he and his wife, Mr. and Mrs. John Osborne and son and George Osborne, forming the party leaving Oregon City ten days ago for southern Oregon, returned after one of the most enjoyable trips. Two deer were gotten by the party. John Osborne getting the other, which was a three point deer, while that of Mayor Shannon was four-point.

Having made their headquarters at Tiller, Oregon, on the homestead of Mr. and Mrs. Charles Parker, residents of Oregon City for many years, made trips for deer hunting were also taken. Several fishing trips were also taken and the anglers had good luck. "I'll not go home until I get a deer," was the exclamation of Mayor Shannon while in camp, and Wednesday was his lucky day, for a deer hove in sight and the mayor brought it down with the first shot. He was then ready to leave.

48 Miners Trapped In Under Ground; Rescue Impossible

JACKSON, CAL., Aug. 28.—Forty-eight miners are trapped 4500 feet below the surface of the earth in the Argonaut mine, where a terrific blaze is burning at the 3000-foot level. All but two of the victims are foreigners. Little hope is held out for the safety of the trapped miners. Three men came through the flames to safety, but the fire has cut off the others beyond hope of early rescue.

Government to Give Local Post Office New Ford Delivery

The motorcycle used in the parcel post department for delivering packages from the local postoffice will be replaced by a Ford truck, according to word received by Postmaster J. J. Cooke, this to be furnished by the government. The motorcycle will be sold to the highest bidder.

Do You Remember?
Stories of the Old Pioneers and Yarns from Old Newspapers.

Do you remember when somebody set off a very powerful explosive in the Willamette river just below the falls one afternoon in the spring of 1905, and before the sun had gone down, the shores of Rocky Island, back of Mill A, of the Crown-Willamette Mills, were piled up with scores of dead fish and everybody working in the mills came home laden down with monstrous salmon, and during the night a fleet of boats headed for the island and returned loaded down with chinook and steelheads?

Do you remember when Canemah Park, now the Hawley Automobile Park, was named "Canemah Hot Springs" by Lawrence Ruonich? It was like this: Lawrence, fire chief in the year of 1907, escorted the Oregon City fire ladders to Astoria to attend the regatta. The boys were told by Ruonich if they "made good" during the regatta he would give them a "big time." The boys "made good" and were rewarded by Lawrence, when they were taken to 16 saloons, where they were supplied with plenty of "soft" drinks, the kind we don't have now, and were then taken to Seaside where some more were given them.

Do you remember when a free dining room was established in Oregon City with E. G. Caulfield as president; James Shaw, vice-president; W. A. Huntley, secretary; James P. Shaw, treasurer; T. W. Sullivan, Rev. A. G. W. Gibony and C. G. Huntley, board of trustees; Rev. A. Hillebrand, C. H. Dye, F. S. Kelly, finance committee; Rev. G. Sykes, Charles Meserve and H. Hargreaves, entertainment committee? The room was in charge of J. Prindle.

Do any of you remember the fire on the west side that destroyed the dry house of T. Bartlett, when it contained several hundred pounds of fruit in various stages of preservation? 1867.

Do you remember the time when Peter Rinearson resided on the banks of the Clackamas river and raised the finest peaches for the market, and also big juicy watermelons, and the fill when the kids used to "hike" down to get a feast? T. R.

Do you remember the pin stores the girls and boys used to have about the city, and when they would go to a store to buy pins in order to have an ample supply to buy empty perfume bottles, scraps of cloth or anything that could be dug up from the garret that brought good "pin prices"? And do you remember when one of the barns where a pin store was being conducted that took fire from an overturned lantern and the kids had to climb down with most of all falling through the big holes in the floor, several falling on setting hens? L. O. P.

FIFTY-FOUR YEARS AGO.

Fairs—The Oregon State Fair is to be held in Oregon, October this year. The Linn county and the Washington county fairs will be held in September.

Melon Patch—We have been willing for some time to admit that business was not very crowded in this vicinity, but when we were convinced by ocular proof, a day or so ago, that our merchants were cultivating melon vines in the street—without hedge or fence concluded "times were dull." The patch may be seen opposite the court house block. It is cultivated more for pleasure.

Quick Work—L. Zigler, of this city, aided by his colored assistant, Thomas Lee, in one week made 100 flour barrels at the factory on the Basin road. These were all made by hand, and in the best manner. This factory is turning out as good work as any on the coast, and should be patronized.

THIRTY YEARS AGO.

Superintendent W. C. Cheney, of the Electric Company, has moved his family from Portland to Oregon City, and is occupying a cottage on John Adams street.

Louise and Florence Paquet, daughters of Mr. and Mrs. Peter Paquet, have gone to The Dalles, where they are to visit their aunt, Mrs. W. E. Garretson.

Mrs. C. N. Greenman, Mr. and Mrs. D. E. Shepherd and Bert Greenman will leave for Willhoit Springs on Friday. Mr. Shepherd will return in a few days but the others will remain for a few weeks.

Mrs. J. D. Biles, of Portland, has been in this city visiting her sister, Mrs. F. L. Cochran.

L. H. Cowing and John Humphrys left last Saturday morning for Willhoit Springs, where they were joined by Ed. Reckner and Will Ackerman.

Mrs. C. O. T. Williams has returned from Chelamun mountains, where she has been the guest of Mrs. J. H. O'Brien.

FIVE MEN ARE ACCUSED OF WRECKING EXPRESS

Charge of Murder Made For Accident Which Resulted In Death of Train Crew.

CHICAGO, Ill., Aug. 29.—Five men are charged with murder today, accused of wrecking the "million dollar" express on the Michigan Central near Gary, Ind., August 26, when two of the train crew were killed.

Five others are held in connection with the wreck investigation and at least two more who are known are sought, according to the police. Confessions obtained from some of the prisoners not only solved the wreck of the express but bared a plot to send the Twentieth Century Limited, crack New York-Chicago train, into the ditch near Elkhart, Ind., the police said.

The five who face murder charges are: Joseph Papourvitch, Charles Usells, John Petrowski, Albino Alessio and James Prohatsch. All were said to be striking shopmen.

Usells, Petrowski and Papourvitch are said to have confessed the wreck formed the conductor that he would send it to "Canemah Hot Springs" in care of Billy Pratt. The trainman followed his orders and the money sent in the name of Canemah Hot Springs in care of W. E. Pratt, who was with the O. R. & N. company for years, later turned over to the fire chief the \$5 cents, the rebate.

FIVE NOMINATED FOR OSWEGO WATER BOARD

The committee appointed by the Oswego Commercial Club to investigate the proposed measure to incorporate a water district to include Oswego and Glenmorrie nominated commissioners at its meeting last evening. Petitions will be out by Wednesday of this week, according to Leslie L. Savage, who is a member of the committee and who has been instrumental in bringing the proposed measure before the Oswego residents.

Water districts are being formed, and bonds for \$100,000 will be sold to swing the project. Three commissioners are to be elected. Those nominated at the Monday meeting were William Boyd, Fred Norman, W. Chapman, H. B. Bickner and Charles Graham.

Although the sentiment seems to be divided about the measure, the feelings it will be approved, according to Mr. Savage. Some of the residents feel that they would like to see a larger territory included in the water district, while others are objecting to including Glenmorrie, on the grounds that the revenue from that section would not cover the expense involved in extending the district to that location.

Funeral for Irish Leader is Held At Dublin Cathedral

DUBLIN, Aug. 28.—Ireland tried to lay aside its bitterness for a day to bury Michael Collins. From the great Dublin cathedral where the body of the slain leader lay in solemn state before the high altar, the most impressive funeral cortege ever witnessed here wound its slow way toward Glasnevin cemetery just outside the capital, where Irish heroes are buried.

For an hour before the funeral procession started, all work in Southern Ireland ceased. Solemn requiem mass was celebrated for the repose of Collins' soul. A sorrowing nation, not yet recovered from the shock of its leader's passing, was represented in Dublin by thousands from all parts of the south.

Explorer's Vessel Is Stalled in Ice Near Bering Strait

NOME, Alaska, Aug. 29.—Captain Rold Amundsen's exploration ship Maud is in the ice off Point Hope, north of Kotzebue sound and the eastern entrance to Bering strait, according to a radio message received here today from the coast guard cutter Bear. It is believed here that the Maud is returning to Nome because of unfavorable ice conditions.

The message also gives definite information that Captain Amundsen, who left the Maud some time ago with Lieutenant Oskar Omdal, aviator, and a motion picture photographer, will spend the winter at Wainwright, near Point Barrow, apparently having given up his proposed trans-Polar airplane flight for this season, at least.

Oswego State Bank To Have New Home

Plans have been completed for the erection of a one story reinforced concrete bank building, 30 by 40 feet in dimensions, for the Oswego State Bank, recently incorporated with a capitalization of \$15,000. Directors of the new bank are: John Bickner, president; Ernie Poldak, vice president; Charles J. Sadilek, cashier, and W. B. Cook, all of Oswego.

The Woman's Column.
By Florence Riddick-Boys.

The Refining Influence of Literature As Clubs and as individuals we are getting away from bookishness into the practical business of living. We are living on romance and our poetry instead of reading it. This is well, but not all well. We would keep the soul growing, keep the romance and poetry of life fresh and vigorous, if we would keep drinking from the fountains of great literature. What is literature but the mirror held, by master writers, up to life? Its very language is refining and uplifting, its images are beautiful, its discernment into the way of nature and the workings and development of physio life is almost a revelation. By studying literature we watch the human soul and its ideals expand and we come to know humanity and how best to serve our own generation.

This is a day when books—the best of the ages—are available as never before. Let us not forget to mingle with those master minds, nor neglect the companionship of the world's greatest thinkers.

WOMAN-TORIALS
Culture does not arise from any particular study, but is a deepening and widening of the soul.—P. P. Claxton.

Twelve-year-old Miss Ada Greer, of Farnell, Texas, is a success-plus, agriculturally, having raised from one bushel of sweet potatoes on one quarter acre SEVENTY-TWO bushels,—more than triple the average yield.

Conservation in Public Life
Women—new in public life—are likely to be worked by the propagandist. Clubs should learn to investigate first before lending their influence to a newly presented cause.

LANGUAGE AS IT AINT
If a brave behaves bravely,
Would a slave act slavely;
Or an imp act imply;
Or a simp act simply?

If a girl is girlish,
And a churl is churlish,
Is dear Dad dadish;
And what is a radish?

WOMAN-TORIALS
There's a silver lining to every cloud. One result of hard times—when we have them—is to make college and high school students remain in school instead of going out to work. Financial depression over crowds the colleges.

Educational Exchange
Spain and Belgium have a system whereby professors and students from one country may go to the other and receive the same pay or credits as if at home, and are under the supervision of the homeland while studying abroad. Such reciprocity would be a blessing between some of our other countries and would make for better understandings, standardization of education, and friendly relations.

Great Things
The great things of life are not always, nor often, spectacular. In woman's life they are often the seemingly least and most common of occurrences the garnishing of a salad so as to make life look cheerier to the dearest man when he comes home at eve, tired; or it may be an extra bath swashed over the baby this sweltering weather, the bath which makes the difference between comfort and restlessness. It is great to do little things sweetly to make life rosier for somebody. If you don't believe it, try it. It has the pleasant kind of a reaction—not to mention action—for we must not always be looking for reaction.

CARE OF LINOLEUM
When linoleum is laid, leave one end and one side loose. Otherwise it will swell in ridges, which, being stepped on will crack and break. Never try to crowd it into too small a space. You will be surprised how long it takes for it to get all the swelling and contracting out of it, and it is not safe to tack it all around until it outgrows this habit.

Varnish the linoleum when it is new and it will wear longer. The more frequently you varnish it thereafter, the better service it will give, and it should be done at least each six months if there is much tracking over it, or if you have had to wash it frequently.

The less varnish there is left on the linoleum, the easier it will soil, and it will presently have a dull appearance and seem to absorb dirt quickly. Varnish will make a hard, shiny surface to which the dirt will less easily stick.

Wash it clean with warm water and soap before varnishing, and keep the family off until it is well dry. You can spread the varnish more thinly on edges and parts not much walked upon.

After it has been varnished, the less soap and washing powders used on it the better, for they remove varnish. It knew an old lady who wiped up her linoleum daily with a little milk in the water. It kept it oily. Yes, that was in the good old days when milk was five cents a quart—and she had a cow!

TAKING UP THE SLACK
Consumption of cotton around the world in the year ending with June, 1922, will probably come within a million bales of the record year, 1913-1914, according to the Department of Commerce. That would mean an increase of one-fourth over the consumption in the year ended with June, 1921. If the expectations of the department are fulfilled, the bogey of the excess production of cotton in recent years will be largely eliminated and something like the pre-war balance of production and consumption will be achieved.—The Nation's Business.

The Mut Motorist

The following article was awarded first prize in a recent "Knocker's Contest," conducted by the Syracuse Journal:

I knock the mut motorist. He leaves the curb without signal—stops suddenly in traffic without warning. He uses his horn instead of his brakes in a street filled with playing children. He steals places in traffic and "cuts in" regardless. Overtakes and passes another car near the brow of a hill or on a curve. Stops his car on a curve in the road without getting out of the roadway. He hogs the road. His lights are blinding, nor will he dim them—damn him. He drives with a snoot fuu. He is a curse—an abomination—an affliction to humanity. I knock him. —By A. M. Taylor, Assistant Advertising Manager, Franklin Automobile Company, Syracuse, N. Y.

LEGAL NOTICES
NOTICE
Bids for Wood
Sealed bids will be received by the County Clerk for the County Court, up to ten o'clock A. M. Wednesday, September 5, 1922, for fifty (50) or more cords of first growth wood, per cord, said wood to be delivered to the court house in Oregon City subject to the approval of the janitor.

SUMMONS
In the Circuit Court of the State of Oregon for Clackamas County.
Jesse R. Greene, Plaintiff,
vs.
Helen A. Greene, Defendant.
To Helen A. Greene, the above named defendant,
In the Name of the State of Oregon; You are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the expiration six weeks from the date of the first publication of this summons, which date of expiration is fixed by order of the above entitled Court as October 6, 1922; if you so fail to appear and answer plaintiff will apply to the Court for the relief prayed for in the complaint filed herein.

NOTICE OF FINAL ACCOUNT
Notice is hereby given that the undersigned, as executrix of the estate of Frederick Schwartz also spelled "Swartz," deceased has filed her final account in the office of the County Clerk of Clackamas County, Oregon, and that Monday, the 15th day of September, 1922, at the hour of 10 A. M. in the forenoon of said day, in the County Court Room of said County has been appointed by said Court as the time and place for the hearing of the objections thereto and the settlement thereof.

SUMMONS
No. 18816
In the Circuit Court of the State of Oregon for the County of Clackamas.
Mable L. Cox, Plaintiff,
vs.
Harvey E. Cox, Defendant.
To Harvey E. Cox, defendant:
In the Name of the State of Oregon, you are hereby notified and required to appear and answer the complaint of plaintiff in the above entitled Court and cause on or before Saturday, the 8th day of September, 1922, and if you do not so appear and answer, the plaintiff will apply to the Court for the relief prayed for in the complaint, to-wit:

For a decree dissolving the marriage contract heretofore and now existing between plaintiff and defendant; that she have the care, custody and control of the minor child of plaintiff and defendant, and that she have such other and further relief as to the Court shall seem equitable in the premises.

SUMMONS
In the Circuit Court of the State of Oregon for Clackamas County.
Frank E. Dumper, also known as Frank E. Wilson, Plaintiff
vs.
Daisy V. Dumper, also known as Daisy V. Wilson, Defendant.
To Daisy V. Dumper, also known as Daisy V. Wilson, the above named defendant,
In the Name of the State of Oregon; You are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before the expiration six weeks from the date of the first publication of this summons, which date of expiration is fixed by order of the above entitled Court as September 22, 1922; if you so fail to appear and answer plaintiff will apply to the Court for the relief prayed for in his complaint on file herein.

SUMMONS
In the Circuit Court of the State of Oregon for Clackamas County.
Winnifred M. Brown, Plaintiff,
vs.
Charles R. Brown, Defendant.
To Charles R. Brown, the defendant above named:
In the Name of the State of Oregon, you are hereby required to appear and answer the complaint filed against you in the above entitled suit within six weeks from the date of the first publication of this summons, as hereinafter stated and if you fail to so appear or answer herein, the plaintiff will apply to the court for the relief demanded in her complaint, to-wit: For a decree forever dissolving the marriage contract existing between you and plaintiff and restoring plaintiff to her maiden name of Winnifred M. Taylor, and granting to her such other relief as may seem meet with equity.

SUMMONS
In the Circuit Court of the State of Oregon for Clackamas County.
