"Home Coming" Day Of Grange Success

SANDY, Sept. 11—"Home-coming" day at the Sandy grange proved a decided success. Most of the members were present, there were many visitors from Eagle Creek, and the Damascus grange made a "surprise" visit. During the morning session local master J. G. DeShazer turned his chair over to Hon. M. C. Glover, state overseer, who gave an interesting talk during the deliberations. F. W. Bates also gave a fine talk on the work of the grange, and J. D. Chitwood of Damascus who organized the Sandy grange with 50 members in 1908 was called upon for a speech.

At the noon hour the master and chaplain led the march into the dining room, the guests falling in line, and all marched to the tables which were loaded with chicken and other good things. There were 116 people served.

The afternoon attendance was enlarged by several local visitors. The program included recitations by Robert Bodley, Florence De Shazer, Alta De Shazer, Florence Douglass of Eagle Creek, songs by James Milne and Roy Ward, solo and encore (in costume) by Miss Caroline Chown, accompanied by Mrs. Esson, and a number and encore by the Sandy quartet.

County Agent Holt gave an address covering the various needs of the farmers, and advised along feeding lines for the winter, etc. Holt urged the buying of whole grains through pool orders and each one grinding and mixing his own feed. He urged better financing for the farmer by business men, and the getting closer together of all farm organizations.

Glover gave startling figures (not "hearsay"), showing that Oregon county taxes have mounted higher and higher until the tax question is a "mighty serious one", and said that with out indebtedness averaging \$240 per capita for every man, woman and child in the state that we must "do something soon". Glover urged that grangers vote together, and send some one beside lawyers and doctors to the legislature. He also read figures showing how much heavier taxation is in Oregon than in other states.

A number of the visitors gave short greetings to the Sandy grange, among whom was Mrs. Johnson, lecturer at Damascus grange. Damascus invited the Sandy grange to meet with them the second Saturday in October, which invitation was accepted.

C. W. Kruse of Oswego, candidate for county commissioner was introduced and made a few remarks.

It was a great disappointment that State Master C. E. Spence had to be detained in Portland at court, as the hearing of the case as to whether the grange income tax would be allowed to go on the ballot, was not completed, which made it impossible for him to come and explain that measure as promised.

LOS ANGELES, Sept. 8.—Prospective candidates for governor and United States senator are becoming less "prospective" now that it has been discovered that the California law makes it extremely difficult for an independent to get his name on the ballot.

While it requires only one per cent of the total electorate of the state to bring out an independent candidate, all persons voting at the recent primaries are debarred from signing such candidate's petition.

The theory of the law, of course, is that those persons who failed to vote at the primaries or who were unable to vote for some reason might be dissatisfied with the results and want to enter on candidates of their own; but the effect is practically to confine the contest at the general election to the regular party nominees.

But it seems that few people were aware of the nature of the law, or had forgotten about it anyway, until just the other day when some legal shark brought it to light; even Ray Benjamin, republican state chairman, was found discussing the possibility of independent candidates, but after the law was pointed out to him, gladly corrected himself.

OSWEGO ITEMS

Water Front Lots Taken Off Market

OSWEGO, Sept. 3—The Oregon Iron & Steel company has withdrawn from sale about 30 water front lots on the south shore of Oswego Lake. Because of the lack of facilities for dumping and storing logs on the Willamette in the vicinity of that the Southern Pacific will not permit log trains over the steel bridge near Oswego. The sawmill interests are compelled to look to other localities for log storage therefore the Oswego Lake is the closest and best advantage to unload from the Southern Pacific, and then get the logs into the Willamette for towing to the mills in Portland.

It is understood that the Oregon Iron & Steel company has the matter under consideration. The ones that are interested in the proposed movement have thought the best way was to use the duck pond for the storage of the logs and fluming them from this point into the Willamette river.
