SHOPS IN OREGON WELL MANNED, SAYS SPROUL

SAN FRANCISCO, Cal., Sept. 9.—William Sproule, president of the Southern Pacific company, who has returned from an Oregon inspection trip, in a statement yesterday declared that more men are employed in its Oregon shops than were used before the railroad shopmen's strike.

Sproule's statement is as follows: There is greater activity in the business in Oregon than existed before the war. Of the 1300 miles of railroad the Southern Pacific operates in Oregon the number of men in the shops is now greater than before the strike. As to shop conditions on the line generally the number of men now at work in the company's Pacific system is greater than the number who went out on strike. All over the line this has been accomplished without hiring any strike breakers. The men at work are real workmen who desire the work and accepted the wages, rules and working conditions laid down by the United States railroad labor board.

EXTENSIVE USE OF EAST SIDE LINE IS INTIMATED

EUGENE, Sept. 8.—More extensive use of the east side line of the Southern Pacific between Springfield and Woodburn was intimated by President William Sproule in an interview here before leaving for San Francisco, after a tour of inspection.

The Woodburn-Springfield line will be the shortest route from Portland and points in the northern part of the valley when the Natron cutoff is complete. A more extensive use of this line for freight traffic and the electrifying of the west side line from Corvallis to Eugene would greatly relieve the crowded condition of the main line and facilitate train service. Both of the arrangements are among the present plans of the S. P., once the litigation in which the road is involved is cleared up, said the president. Only limited service is maintained on the Woodburn-Springfield line. With the construction of the cutoff all the lumber from the mills along the Cascade range could be shipped over the east side line to California and to eastern markets.

De Valera Fails To Attend Dail Meeting

DUBLIN, Sept. 9.—Eamonn de Valera, commander in chief of the Irish Republican irregulars, failed to put in an appearance today when the new dail ireann convened for its first session. Professor Hayes was elected speaker, succeeding Professor McNeil.

SAN FRANCISCO, Cal., Sept. 9.—William Sproule, president of the Southern Pacific company, who has returned from an Oregon inspection trip, in a statement yesterday declared that more men are employed in its Oregon shops than were used before the railroad shopmen's strike.

GENERAL ROUND-UP OF IRREGULARS IS STARTED

DUBLIN, Sept. 8.—Free State troops today began a sweeping movement to round up the republican irregulars, particularly in Limerick and Tipperary counties preliminary to the meeting of the Dail Eireann in this city Saturday. Several battles were fought and many republicans captured.

Communication between Dublin and Cork is still interrupted.

Whether Eamonn de Valera will make a dramatic appearance in Dublin tomorrow to attend the Dail meeting is problematical.

While many republicans will be released from jail to attend the Dail meeting, the government has decided not to release Zeon O'Kelly, "Sinn Fein ambassador to Paris."

Claims aggregating \$5,000,000 for damage done in the warfare between Free Staters and irregulars will come before the Dail.

Revising Book Of Prayer, Is Trival Affair Says Bishop

PORTLAND, Sept. 11.—"We consume too great a time in academic discussions of trival events that I do not believe vitally important to the church."

"I do not believe the General Convention a competent body to revise the book of common prayer."

"We have many things before us of more vital importance to the church than revision of the prayer book."

These were the hot shots which Rt. Rev. Irving P. Johnson, bishop of Colorado, fired at his colleagues this morning shortly after the House of Bishops started consideration of the first proposed change in the book of common prayer.

"We have consumed two conventions already in discussing changes in the prayer book and constitution, and have accomplished nothing," he said. "I believe we are attempting to do something ourselves which the people do not demand or want. I do not believe the General Convention a competent body to revise a prayer book. They might as well try to revise a score of music. The prayer book is a literary production, and I never saw a literary production produced by 729 people. We have many more things before us of more vital importance to the church than revision of the prayer book."

Clemenceau Plans To Tour America To Plead French Cause

PARIS, Sept. 11.—Georges Clemenceau is going to the United States to tell Americans they should stand shoulder to shoulder with France and England to finish the task of establishing world peace.

The old Tiger of France, who has been in virtual seclusion since his retirement from politics two years ago, made this decision in a telegram to the United Press.

He will make four speeches in America this year, according to present plans.

\$11,000 IN LOOT TAKEN IN PORTLAND ROBBERY

PORTLAND, Sept. 11.—Three thousand dollars worth of jewelry, furs and the like and an \$8000 twin six sedan, were stolen from the house and garage of F. J. Cobbs, 588 Montgomery drive, last night without knowledge of any of the eight occupants of the house.

The loss was discovered early this morning by servants who summoned Detectives Persinger and Morak. Later Detectives Moleney and Schulp were assigned by Captain L. A. Harms on this, Portland's greatest house burglary for years.

The burglars entered the home by jimmying a basement window. They then made a systematic search of every room in the house save the bedrooms in which the occupants were sleeping. Police say that burglars who could commit a crime like this without awakening sleeping persons must have been as clever as there are in the country.

The house is a mansion of twenty-two rooms, costing \$100,000 to build. The burglary must have taken more than an hour, the police believe.

Among the articles missed in the first check this morning was a seal skin coat worth \$1000 and silverware worth a like amount.

The big sedan was parked in the driveway and was used by the thieves to remove their loot.

There are only about a dozen machines of this same model on the Pacific Coast and it likely will be recovered.

EXECUTIVE COUNCIL OF A. F. OF L. OPEN SESSION

ATLANTIC CITY, N. J., Sept. 9.—The eyes of organized labor throughout the country were today focused upon Atlantic City as the executive council of the American Federation of Labor went into conference to lay down the organization program for the coming year.

Samuel Gompers, head of the federation, is to preside over the executive council sessions, which are expected to continue well into next week. Sitting with him are Frank Morrison, secretary, Daniel J. Tobin, treasurer, and eight vice presidents of the organization.

Also in attendance but without voice in the official proceedings of the council are a score of the heads of national labor organizations who will remain in touch with the American Federation of Labor officers and report developments to their constituents.

The shop craft strike and the Daugherty injunction, together with the American Federation of Labor's political program, were expected to lead discussions today.

SMYRNA BOMBARDED BY TURKS; GREEKS LEAVING

ATHENS, Sept. 9.—Smyrna is being bombarded by the Turkish Nationalists. Nine airplanes from the Greek naval base there arrived here this morning, the airman telling of their departure from the city under artillery fire.

The city is being evacuated amidst scenes of great disorder, according to refugees, 2200 of whom have arrived here. Panic reigns as the Turks approach the town, it is declared, and Greek soldiers are contending with the civilians for places on the outgoing ships. Rioting is reported among the troops in the Brusa sector in the north, where the Greeks are embarking at Mudania on the Sea of Marmora.

M. Kalogeropoulos, the premier designate, is expected to present the names of his ministers to King Constantine tonight.

"The only program we have is to try to extricate the country from the present critical situation," he declared.

KING CONSTANTINE MAY RESIGN THRONE, RUMOR

PARIS, Sept. 8.—Rumors that King Constantine of Greece intends to abdicate are current in several European capitals. They are considered here to have been given some color by the sudden recall of the Greek heir apparent, Prince George, to Athens, from Bucharest.

Unable to extricate their army from the Kemalists' hold, the Greek military leaders, it is believed here, will be obliged to accept any armistice terms the victors may dictate.

The allied commissioners have recommended to Hamid Bey, representative of the Kemalists here, that the Angora government propose an armistice to Athens.

TWO CHILDREN KILLED, FOUR HURT BY MANIAC

CLOVER, N. C., Sept. 7.—William Farris, 55 years old, textile worker, was rushed under heavy guard today to the state penitentiary at Columbia following a wild shooting spree, during which he fired on a group of children, killing two and wounding four others, one of whom is believed to be dying. The children were all members of the family of James M. Taylor.
