Passive Interest

IS NOW MANIFEST IN CITY ELECTION
Eight Offices to be Filled At November Election; Death Of Candidates Is Imminent For Positions on Council.
SHANNON UNOPPOSED IN MAYORALTY RUN
Three File for City Recorder; City Attorney Race Still Open; Petition Time Short.
Eight city offices are to be filled at the election in November. Approximately two weeks remains for the filing of petitions of nomination, and in only one office so far, definitely appears opposition. This is the office of city recorder. The others to be filled are councilmen, one from each ward making four in all, mayor, city attorney, and city treasurer. Unless something happens, Oregon City will probably have to hang out the "men wanted" sign for at least three of the councilmanic positions. T. C. Bridges, F. H. Cross, and J. E. Jack and R. J. Hodgson are the retiring members of the council. Bridges May Run. Only Bridges is definitely being talked as a candidate for reelection. There have to date been no filings for any of the council positions and none of the present incumbents have filed for reelection. James Shannon has filed his petition for reelection so far, definitely appears unopposed. Political dopsters have groomed no one else for the mayoralty and the prospects are that the chief municipal executive will be unopposed. C. W. Kelly, recorder, has filed his petitions for reelection, and will be opposed by J. H. Linzberg, and J. K. Morris. It is regarded as probable that R. E. Woodward will enter the run for recorder. Ely Is Candidate. For city attorney, O. D. Ely, the present incumbent has already filed for reelection, and is at present the only candidate in the field. During the summer, Chris Schuebt, former city attorney, was being groomed for the position, but no statement as yet has been forthcoming regarding his probable candidacy. George Swafford, at present city treasurer, has filed for reelection and in all probability will meet with no opposition. The improbability of any fight this year over the mayoralty and the languid interest being manifested in the city council positions, indicates that the city election this year will not brook the interest of former campaigns, nor is it generally expected that any issues will crop up in the coming half-month which will lend particular zest to the regular election as far as the municipality itself is concerned. The presence of clear and intriguing matters in the state, and perhaps on the county ballot, also has a tendency to subordinate local politics.
