MURDER PROBE STARTS HUNT FOR "LOVE NEST"

Clandestine Trips of Rector And Choir Leader Bared In Double Slaying Quiz.

NEW BRUNSWICK, N. J. Sept. 27.—Systematic search of hotels and apartments in New York in an effort to locate the "love nest" which Rev. Dr. Edward Wheeler Hall and Mrs. James Mills are believed to have visited or occupied during frequent pilgrimages to the metropolis was begun today by county authorities investigating the dual murder of the rector and his choir singer.

The belief that Dr. Hall made a rendezvous in New York where he and Mrs. Mills spent many hours on numerous occasions arises from the discovery that the couple made frequent journeys to New York together. These trips were clandestine and did not become known to relatives until after the slaying. Officials intimated the possession of evidence as to the location of the "love nest," but refused to divulge it. Jealousy is now accepted by County Prosecutor Stricker and his aides as to the motive of the crime.

Working on this theory, they have begun a careful check of persons who might have had reason for being envious of Dr. Hall and Mrs. Mills. When these persons are found an investigation of their activities on the day of the tragedy will be undertaken. Investigators maintained silence today as to the result of the grilling undergone yesterday by James Mills, husband of the slain woman. They would not confirm reports that discrepancies in his story had been discovered.

An effort to learn the disposition of a legacy of \$10,000 left to Dr. Hall several months ago by his wealthy mother-in-law is being made by the officials.

The warship Kilkisidemons and torpedo destroyers have joined the insurgent forces.

The abdication was preceded by a riot of the populace in the capital. The rioters served an ultimatum on their king in which he was given but one hour to step down from the throne.

The king immediately called General Metaxas into conference, at which it was decided the situation was in the hands of the revolutionaries.

The official abdication of Constantine was then announced.

Stories of the Old Pioneers and Yarns from Old Newspapers.

THIRTY YEARS AGO (Taken from the Oregon City-Enterprise of September 28, 1892.)

For Columbus Day—Superintendent Gibbons has appointed several teachers from the county school to assist in a joint celebration of Columbus day. Among those appointed are Professor Pringle, of the Oregon City school, C. E. Pease, of Canemah school, G. H. Dunn, of West Side school, Father Hillebrand, of St. John's school, and J. W. Gray, of Parkplace.

Water Power Improvement.—The work on the water power improvement goes steadily on though there is not a great flourish of trumpets over the matter. Last month the payroll was \$2500, and this month it will be nearly \$5000. About seventy-five men are employed on the drift wing and the breakwater together. For the breakwater or retaining wall or dam being constructed on the edge of the falls so as to divert the entire volume of the river to the flumes to be used for power purposes the usual coffer dam is built and the men work behind it to prepare for the permanent structure.

This work is being prosecuted during the season of low water, the only time when it can be done. The object of this structure is to be able to use the entire volume of river for power when the water is low. During the greater part of the year much more water must run to waste over the falls than can possibly be used for power.
